## FLOUR OF UNBURNED BONE.

MANUFACTURED only by THE BOSTON MILLING AND MANUFACTURING CO., Patentees and Sole Owners of the only machinery by which Flour of Unburned Bone can be made, which is acknowledged by the highest authority in the country to be absolutely the cheapest and very best Manure for all Agricultural and Horticultural purposes. All Flour of Bone made by them will be marked with their Trade Mark, none genuine without it.

Copyright secured.

All orders from Canada, Michigan, and that part of New York lying West of the Hudson River, except Albany, Schenectady and Saratoga counties, should be sent direct to

**BRIGGS & BRO., Rochester, N.Y.**

Who have the exclusive right to sell this article, wholesale and retail, in that territory. Orders from all other territory should be sent to

**C. H. GARDNER, General Agent, 16 Cortland St., N.Y.**

There are two grades of the Bone Flour, one, (the finest), called Flashed, the other No. 1. The following are the prices, subject to freight from New York or Boston:

Flashed.	No. 1.
\$75 per ton, (2,000 lbs.)	\$65 per ton, (2,000 lbs.)
\$28 per half ton.	\$33 per half ton.
\$10 per large barrel, (250 lbs.)	\$10 per large barrel, (200 lbs.)
\$5 per half barrel.	\$5 per half barrel.

To accommodate amateurs, lady gardeners, florists, &c., the Flour of Bone will be put up in packages for \$1, \$2, and \$3, and sent by express.

To save expense in freight, to customers, the Flour of Bone will be shipped from the Mills in N. Y., or Boston, direct to them.

Pamphlets giving prices, directions for use, analysis, testimonials, &c., sent free to all applicants.

## TESTIMONIALS:

1. Few substances have of late years done so much to increase the agricultural products of England as crushed bones for manure. — *Johnson's Ag. Chemistry.*

2. Bones, when finely ground, constitute one of the most permanent manures. They times richer in ammonia than ordinary farm yard manures. — *Rural Annual, 1864.*

3. One advantage this has over barn yard manures is that it contains no foul seeds. — *London Farmers' Magazine.*

4. I have found ground bones the very best and cheapest fertilizer to be obtained. \* \* It is worth from two to three times the same cost of stable manure brought from the city. — *A. P. Cumming, Ag. Editor, N. Y. Overer.*

5. Bones are of no value to crops until decomposed. Half-inch bones will last fifty years. This bone flour is finer than I have ever seen bones reduced by any other mode of grinding. I consider 75 bushels of this better for the first five years than fifty bushels of coarse bone. — *Prof. Mapes before Am. Institute Farmer's Club, N. Y.*

6. Flour of Bone.—Ever since its character became known to me by examination and use, I have persisted in its recommendation as the most economical concentrated fertilizer farmers can purchase. — *Solon Robinson, Ag. Ed. N. Y. Tribune.*

7. I have long used reduced bone, especially for grape vines, for which it is one of the best special manures in use. I have used the Flour of Bone with the most satisfying results. I can cheerfully recommend it for its goodness and purity. — *Peter B. Mead, late Ed. of Horticulturist.*

8. For fruit culture I consider the Pure Unburned Flour of Bone, the best and safest fertilizer. — *E. Williams, Small Fruit Nurseries, Montclair, N. J.*

9. E. G. Gordon wants a substitute for manure, for top-dressing grass land. In our opinion he will find nothing better or cheaper than bone flour. — *Solon Robinson, N. Y. Tribune's report of Am. Institute Farmers' Club.*

10. I tried several tons of Flour of Bone, and the result was most satisfactory. Being well convinced of its superiority over any other fertilizer I have tried, I do not hesitate to recommend it. — *H. F. Small, 23 South St., New York.*

11. Hop Growers.—I would recommend the use of one-fourth pound of Flour of Bone to each hill of hops, as the best fertilizer for a hop yard. — *P. W. Collins, Rochester, N. Y.*

12. This superior manure has been thoroughly tested—not like too many advertised preparations, that on testing will not bear the trial. We can speak very confidently about it, as we hear continually such high testimonials of its great value among our leading nurserymen and florists. — *Wright & Russell, Wholesale Tree and Plant Brokers and Commission Merchants, No. 35 Arcade, Rochester, N. Y.*

Flour of Bone.—From its remarkable and uniform fineness it must prove a valuable fertilizer. It is highly spoken of by those who have used it, and the testimonials from our leading men are of the highest character. We advise our readers to send for a pamphlet and read for themselves. — *American Farmer, Rochester, N. Y.*

## FRUIT AND ORNAMENTAL TREES.

## SUPER-PHOSPHATE OF LIME,

\$40 PER TON.

SUPER PHOSPHATE OF LIME, a highly concentrated Manure, prepared so as to give a greater quantity of the soluble phosphates, &c., and, as manufactured by us, contains in combination all the ingredients necessary to the nutrition of plants, and to the fertilization of soils. It contains Bi-phosphate and neutral phosphate of Lime in abundance, Sulphate and Carbonate of Ammonia; Carbonaceous substances and Nitrogenous organic matter, &c., gradually yielding ammonia to the soil. Manufacturing it of the best materials, and in the most approved manner, we offer it with the utmost confidence, as being fully equal if not superior to the best Peruvian Guano.

Manufacturers of the Celebrated Premium

## SCYTHES, FORKS, HOES, &amp;c., &amp;c.

THE superior excellence of these Tools is indicated by their high and unequalled popularity, and its rapid growth. Every article from this establishment is SPECIALLY MADE FOR USE. They have invariably won the HIGHEST HONORS at Exhibitions, and amongst their many prizes are the following:—

First Prizes at Provincial Exhibition in Toronto... in 1858.

First Prizes at Provincial Exhibition in Kingston... in 1859.

First Prizes at Provincial Exhibition in Hamilton... in 1860.

First Prizes at Provincial Exhibition in London... in 1861.

First Prizes at Provincial Exhibition in Toronto... in 1862.

Did not exhibit, there being no competition at the

Provincial Exhibition in Kingston... in 1863.

First Prizes at Provincial Exhibition in Hamilton... in 1864.

First Prizes at Provincial Exhibition in London... in 1865.

Medal and Diploma for First Prizes at the Provincial Practical Test Exhibition, or grand special trial of Agricultural Implements at work, held under the direction of the Board of Agriculture, on Mr. Logan's Farm, near Montreal, in August, 1859, at which these Tools COMPLETED VICTORIOUSLY, not only with Canadian makes, but with those from some of the best makers in New York, Vermont, and others of the United States.

The Proprietors have also the honor to state that these Tools obtained the FIRST PRIZE AT THE WORLD'S FAIR or Exhibition of all Nations in London, England, in 1862, for which they now hold the Bronze Medal. Also First Prize and Medal at the International Exhibition in Dublin, Ireland, in 1865, at which they were specially commended for "their excellence of manufacture and their moderate price."

**Caution to Farmers.**—As every tool of this make is thoroughly reliable, purchasers should always be particular in seeing to the stamp, (A. S. Whiting & Co., Oshawa, C. W.,) to make certain of getting the genuine article.

v3-6-21

## THE PEOPLE'S BEE HIVE,

IN its simplest form, and with all its attachments, is adapted to all—those who visit their bees rarely, and those who attend to them often.

"Our attention was called to a new invention for the housing and proper management of bees, the property of A. N. Henry of Oshawa, who has recently taken out a patent for his invention. Every difficulty with which the manager of the bee has to contend appears to be obviated by this ingenious hive, which to our mind includes every convenience for the proper management of the profitable little insect. We wish Mr. Henry every success with his enterprise."—*P. H. Guide.*

Price of Single-Walled Hive, without Miller attachment, \$2; with, \$3. Double-Walled Hive, \$4.50. Right only \$1 if bought with the first Hive, otherwise, \$2. For Hives or Circular, address,

A. N. HENRY, Oshawa, C. W.
