*Chicory, manufactured from Roots grown in the Province this season.*

1 J Barton, Toronto, 10s; 2 L. Pears, Yorkville, 10s.

The Judges in this class stated that they found the show of fruits very extensive, and generally of excellent quality, not unworthy of comparison with the contributions with which the Society has been favoured by our neighbours across the lake. The naming of the apples was in many cases incorrect, to which they recommend particular attention on future occasions. The show of vegetables and roots was also very good. The flowers were both few and inferior—doubtless from the dryness of the season. Upon the whole, there is every reason to be gratified with the result of the Exhibition in this department.
