quired in addition to the 30% of the gross receipts of the line to meet the interest on the I referred back the other day to the record of the meeting at which that agreement was recommended to you in 1890, and your then President, my worthy predecessor, described the line to you as being a feeder and a most valuable connection. A somewhat censorious shareholder who was present on that occasion got up and described it merely as "another leech to the Co." Well, experience has shown that that shareholder spoke with a prophetic instinct, because from the moment that the agreement was entered into up to the present time the earnings have never been sufficient to pay the interest on the bonds. When the C. and G. T. underwent its reorganization recently the receivers obtained permission to withdraw from the agreement so far as that Co. was concerned, and an increased liability was thereby thrown upon the G. T. Co. Under these circumstances, we have been in negotiation with the representatives of the bondholders of this line, and after a great deal of trouble we have arrived at a result which, I think on the whole, is the best that can be made, and it involves It is prosome saving in our obligations. posed that, instead of a working arrange ment, there should be a direct lease, and that we should pay a regular fixed rental of \$43,225 a year for the line, making what we can out of it, if anything is to be made out of it at all. The result would be that, upon careful investigation of the figures, we should be about \$13,000 a year better off than if the arrangement was to go on as heretofore. Therefore, I think there is good reason why you should accept the agreement, although I cannot hold out any reasonable expectation to you that the line will ever be much more than was so aptly described by the shareholder I alluded to just now.

I think I have touched upon most of the topics which are of immediate interest, and would only say for the immediate future, that is, for the current half-year, that our prospects appear encouraging. There apear indications, which may or may not be fulfilled that the price of some of the materials which enter into our working will be rather less. Rates recently have been slightly better, and up to April 21 our gross receipts over the whole system amounted to an increase of £65,000. Then we have also the adventitious opportunity presented by the Buffalo exhibi-tion, which I hope will bring some grist to our mill, and help the prospects of the present ½-year. If you ask me a question as to the future—a question which is frequently addressed to me and my colleagues on the board-my answer is, that I do not possess the gift of prophecy, although a good many of my correspondents seem to think that that is, or should be, a special attribute of the President of the G. T. Co. But that is not at all the case. I can only express the hope that the present prosperity may continue as long as possible—that it should continue for ever without any set-back or check, is certainly what we cannot look forward to; but, having said so much, I can assure you that, whatever happens, the board will not swerve from the policy which we have hitherto pursued and which so far has been attended with good results, avoiding all rash and unprofitable undertakings, cultivating good relations with our connections and competitors, developing our business, and, above all, steadily persevering with a judicious and remunerative expenditure for the improvement of our property which may secure us the largest measure of advantage in prosperous times, and enable us to hold our own should conditions become less favorable.

The report and accounts for the ½-year were adopted and the following dividends were authorized: 4% guaranteed stock, 2%;

1st preference stock,  $3\frac{1}{2}\%$ ; 2nd preference stock, 3%.

The acts of the Dominion Parliament referred to in the President's speech were accepted and the directors were authorized to exercise at their discretion the powers conferred by sec. 6 of the G.T.R. Act, 1901.

The retiring directors A. Hubbard, Sir H. M. Jackson, L. J. Seargeant and Lord Welby, were re-elected. The retiring auditors, G. B. Newton, London, Eng., and W. M. Ramsay, Montreal, were re-elected.

The meeting closed with a vote of thanks to the directors.

## Quebec Central Railway.

Following is the report for the year ended Dec. 31, 1900, presented at the annual meeting in London, Eng., June 5.

Following is a comparison of the year's revenue account with that of the previous year:

1899. \$502,409 334,238	Gross earnings	1900. \$537,995 368,544
\$168,171 974	Net earnings Interest on balances	\$169,451 777
\$169,145	Net revenue	\$170,228

The above statement shows increases in the gross earnings of \$35,586, in the working expenses of \$34,306, and in the net earnings of \$1,280. After providing \$81,234 for the year's interest paid and accrued upon the prior lien bonds and debenture stock, there remains a net revenue balance for the year of \$88,994, which, added to the \$24,676 brought forward from 1899, makes an available balance of \$113,670. Against this amount \$20,991 has been charged for damage caused by accidents, and interest at the rate of 2½% on the income bonds payable May 1, 1901, has been declared, absorbing \$74,022, which leaves a balance of \$18,657 to be carried forward.

Appended to this report are copies of acts recently obtained from the Quebec Legislature to further amend the charter of the Co. A general special meeting of the holders of income bonds will be held after the annual general meeting to approve the terms and conditions prescribed by the directors for the sub-division of the income bonds.

Up to Dec. 31, 1900, £222,087 of the new 4% debenture stock had been issued. Of this £196,100 had been used in retiring a like amount of prior lien bonds, and £25,987 had been sold to provide funds for a portion of the requisite additional capital expenditure authorized by the act of 1899. There remained \$153,900 prior lien bonds unexchanged on Dec. 31, 1900.

The directors regret to report that during the year the bridge over the River Etchemin at St. Anselme was washed away, and a collision occurred at Beauce Junction. The cost of these accidents amounted to \$20,991, which has been charged against revenue.

By the constitution of the Co., the board, other than the Provincial Government director, has to be elected annually, and the present directors offer themselves for re-election.

The accounts have been audited by Maitland Young, accountant, of Hamilton, Ont., as special auditor.
