

	PAGE
On the Structure, Micro-Chemistry and Development of Nerve Cells, with Special Reference to Their Nuclein Compounds	405
F. H. SCOTT, B.A.	
I. The Structure and Micro-Chemistry of the Nerve Cells of Mammals	408
II. The Development of Nerve Cells, with Special Reference to the Development of the Chromatic Substance of the Cell Body	418
III. On the Structure of the Nerve Cells in Other Classes of Animals	424
IV. Some General Considerations on the Structure of the Nerve Cells	429
V. Conclusions	435
Explanation of Plate No. I.	437
On the Cytology of Non-Nucleated Organisms	439
A. B. MACALLUM, M.A., M.B., PH.D.	
Contents	440
The Cyanophyceæ	441
I. Literature	441
II. Methods of Study and Material Employed	452
III. The Living Cell in the Cyanophyceæ	455
IV. Fixed Preparations of Cyanophyceæ	457
V. The Granules in the Cyanophyceæ	465
VI. The Heterocyst	469
VII. Cell Division.	470
Summary	472
Beggiatoa	474
Literature	474
Material and Methods of Study	476
General Cell Structure	477
Summary	480
The Yeast Cell	481
I. Literature	481
II. Methods of Study and Species Studied	488
III. General Cell Structure	490
IV. The Chromatin-Holding Structures	492
V. Budding and Sporulation	498
Summary	503
Explanation of Plate	505
The Anatomy of the Orang Outang (<i>Simia Satyrus</i>)	507
A. PRIMROSE, M.B., C.M., EDIN.	
External Characteristics	508
The Myology of the Extremities	524
Explanation of Plates	593
Literature	595
Errata	598
