

Merchants' Bank building, and the manager is Mr. A. C. Matthews.

—Among the bills before the Legislature of this province is the "Bureau of Industries Act" which proposes to attach to the Department of Agriculture the collection and publishing of industrial statistics. This measure, which we have already welcomed, imposes upon the Commissioner of Agriculture the duty of searching for facts and figures "relating to the agricultural, mechanical and manufacturing interests of the province", and that of disseminating the information so as to encourage immigration. He is to procure and publish early information relating to the supply of grain, breadstuffs and live stock in the other Province of the Dominion in Great Britain, and in the United States and other foreign countries in which the Province finds a market for its surplus products; and as to the demand therefor. The secretary of this Bureau to publish monthly or oftener during the growing season and to prepare at the close of each year a general report to the Commissioner.

—The tonnage employed in carrying timber or wood goods to the port of Liverpool was only 360,000 tons last year, whereas in 1880 it was 485,000 tons, in 1879, 326,000 tons and 1878 373,000 tons. The 360,000 tons of 1881 was distributed thus among the great timber shipping districts:

Quebec and Montreal .....	83,000 tons.
St. John, N.B. ....	70,000 "
Miramichi and other spruce deal ports .....	81,000 "
Pitch pine ports in the U. S. ....	68,000 "
Baltic, White Sea &c .....	58,000 "

Total ..... 360,000 tons

—The fiftieth annual meeting of the Bank of Nova Scotia was held in Halifax on the 15th ult. A resolution passed authorizing the directors to double the capital. This has in view, according to a press despatch, the amalgamation of some of the smaller banks with the Bank of Nova Scotia, should such policy be found feasible.

—The report of the Commercial Bank of Windsor, Nova Scotia, dated 31st January last, shows that \$24,150 has been earned for the year after writing off bad or doubtful debts and losses. To do this on a paid capital of \$260,000 is to do by no means badly, and when 8 per cent. dividend is paid and a large balance carried forward, it prepares one to learn, as we do, that the stock was selling last week at 133. ## EBY, BLAIN & CO.,

IMPORTERS & WHOLESALE GROCERS,  
Front & Scott Sts., Toronto.

## G. B. SMITH & HENDERSON

Who have lately removed to

39 FRONT STREET WEST,

And who have created so great a sensation by announcing the small amount of their losses during the last year or so, find many of their opponents saying that is because their terms of credit are so short, but the fact is their terms are not

shorter than the bulk of the live Wholesale Dry Goods trade of this Province, and are just the same as the large New York, Philadelphia and Boston wholesale houses.

The way G. B. S. & H. avoid losses is in refusing to sell to any except sharp, prompt paying Merchants and selling to them a little under current prices.
