MEMORANDUM

These two volumes of statistics covering Canada's  
bilateral relations are produced from a data base  
maintained by the Library of the Department of Ex-  
ternal Affairs and are intended as a ready reference  
source. In preparation of these volumes was published  
with the fact-checked in tables based on statistics  
from the period 1945-1965. The data have been expanded to  
include information on the most important aspects  
and domestic reports with each of our leading news  
papers. In addition, there is now a second volume where  
the data is expanded to include. It is noted that  
the new volumes will help to highlight some of Canada's  
particular relationships with other countries.  
It should be noted that the earlier data base  
is expanded correspondingly to provide similar data  
for countries whose relationships are provided by the  
Library of the Department of External Affairs.
