U.S. Steel's Excellent Statement Resulted in Scramble to Buy... Opening Was Weak...

But Pronounced Strength Soon Developed Practically Throughout List...

NEW YORK, July 12.—From an irregular and hesitant opening, today's stock market gradually turned strong under lead of United States Steel and the so-called war issues, in which some notable gains were recorded with a new high price for Bethlehem Steel at 176.

The feature of the final hour, when the day's highest quotations were recorded, was the sudden demand for United States Steel, which changed hands in individual lots of 1000 to 4000 shares at the best price in some days.

Steel's strength was attributed mainly to its favorable June tonnage statement and the advance American car was another active industrial, ranking almost second to steel at a gain of 3 1/2.

War shares were conspicuous throughout the session, about the demand for these issues lost none of its wonted professional character. Among the more striking gains in this group were American Coal Products, 20 points; General Motors and New York Airbrake, 10 each, and Bethlehem Steel, 10 points.

There were no special developments to account for today's sharp advance and for want of some more specific reason the movement in the war group was accepted as a partial response to Germany's offer in London in respect to the armistice, together with the belief that differences between Washington and Berlin are likely to be adjusted in orderly fashion.

Reading Was Heavy. Representative rallies were under pressure during the early part of the day, particularly Canadian Pacific, Union Pacific and Reading, the latter showing marked heaviness. These stocks as well as others of lesser prominence were the main support for the advance. Canadian Pacific being assisted by denial of reports that the Canadian Government had contemplated the nationalization of that property. Total sales of stocks amounted to 565,000 shares.

There was further selling of bonds for Europe, but these offerings made only a slight impression on the market. Total sales (par value) aggregated \$1,820,000.

Natural Reaction in Timiskaming After Sharp Rise. On the Standard Exchange the mining market yesterday was active and strong. There was again in the afternoon a large block of stock in said to have been taken over by New York interests, who intend to make an active and higher market for it on the burs.

Mintyre Again Strong. Mintyre was opening at 4 1/2, selling up to 4 3/4 and closing at the top. For some days there has been quiet accumulation going on in Mintyre. There is still a big short interest which is being covered at any time. A large block of stock in said to have been taken over by New York interests, who intend to make an active and higher market for it on the burs.
