Liverpool Wheat Market.

Liverpool Wheat Market.

LIVERPOOL, July 29.—Wheat—There was a firm undertone at the opening, with values 1/2d to %d higher, and, following the opening, further advanced 1/2d to %dd, with the principal support in July. The strong American cables, supplemented by very bullish cables from Armour last night regarding the outlook for spring wheat, caused heavy covering by shorts. Spot markets were quiet, with a small deot markets were quiet, with a small de mand, and there continues a quiet de-mand for both cargoes and parcels, with English country markets 6d lower for the week, with weather here favorable for week, with weather here favorable for cutting, which is progressing favorably, and offered rather freely. Toward the close there was an improved demand for winter wheat, and, with the closing firmness in Buenos Ayres, together with unfavorable reports from Russia and bullish advices from India, the advance was established on a more firm basis, and some speculators and prominent interests supported. At the close the market was strong and %d to 1%d higher than yesterday, Corn opened unchanged and later advanced %d in sympathy with wheat.
