LABOR MAN DEPLORES UNAUTHORIZED STRIKES

London, March 6.—W. A. Appleton, general secretary of the Federation of Trades Unions, issues in the official organ of that organization a warning of the effect on British trade of irresponsible and unauthorized strikes. Mr. Appleton says:

Steel is being offered by Great Britain's competitors at a much lower rate than Great Britain can produce it, even with the aid of a subsidy. Lancashire, with 75 per cent. of her trade overseas, is faced with a very little increase of what it will cost Great Britain to place coal in ports ready for export."

FOODSHOPS STORMED No Change Noticeable in Strike Situation in Central Germany.

Copenhagen, March 6.—Both the Spartacans and the government forces lost a large number killed in fighting Wednesday before police headquarters in the Alexanderplatz, according to a Berlin despatch to The Politiken. The fighting finally was ended by negotiation.

HESITANCY IS SHOWN IN MONTREAL MARKET

Several Stocks, However, Close With Gains—War Loans Are Strong.

Montreal, March 6.—There was a pause in the recent well-sustained strength in the local stock market, buyers appearing to be making time, so that in the majority of instances sellers were compelled to take small losses. The market was not altogether one-sided, however, and several stocks closed at net gains of a fraction or better. Among the latter were Spanish River preferred, National Breweries preferred, both at net gains of one point, and Montreal Power, Montreal Cotton, Smeets, Shawinigan, Wabano, Cotton and Hordorn. Montreal Power was again the most active stock in the local department, selling up to 91 1/2.

The strength of the bond issues was a feature of the trading, the Victory loan moving to new high prices for the most part, but the older war loans remaining steady and quiet. The 1927 Victory loan made a new high at 105 1/2, with the close at that price, a net gain of 1/2; the 1933 went to 104 and closed at 103 1/2, a net gain of 1/2; and the 1927 sold up to 102 1/2, a net gain of one point, while the 1923 bid differed from its predecessor.
