Victory--and 5½ Per Cent.

Many millions of dollars, the slowly accumulated savings of people of "small means," lie half-idle in Canada.

Now here is a godsend to exactly these people. The Victory Loan offers them for their sweat-won money a safe investment of 5½ per cent. yearly.

And the security is a revelation to those who have not yet thought it over. The rate of interest in the Post Office Savings Bank—which is a fair yardstick by which to measure—is about 3 per cent. This is offset by the rock-solid assurance of the Government Security. Well, precisely the same security lies behind the Victory Bond at 5½ per cent.—that of the Government and the iron faith and the pledged word of the whole Dominion. There is absolutely no uncertainty.

Victory Bonds, too, are easily saleable. Any banker or broker will handle them. The price is openly quoted every day in the newspapers.

These are some of the reasons why all are urged to invest in the Victory Loan, 1919. The opportunity alike to serve the country and to add to the annual interest is one rich and rare.

For the convenience of our customers a booth for the sale of bonds, and for supplying information about them, has been opened on the Main Floor of the Store, Yonge St. Entrance.

Follow the red ribbon from the doorways.

### SICK OF AUTONOMY; WANT TO JOIN CHINA

Chinese Government Receives Petition From Chiefs of "Mongolian Banners."

Peking, Oct. 30.—The Chinese government has received a despatch from Can Yi, Chinese ambassador at Urga, capital of outer Mongolia, reporting the receipt of a petition signed by the chieftains of the "Mongolian Banners."

This petition sets forth that a few years ago the Mongolians had been deceived by intrigues into declaring autonomy, but since then they have been bullied by the Russians. They now envy the princes and chieftains of Inner Mongolia, who they say, receive specially favorable treatment from the Chinese government.

They express in their petition the wish to cancel autonomy and return to the protection of the Chinese government. They desire the government to redeem the loan which the Urgus government contracted with Russia. They also request that the salaries or allowances of the princes and chief-

tains be paid by the central government.

Chen Yi recommends that the petition be granted, adding:

"For if the government hesitates the chance may be lost forever." The government has sent a telegraphic message to Chen Yi accepting the offer and promising to pay the salaries and allowances, \$800,000 being voted for that purpose. The ministry of foreign affairs has been instructed to open negotiations with the Russian legation for the cancellation of the Kiakhta treaty, under which the autonomy of outer Mongolia was recognized by China and Russia.

Hold Five Montrealers For Death of a Soldier

Montreal, Oct. 30.—Four women and a man were held criminally responsible by the coroner's jury for the death last Thursday of C. A. Piche, returned soldier, at the inquest held by Coroner MacMahon yesterday morning. They are May Anderson and Mathilda Julien, May Whelan, Nellie Murphy and Pitro Rousseau. The evidence given by the witnesses was practically the same in each case—that the Anderson woman had given Piche two injections of morphine. Evidence was also to the effect that Piche had cashed a cheque for \$70 before entering the Anderson woman's house, and that the money was stolen from him. The five were, following the verdict, placed under arrest.

LORDS REJECT MOTION CHARGING EXTRAVAGANCE

London, Oct. 30.—The house of lords by a vote of 52 to 13 has rejected a motion expressing the opinion that the government had been guilty of extravagance.

Lord Beaverbrook declared that inflation was the real cause of the financial troubles. He deprecated the proposed capital levy and increase in income tax and advocated the taxation of fortunes, which, he stated, would serve to raise fifteen hundred million pounds sterling.

Lord Beaverbrook repudiated the charge against the government of extravagance. He stated that the administration in the past year had made a sincere effort to practice economy.

### FISHING BOATS LOSE MANY MEN IN SQUALL

Fog Shut in Over Fishing Grounds After Schooners Had Sent Out Their Men.

Boston, Oct. 30.—Vessels fishing out of this port lost many men when a squall swept over the fishing grounds last Tuesday. Crews returning here today told of vessels that were lost when men were cut off while hauling trawls. The schooner Reading reported that she had lost 16 of her men in the squall and for three of these men rowed 80 miles to safety at Nantucket and six others were reported picked up by another vessel.

The Ethel B. Penny came up the harbor with her flag at half staff for three of the crew who strayed away. The Athens is reported to have lost one man and the Elk two men. The latter was said to have aboard two men who were cut off from another vessel and the captains of two schooners arriving here expressed hope that many of the other missing men would be picked up.

12,000 FRENCH FAMILIES APPLY FOR GRANT

Paris, Oct. 30.—Twelve thousand French families have applied for the grant of 25,000 francs from the great fund established by Theodore Cognacq, the French millionaire philanthropist, to assist families of nine children or more from the same parents. Ninety grants are to be made yearly from the Cognacq fund of 50,000,000 francs, which was recently turned over to the French academy of medicine for this purpose. The money which is to go to the most deserving is to be used to pay for the tuition of the children or establish them in trades.

The French academy of medicine met this afternoon to investigate the various applications and to decide which families are most deserving to receive the gift.

### PARIS REDS AIMING AT GENERAL STRIKE

Absence of Labor Federation President, at Washington, Gives Them a Chance.

Paris, Oct. 30.—The absence from Paris of Leon Jouhaux, president of the General Federation of Labor, who is on his way to America to attend the international labor conference at Washington, has caused the extremists in the Federation of Labor to make an attempt to organize a general strike for November 7.

Circulars are now being sent to unions throughout France asking the opinion of the local committees as to the advisability of all organizations starting a general strike in protest against intervention in Russia and convoking a commission to examine the proposition. Keen opposition to M. Jouhaux and the other four delegates to the Washington conference developed before the mission's departure. The extremists opposed the voyage, claiming French labor should not collaborate with certain classes attending the conference, which they consider harmful to the French workingmen's interest.
