HAPPENINGS OF A DAY.

Items of Passing Interest Gathered in and Around this Busy City.

Many citizens went by boat yesterday to Niagara to witness the fireworks at the Falls. For stealing two razors from All Morris, 554 Queen west, Duncan Cameron was sent to jall for 10 days.

The Methodist Ministerial Association will resume its sessions on Monday morning next at 10 o'clock, when the annual meeting will be held.

meeting will be held.

In Grace Church, Elm-street, there will be special services to-morrow. The rector will preach at 11 a.m. and Rev. Alexander Williams, M.A., at 7 p.m.

Dr. W. H. Hicks of New York will lecture to-morrow evening in St. George's Hall, Elm-street, on "The Philosophy of Spiritual Christianity."

The Toronto Field Battery has received its new guns, and yesterday shipped the four old ones to Guelph, where the two batteries will be raised from four to six-

gun establishments.

The annual meeting of the Mendelssohn Choir for the election of officers and traisaction of business; etc., will be held at the Guild Hall on Monday evening, the 27th inst. at 8 o'clock sharp.

Martha Anderson, the alleged fortune teller, did not appear when called in yesterday's Police Court, and the case was remanded till Monday. The Crown had a number of young women on hand to testify against the accused.

The Rev. Prof. Clark has returned to the city after a pleasant trip to the Old Country. Mr. Clark will preach at both services on Sunday in S. Margaret's. In the evening he will speak upon "Some Things He Saw in England."

"For Fair Virginia."

Mr, and Mrs. Russ Whytal, who are among the youngest as well as the ablest of American star players, will be again seen at the Grand Opera House all next week, with the usual Wednesday and Saturday matinees.

Washington, D.C., Sept. 24.—A cable-gram received at the State Department from United States Minister Stuart at Montevideo announces the proclamation of peace there.

ences that existed during the most eventful period of American history of the past half century, the author has aimed to justify rather than to condemn the actions of those whose heart promptings separated them from loved ones. The story tells of a loyal Union man, and an equally loyal Southern woman, man and wife, whose marital relations were supremely peaceful until the sympathies for the lost cause overpowered all other considerations and forced Virginia Esmond to take issue with the one she had sworn to love, honor and obey. Amidst the struggle of the mighty conflict, frequent moments of regret on the part of the young wife occur, yet not until the last gun at Richmond is fired does she surrender. It will be observed that the war element is a potent factor in the development of this story, and yet the audience is permited to hear and see very little to remind of the actual scenes of the battle field. You hear the roar of the cannon in the distance and occasionally the author in some manner or other brings his listeners to a realization of the terrible results of a hard fight, yet so detly and cleverly have the scenes and incidents been planned and arranged that the entire action of the play is as unique as it is refreshing. "For Fair Virginia" received its initial production at the Fifth-avenue Theatre, New York, three seasons ago, where it made an unqualified hit. The author was highly commended for the beauty of his language as well as for the brilliancy of his dramatic construction. In fact, it has been a long time since a play by an American writer has been treated with such special marks of distinction by the metropolitan critics as that bestowed upon Mr. Whytal and this verdict was fully confirmed in Toronto two years ago. There is a brilliant supporting company and special scenery is used.

### Death of Mrs. T. G. Mason.

Ing he will speak upon "Some Things He Saw in England."

The special annual service for St. Stephen's Parish Guild. College-street, will be held to-morrow at 11 a.m. Sermon by the rector. The members of the several chapters and their friends are invited to attend the corporate communion at 8 a.m.

To-morrow evening in St. Patrick's Church there will be solemn musical vespers and a sermon by Rev. Father Mehard of St. Basil's. A collection will be taken up for the benefit of the poor of the parish. Signor Dinelli will preside at the organ.

### PREFERENTIAL TRADE.

In an article in yesterday's World referring to preferential trade, a quotation was introduced purporting to come from The British Trade Journal, the most influential journal of its class in Great Britain. The World inserted the quotaferring to preferential trade, a quotation Britain. The World inserted the quotation on the authority of The Ottawa Citizen. It appears that The Citizen was in error in attributing the quotation to The British Trade Journal. The paragraph really first appeared in The Canadian Manufacturer, and consequently has little weight as representing a little weight as representing all of a high class. quently has little weight as representing the feeling of the British public in re-Caledon, Ont., Sept. 24.—Pearl, the gard to preferential trade. However, The British Trade Journal holds pretty much the same view on the question of preferential trade as that attributed to it in the quotation referred to. In a

\*\*Tit is only reasonable to suppose that when once the British colonies have given British manufactured goods a preference in their tariff over the manufactured goods of foreign countries, the matter will not rest there. The next step must be one of reciprocity. Canada, Australia and the Cape will very propelly ask, what advantage is it to as that we give your manufactured goods this preferential treatment, unless you at home respond by similar discrimination in favor of British colonial produce? Then the home Government will have another problem to solve; and they will be likely to solve it only in one way. That is the nightmare from which the foreign exporter is now suffering. way. That is the nightmare from which the foreign exporter is now suffering. He sees it as a spectre approaching from the distance, and he fears it will end the halcyon days of direct taxation in Great Britain. It will mean that the idea of national or Imperial solidarity, which has so long influenced the legislation and the economic policy of the United States, France, Germany, Russia and other countries, must at last be extended to the British Empire."

at yesterday's fires fully confirms this general verdict. Everyone is asking, what is the matter with the Department? At the Eckardt fire much unnecessary damage was done to the stock within the building by a useless flood of water, while at the fire on Yongestreet last night a lack of intelligence and discipline in fighting the flames was painfully manifest. The insurance men are very much dissatisfied with the way fires are handled in Toronto. A fire in the centre of a big city like Toronto is a very serious matter, so serious indeed permanent.

"Dr. Pierce, I am one of your most grateful patients," writes Mrs. Annie M. Norman, of Golden Medical Discovery, also 'Favorite Prescription' and 'Pellets' with wonderful results. I am, as many of my friends tell me, like the deconstant of Policy and Policy in the consumption and death was only a matter of time. That was six years ago. I concluded to try our medicine. I continued until I had taken nine bottles of 'Discovery' and several bottles of 'Pellets.' I got well and have done a great deal of hard work since."

A bilious, dyspeptic condition of the system not only makes life miserable, but it is sure to lead to something worse, unless promptly taken in hand and corrected. It is foolish to attempt to dodge such troubles by any mere temporary expedient. The only sensible way is to get rid of them for good and all by a thoroughly rational, scientific medicine like Dr. Pierce's Golden Medical Discovery.

It cures all disordered, debilitated conditions by its direct action upon the liver and digestive organs; it gives them power to make fresh, healthy blood free from bilious impurities; it drives all disease-germs out of the circulation; it creates solid, muscular flesh and constitutional power.

### THE Monster Shoe House

210 Yonge Street, TWO STORES: 510 Queen West.

# The Stores will be open Till Ten o'Clock p.m.

The Monster Shoe House has no quarrel with the retail shoe dealers—our most bitter competitors are the wholesale shoe jobbers of Toronto—the Front-street men--for twenty years they have been fignting us because we take money out of their pockets by dealing direct with the big manufacturers.

The jobbers have adopted every method they know of, or think they know of—to try and dislodge us. They have subsidized stores to come as near us as possible, and they have lost their subsidies and much more money than they can forget about in a day. They have helped LITTLE FELLOWS to pay advertising, thinking that our success was due solely to good advertising—and these little tellows have come, stayed awhile and then gone by the board—after hypothecating the shoes entrusted to them. If the jobbers had their way the Toronto workingman would be paying \$1.50 for the shoe we sell to him now tor 70 cents.

If the jobbers could crush GUINANE the TORONTO PEOPLE would have to pay them from 50 cents to \$1.00 on every pair of shoes sold in the city—and Mr. Jobber would add a brick stable and a coachman to his brown stone-fronted mansion.
