SCHOOLS FILLED UP FAST At the Three Collegiate Institutes There Were More Applicants Than Accommodation.

MODEL SCHOOL ALSO OVERCROWDED Contractors for Coal Cannot Supply Orders at Present—Public Schools Open To-Day. The three Collegiate Institutes were opened for the fall term on Tuesday morning. Several hundred more pupils applied for admission than could be accommodated, although when the classes are arranged it is expected that seats will be found for a great many more than at first. At Harbour there were fully 230 new pupils, while at the other two schools there were 100 and 150 respectively. The Property Committee of the High School Board met yesterday afternoon and discussed the tenders that have been awarded for coal. The coal companies securing the contracts cannot supply the full orders at present owing to the strike. The chairman of the board and the principals of the Collegiate will meet to-day to arrange more accommodation for the pupils. The Provincial Model School was also opened for the 175 vacancies. The Public and Separate Schools will reopen at 9 o'clock this morning after the summer holidays. The schools will all be in readiness to receive the scholars.

DON'T WANT THE LIQUOR STORE Residents Oppose Transfer of License of E. W. Morgan. The petition of E. W. Morgan for the removal of his liquor store from 401 West Queen-street to the corner of Harbord and Major-streets was before the Board of License Commissioners at a meeting held on Tuesday night. F. A. Anglin appeared for the petitioner, and the proposed change was opposed by Principal Caven, Prof. Farney, Rev. Dr. Wallace, Rev. Dr. Hicks, P. Thomson, K.C., and Ald. Urquhart, residents of the district in which it is proposed to open the liquor store. It was argued that the petition was before the Board of License Commissioners at a meeting held on Tuesday night. F. A. Anglin appeared for the petitioner, and the proposed change was opposed by Principal Caven, Prof. Farney, Rev. Dr. Wallace, Rev. Dr. Hicks, P. Thomson, K.C., and Ald. Urquhart, residents of the district in which it is proposed to open the liquor store. It was argued that the petition was before the Board of License Commissioners at a meeting held on Tuesday night.

Up Mount Sir Donald. Great Graeter, B.C., Sept. 2.—Miss Marion Raymond of Boston, accompanied by two Canadian Pacific Swiss guides, reached the summit of Mount Sir Donald yesterday. This is only the second ascent of this famous peak by a lady. Mrs. Hearn, an English woman, having climbed it last season. It is reported that Prof. Collie has suggested Mount Forbes, one of the highest of the Northern Rockies.

HAMILTON NEWS

Remember, THE MORNING WORLD is Delivered to Any Address in Hamilton for 25 Cents a Month—Phone 804.

LAST DAY OF BARTON FAIR Open Trot or Pace Was the Ring Feature and It Took Five Heats to Settle It.

GOODALT'S NELLIE WILKES WON Call From Knox Church to Rev. R. W. Dickie of Orangeville Not Sufficiently Signed.

Hamilton, Sept. 2.—This was the last day of the Barton township fair, held on the Mountain. The open trot or pace was the ring feature and five heats were required to settle it. H. Goodalt's Nellie Wilkes won, with Chas. Poag's King Dan second and Wm. Smith's Shell Bess third. The best time was 2:30.10. The race was a hot one, and the crowd was large. T. Wynham was first, H. Marshall second, and W. Lebarre third.

At the Hamilton Presbyterian meeting today, Rev. R. W. Dickie of Orangeville was set aside because of the insufficiency of signatures.

THOUSANDS OF LIGHTS ILLUMINE THE FAIR

Sight of Never-To-Be-Forgotten Splendor When Current Was Turned On, Transforming Home of Foresters Into a Blaze of White and Colored Lamps.

A gorgeous sight was presented to the citizens of Toronto and the thousands of visitors in the city on Tuesday night, when the illuminations of the Foresters' Temple were turned on, presenting myriads of white and colored electric lights and producing a blaze which lighted up the streets for some considerable distance around. It was the most elaborate picture that has ever been seen in Toronto, and it is saying a great deal, behind it, the dial of the clock in the new City Hall looked like the pale disc of the moon and the street electric lights like mere candle dials. Far out into the lake the Temple, reaching far above the tallest buildings in the downtown district, was conspicuous. The streets about were thronged with admiring crowds. Everywhere exclamations of delight were to be heard, and the order whose enterprise is responsible for the display, received many encomiums. Praise From Lord Dundonald. Shortly before 9 o'clock Lord Dundonald and his staff drove up to the Temple and for several minutes the D.O.C. gazed upon the scene with admiring eyes. The gallant officer, who has already become so popular, alike with citizens and soldiers, stated to those about him, and the remark was communicated to everyone, that it was one of the finest sights he had ever seen. Dr. Oronhyatekha drove up a little later, and the chief's face was expressive of the keen delight he felt. The same story can be told of everyone, including many American visitors to the Fair, who witnessed the sight.

The illuminations eclipsed in splendor even the brilliant spectacle attempted when the Duke and Duchess of Cornwall and York visited Toronto last October. The Temple in itself is a sight for exhibition visitors. During the day several thousands visited the building, and the three elevators, capable of holding 14 persons each, carried many up to the tower, where a splendid panoramic view of the city can be obtained—probably the most picturesque to be had anywhere in the city.

From Foresters' Own Plant. The gentleman who is responsible for the illuminations of the Temple, is George A. Wilkie, superintendent of the building. He took a World representative in charge on Tuesday evening and talked freely and entertainingly of the manner in which the scheme was carried out. He explained that 1600 amperes of current are required for the 13,000 lights used in the display, and of this amount 1500 amperes are generated by the Foresters' own plant in the basement of the building. To make this showing, three 100-horse power engines and one 50-horse power engine are required. The larger engines were manufactured by Goldie & McCullough of Galt, and the smaller one by the Westinghouse Electric Company of Pittsburgh, Pa. There are four generators, three large ones having been manufactured by the Walker Co. of Cleveland, which is now amalgamated with the Westinghouse Co., and the smaller one by the Westinghouse people. In the engine room are three 120-horse power Heine water tube boilers, supplied by the Canadian Helme Boiler Co. On the furnaces is used the Jones underfed stoker, which enables them to use soft coal screenings as fuel. The equipment of the boiler room is up to date in every particular, having tracks for taking the ashes from the furnaces to the ash pit, which elevates them from the furnace above the stairwells to the level of the carts. The engine room is also complete. Nothing that could be desired to make the work of the men easy, as well as to make the plant the most efficient and economical in the world, the switchboard itself will repay the time consumed in visiting the room to view it. The whole plant and rooms are kept in the most perfect apple order and speak well for the interest the employees have in their work, as well as for the interest the officers of the order take in their employes.

Scene From the Tower. Going up to the tower The World had an opportunity to see the illumina-

Had Lost Hope of Getting Well Years of Keen Suffering From Kidney Disease—Owes Life to Dr. Chase's Kidney-Liver Pills.

Mr. R. J. McEwin, Niagara Falls, Ont., a man of 80 years, and well known throughout the Niagara district, writes: "I believe it had not been for Dr. Chase's Kidney-Liver Pills I would be in my grave before this. I was very bad with kidney disease, and suffered with dreadful pains in my kidneys. Being disappointed in the use of many medicines, I had almost given up hopes of ever getting better. "One morning, after a night of especially severe suffering, a friend called to see me, and asked why I did not try Dr. Chase's Kidney-Liver Pills. I got a box at once, and took two pills, which was a rather heavy dose; one pill is plenty at a dose. I used them regularly for a month, and at the end of that time was changed better than I have been for years. It is now about five years since I began using this pill, and since that time I have felt as good as I did 40 years ago. I am almost 80 years old, and I am free from all disease, except rheumatism, and this is much better than it used to be. I recommend Dr. Chase's Kidney-Liver Pills with all my heart to anyone who is suffering from kidney disease. This is my opinion of these pills, and you can use it for the benefit of others." Dr. Chase's Kidney-Liver Pills are especially adapted for the advanced age. The kidneys are frequently the first organs of the body to break down, and there are few old people but suffer from kidney disorders, and resulting pains and aches. One pill a dose, 25 cents a box, at all dealers, or Edmondson, Bates & Co., Toronto.

ABSOLUTE SECURITY.

Arch Re-Erected at the Fair. The magnificent arch which was the feature of the street decorations in October last, and which was so much admired by the thousands of visitors to the city at that time, has been removed and re-erected on the exhibition grounds. It is situated on the lake shore, on the city side, and is 110 feet high, and 70 feet wide. The arch is made of steel, and is supported by four pillars. The top of the arch is 40 feet from the ground. Above the arch is a dome, which is 10 feet high, and is supported by four pillars. The arch is a masterpiece of engineering, and is a credit to the skill of the men who built it.
