Wise people are also ric.i when they know a perfect remedy for all annoying diseases of the blood, kidneys, liver and bowels. Hood's Sarsaparilla, which is perfect in its action. It so regulates the entire system as to bring vigorous health. It never disappoints.

Hood's Sarsaparilla cured me completely and the swelling has entirely disappeard. A lady in Michigan saw my previous testimonial and used Hood's and was entirely cured of the same trouble. She thanked me for recommending it." Mrs. Anna Sutherland, 406 Lovel Street, Kalamazoo, Mich.

to take steps with a view to incorporation, held a meeting at the Board of Trade rooms on Saturday afternoon, and decided to await until the act under which they will apply for incorporation is framed. Their object is to protect themselves against abuses of the buyers, in connection with the inspection and sale of cheese. The pros and cons of the matter were discussed. The action of the factorymen in no way affects the cheese board, and in some of the members pointed out that the sellers were themselves to blame for any injustice at the hands of the buyers. Instances were known where the maker had instructed the salesman that the cheese was first-class when he knew it wasn't, and as his reputation was at stake, the buyer was given \$50 or \$75 to take the cheese and say nothing about it. One of the committee men pointed out that the seller never could control the buyer by legislation; terests. ROLAND REED TOMORROW NIGHT Roland Reed, as has been his custom for a number of years, will present a new play at the Grand tomorrow night. This season the piece selected is a farcical play from the pen of that clever writer Sydney Rosenfeld, who has already been highly successful in his efforts for Mr. Reed. His "Lend Me Your Wife," "The Club Friend," and "The Politician," will be pleasantly remembered as being highly successful plays in Mr. Reed's repertoires. The new comedy is called "His Father's Boy," and has some of the wildest complications ever laughed at. Mr. Reed is seen in a character that is particularly well adapted to him, and he thinks it is one of the best roles he has had in years. The story of the play is most interesting, and is sure to entertain Mr. Reed's many admirers. Yarmouth, N. S., March 12.-News of the stranding of the handsome new Allan liner Castilian on Gannet Rock Ledge, off the coast of Yarmouth, arrived in town tonight by telephone from Tusket Wedge.

### THE OLD WAY.

Of Treating Dyspepsia and Indigestion by Dieting a Dangerous and Useless One.

We say the old way, but really it is very common one at present time, and many dyspeptics and physicians as well consider the first step to take in attempting to cure indigestion is to diet, either by selecting certain foods and rejecting others, or to greatly di-minish the quantity usually taken; in other words, the starvation plan is by many supposed to be the first essen-

The almost certain failure of the starvation cure for dyspepsia has been proven time and again, but still the moment dyspepsia makes its appearance a course of dieting is at once advised

All this is radically wrong. It is foolish and unscientific to recommend dieting or starvation to a man suffering from dyspepsia, because indigestion it-

self starves every organ and every nerve and every fiber in the body. What the dyspeptic wants is abundant nutrition, which means plenty of good, wholesome, well-cooked food and something to assist the weak stomach to digest it. This is exactly the purpose for which Stuart's Dyspepsia Tablets are adapted, and this is the method by which they cure the worst cases of dyspepsia; in other words, the patient eats plenty of wholesome food and Stuart's Dyspepsia Tablets digest it for him. In this way the system is nourished and the overworked stomach rested, because the tablets will digest the food whether the stomach works or not. One of these tablets will digest 3,000 grains of meat or

eggs. Your druggist will tell you that Stuart's Dyspepsia Tablets is the pur-est and safest remedy for stomach The sale for seats, which began this aroubles, and every trial makes one morning, for the eminent pianist, Rostion. ### STILL IMPROVING.

New York, March 12.-Rudyard Kipling passed a restless night, suffering a good deal of pain. Today, however, he was a good deal better, but not yet in a condition to have friends admitted refinement of a woman and the sincerity of a faithful and humble apostle of art. From this extreme measure of praise it seems hardly worth while to substract anything new, since facts temperature is very little above the prove that Rosenthal has worked at his normal, and he is able to take a considerable amount of solid food. Today Mr. Kipling saw his two children for a short time. His little girl, Elsie, is now sufficiently recovered from her sickness to run about. New York, March 13.—Rudyard Kip-

ling passed a good night, and felt conroars at his command, or emits the feeblest, humblest, pianissimos at his caressing touch. His interpretations speak of the present—of fulfillment, not of promise, of realization, not of regret. He is a player of the "now," but great, splendid, useful, and beneficent as the present moment always as each day the author's sleep and rest become more refreshing to him
