### IN A SUGAR SHANTY

Two Boys and an Odd Collection of Stolen Goods Captured by County Constables.

Two county constables, by the aid of a Westminster farmer, Mr. John Currie, were successful in arresting two boys who seemed to be having a "swell time" in the sugar shanty on the premises of Henry Hart, lot 4, con. 2, West-

Yesterday Mr. Currie saw smoke ascending from his neighbor's shanty in the woods, which was used for making maple sugar. Mr. Currie informed Mr. Hart, and the two made an investigation. They found two boys, William Waddell and Gideon McKinnon, aged 17 and 18, who claim to belong to Dorchester and Westminster respectively. The two boys had a big fire in the brick furnace, and seemed happy, but a little nervous. Around on the floor were scattered half a bag of apples and potatoes, two empty bags, a galvanized iron pail, half full of milk, an axe, one quilt, a buffalo robe, a pair of mitts, a new black shirt, two dead chickens and a Bible.

The constables brought the boys to the city, where they admitted having stolen the "chattels." They said they were in Belmont until 10 o'clock on Saturday night, when they came north on the townline to a barn, where they helped themselves to the quilt and buffalo robe. Two miles further morth they entered another barn and took the bags, the axe and the chickens, and at

a third barn they got the pail and milked one of the cows.

Young Waddell says the only property which was not stolen was the shirt and Bible, which belong to him.

The boys were remanded on a charge of trespace with Reider was a stolen was the shirt and Bible, which belong to him. charge of trespass until Friday next, when they will come before Squire

### MUSIC AND DRAMA

A PLAY OF THE SOUTH.

"At Piney Ridge," a play written by Mr. David Higgins, was presented at the Grand Opera House Saturday afternoon and evening. The principal part is taken by the author. It is a first-class production—a pretty picture of southern life, refined and elevated in tone, and presented by a very capable company. "At Piney Ridge" will be warmly welcomed again.

"THE VICTORIAN CROSS." "The Victorian Cross," which the

Grand offers to its patrons tonight, is an English drama, which has had a run in the English provinces for six years, and is now running. The plot is a strong one, and vividly portrays the great Indian mutiny of 1857, in the far east, where the great battle be-tween the English and the Sepoys took place, and many hundreds were slain. The author, J. W. Whitehead, has made a play from data selected which is full of dramatic interest, and embodies a very interesting love story, intermingled with bright comedy. The opportunity for scenic effects has not been neglected, and the Aubrey Manor, in England, the entrenchment at Cawnpore, the Nana Sahib's house, the embarkation and realistic destruction of the boats are very picturesquely shown. The engagement is for two night and Tuesday matinee. Reserved seats can be secured at the box office.

## NO PRIZE FIGHTERS

In the Late Spanish-American War-College Boys Distinguish Themselves.

Appropos of the recent death of a noted Harvard football player from the effects of typhoid taken in Porto Rico, Mr. Frederic Remington writes: "It seems worth noting that while a great many college football men went into the army, if any prize-fighters went I did not hear of them. There may have been prize-fighters among the volunteers, but it would take investiga-tion to disclose any. Yet a favorite defense of the ring is that it develops the manly qualities so necessary to the safety of a nation."

It certainly does seem as though fistfighting was less effectual in the development of the war spirit than bunt-ing with the head, tackling, and the other football specialties, still we must remember that while pugilists were apparently scarce, and football players were numerous, in our armies, the football men had no monopoly of grit. Roy Walter Stover, Harvard, '98, of the First Dakota Volunteer Infantry, whose death from typhoid fever at Manila, is announced, is remembered as a Harvard debater. So, too, the individual whose egregious and irrepressible valor at Santiago made the deepest and most resonant impression on the public mind was a college graduate, but is not known to have been a football player while in college. The truth is, he is believed to have been a good deal of a student, and to have graduated with considerable distinction, a thing possible to football players, but not com-mon.—E. S. # Talk About Blankets

There are poor blankets. There are good blankets. Some blankets are made from pure cotton, whilst some are made from waste cotton. There are shoddy blankets-made from such poor material that they are dear at any price. Neither wear nor warmth-simply a delusion. There are union blankets and there are all-wool blankets. There is a great difference in wool blankets—the quality varies according to the quality of wool used and the experience of the carder, spinner, weaver, comber and finisher. Practice makes perfect. It requires years of close study to produce a perfect article—even from the best materials.

If you want a pair of cotton blankets we get as low as 50c and go upwards, according to size and weight. Shoddy blankets we don't keep. Ne, madame-for those you must try another store. Today we can give you some wonderful values in large size, well-made union blankets, made to sell at \$3 25 pair; the season is getting advanced and now the price is \$2 50 the pair.

All-Wool Blanket to talk about—a Wool Blanket to remember us by; pure in every respect; durable—'twill be in the household ten to fifteen years hence. The price so low-\$3, \$3 50, \$4, \$4 50, according to weight and size. The manufacturer expected to get more for them-it is your ad-

COTTON GROWERS DISCOURAGED [Savannah News.]

of cotton next year. Farmers are very much discouraged with the returns from their crops, and they are looking about for other crops to take the place of cotton on their farms. Especially is this the case in Laurens and Jackson countles, in which many farmers have been disappointed with the crop returns of this year. They say they cannot raise 4-cent cotton and live at home, and that it is necessary for them

to get crops which will furnish them more money and reduce the expense of their living. An immense acreage Reports from many sections through-out the state indicate that there will be a material decrease in the acreage of cotton next year. Farmers are years not confined to a particular class of armers, but those who run from one to forty mules have signified their in-tentions to reduce their cotton acreage and plant more of those crops which sustain life.
