The United States & Canada.

THEE ESSENTIAL FEATURES DISTINGUISH IT FROM ALL CONTEMPORANEOUS PUBLICATIONS.

FIRST—It contains a full, correct, and comprehensive Shipping List. Persons interested in the Marine of America may turn in an instant to the information which they seek, with the certainty of relying on its truth. It thus supersedes Shipping Lists, and other expensive publications from Europe, some of which are six times the price of "WILLMER & SMITH'S EUROPEAN TIMES."

SECONDLY—It contains a Price Current of all the great British and European Markets, devoted principally to the articles of trade and commerce, more immediately appertaining to the United States and British America, and in which the Merchant, the Trader, and the man of business must feel an immediate interest. On the score of correctness, the Tabular Figures, and the remarks accompanying the various Markets, showing their actual condition, may be relied on, and are, in fact, an authority with most of the first houses in the principal cities of the United States and Canada.

THIRDLY—As a newspaper, it presents to the American various in the contents of the contents to the American various in the contents of the contents to the American various in the contents of the United States and Canada.

THIRDLY—As a newspaper, it presents to the American render, in a concentrated state, and where the utterest or the importance of the subject demands it, in the most detailed and ample form, every topic of political, commercial, domestic, and miscellantous interest which has occurred in Europe or elsewhere, since the departure of the previous packet—especial regard being paid to whatever is mostly connected with, or relates to the political, social, and commercial well-being of the United States and Canada.

Of this Paper, the Boston Morning Post says: "We are greatly indebted to this Newspaper for our Foreign, Miscellaneous, and Commercial News. One number of Willmer and Smith's European Times is worth a whole file of any other English paper." Subscription to "Willmer & Smith's European
