

FIRE ALARM TO ANNOUNCE ONE SESSION DAYS

Meeting of The School Board
Last Night

INVESTING IN VICTORY BONDS

Matter of Hot Lunches For Some
of High School Pupils; Truancy
Conditions Reported on; School
Enrollment 8,454

The board of school trustees in session last evening found that one source of revenue had been overlooked, when it was brought out that under the school act the fines levied on parents for the acts of truancy of their children, were payable to the trustees. Dr. Emery, chairman, said that he would take steps to see that in the future these amounts were put to the credit of the board. It was also discovered that the amount of \$178 had been paid out of school funds for the auditing of the accounts of the board. Arrangements are to be made whereby the fire alarm will be sounded five times at 11.30 o'clock on the mornings when there will be one session in the city schools.

A delegation from the janitors of the schools asking for increase in pay and the providing by the board of cleaning materials, brooms and brushes, was heard.

Those present at the meeting were: Dr. A. F. Emery, chairman, and Trustees G. H. Green, Thomas Nagle, G. E. Day, E. R. W. Ingraham, J. D. P. Lewis, H. C. Smith, Mrs. Taylor and Mrs. O'Brien with the superintendent, the trustee officer and the secretary. The minutes of the last meeting were read and approved.

An application for a position on the teaching staff was received from James E. Treacartin. It was referred to the superintendent for reply.

George M. Rogers applied for a position as janitor.

A letter from D. R. Franklin, an architect of Toronto, asked that he be considered in connection with the plans for new buildings.

W. J. McAlary, Alexandria street, wrote complaining that school boys had broken down the fence between his lot and the school yard. Mr. Day said the board was in no way responsible and he moved the letter be filed. This was seconded by Mr. Nagle and carried.

The report of the auditor as already published was read. Mr. Lewis objected to the trustees dealing with this report as it was the city's business. He objected also to paying the bill of \$178 for this service.

Dr. Bridges explained that there had been a joint arrangement between the board and the city for an audit. The work was done at night and the payment was taken from the assessment.

Mr. Lewis felt that no action should be taken as this report was addressed to the mayor and common council. The report was referred to the finance committee.

Truancy Report.

The trustee officer reported that during the month of October, nine boys had been before the police magistrate on account of truancy. The parents had been fined \$2 each. He felt that the boys would be again in court as he did not consider the punishment had much effect on the children or their parents. One truant had been taken before the magistrate and convicted on other charges and sentenced to a term of two years.

The trustee officer pointed out that the fines should come to the school board and the chairman said that something should be done to have this matter adjusted. The secretary explained that were these amounts given to the school funds, the sum would be subtracted from the amount paid over for school purposes by the city and the board would not be further ahead financially.

An offer from Gibbon & Co. for 100 tons of hard coal at \$14.75 per ton was handed to the building committee with power to act.

The proposal to pay Miss Robinson and Professor Fox \$100 each for their services in connection with the demonstration of the school children on the occasion of the visit of the Prince of Wales, was referred to the chairman, Mr. Day and Mrs. Taylor.

The thanks of the board were to be sent to Dr. Carter, chief superintendent of education, for several cuts of city schools, given the board by him.

Mr. Nagle asked that the visitors to the different buildings be empowered to grant the use of certain school rooms to the vocational education committee, but it was decided that a special meeting be called to consider this matter.

The Alumnae Society, through Mrs. Taylor, asked that the board guarantee \$50, if necessary, to defray expenses connected with supplying hot lunches for the pupils of the High school, who were compelled to bring their lunches. The board will give the matter consideration at a later time.

A bill for \$40 for the transportation of children from Navy Island to the mainland for the purpose of attending school was referred to the west side visitors.

To Buy Bonds.

An amount of \$4,000 in the sinking fund is to be invested in Victory Bonds.

A delegation of three janitors in reference to increase in their salaries were heard and the board promised consideration in the next estimates.

The committees formerly appointed to report on sites for North End and West End schools, were given authority to recommend sites and buildings.

The annual report of the city schools as arranged for the board of education was received and ordered forwarded to the chief superintendent.

The report of the secretary showed twenty-two teaching days in October; pupils enrolled, 8,454; boys, 4,029; girls, 4,425; percentage of enrollment in daily attendance, 90.17. There were fifteen cases of scarlet fever, nine of diphtheria and one of mumps.

Matheson-Henri.

Moncton, N.B., Nov. 10.—A very pretty wedding was solemnized at St. Bernard's church this morning when Miss Mary Rosalie Henri, daughter of David Henri, West Bathurst, was united in marriage to Frank Matheson, Moncton. The ceremony was performed by Rev.

Father Savage in the presence of only immediate relatives of the contracting parties. The bride was given away by her brother, Albert Henri, West Bathurst. W. Henri, brother of the bride, supported the groom, while Miss Nellie Henri, St. John, sister of the bride, was bridesmaid. The wedding march was played by Miss Sutton, organist of the church. The groom is a popular returned soldier. He enlisted in the 122nd battalion and returned in March, 1919. Mr. and Mrs. Matheson will reside in Moncton.

The Case Experts.

Cleveland, Nov. 9.—Tiff Denton of Kansas City defeated Otto Reisel of Chicago, 50 to 40 in fifty-six innings in tonight's play for the three-cushion billiard championship tournament here. Denton had a high run of seven. In the second game tonight Clarence Jackson of Detroit won from Jess Lean of Cincinnati, 50 to 45, in seventy-two innings.

MUNITION GIRLS' NOTES TO GUNNERS

Were Characteristic of The Spirit of Canadian Women Throughout The War

Dear Tommy:
I hope this finds you in the best of health. Please accept my very best wishes for a safe return home.
Ethel,
Nth Street,
Liverpool.
Tucked down into the side of the green, yellow or blue ammunition boxes alongside the eighteen-pounder and 4.5 shells Canadian gunners out in France often used to find friendly, encouraging notes, of which the one quoted is typical.

Is your store front merely a partition to keep out wind and rain or does it adequately represent your business?
"Zouri" Metal Store Front Construction.

The notes were written by girls employed in the munition factories throughout the British Empire. Usually they impress the reader with their brevity, and were extremely brief, and always did not omit sincerity. Very, very seldom were they frivolous or sentimental. They were characteristic of the spirit

displayed by the women of Great Britain and the colonies throughout the days of the war.
And now that the war is over Canada is again asking that they display that spirit. Canada needs money. She needs it for the same reason she required the help of her women during the days of conflict—to finish the war. This time she needs it to clean up the war bills. And in this new national project the women of Canada will again prove themselves invaluable.
There is no doubt of the success of the Victory Loan 1919 if the women of Canada will but lend their support.

MANY GERMANS ARE RETURNED TO HOMES

Berlin, Nov. 10.—(French Wireless Service).—More than 225,000 German prisoners have been returned to Germany from English internment camps. It is reported that the 55,000 prisoners yet remaining in England will be sent home before the end of the month.

The Red Cross Approved of Black Jack

If you want to know who likes Adams Black Jack Gum, ask the Red Cross. Millions of packages of Adams Black Jack reached the soldiers through the Red Cross. And in war days there wasn't cargo space for anything but essentials.

The soldiers liked the old-time licorice flavor in Adams Black Jack.

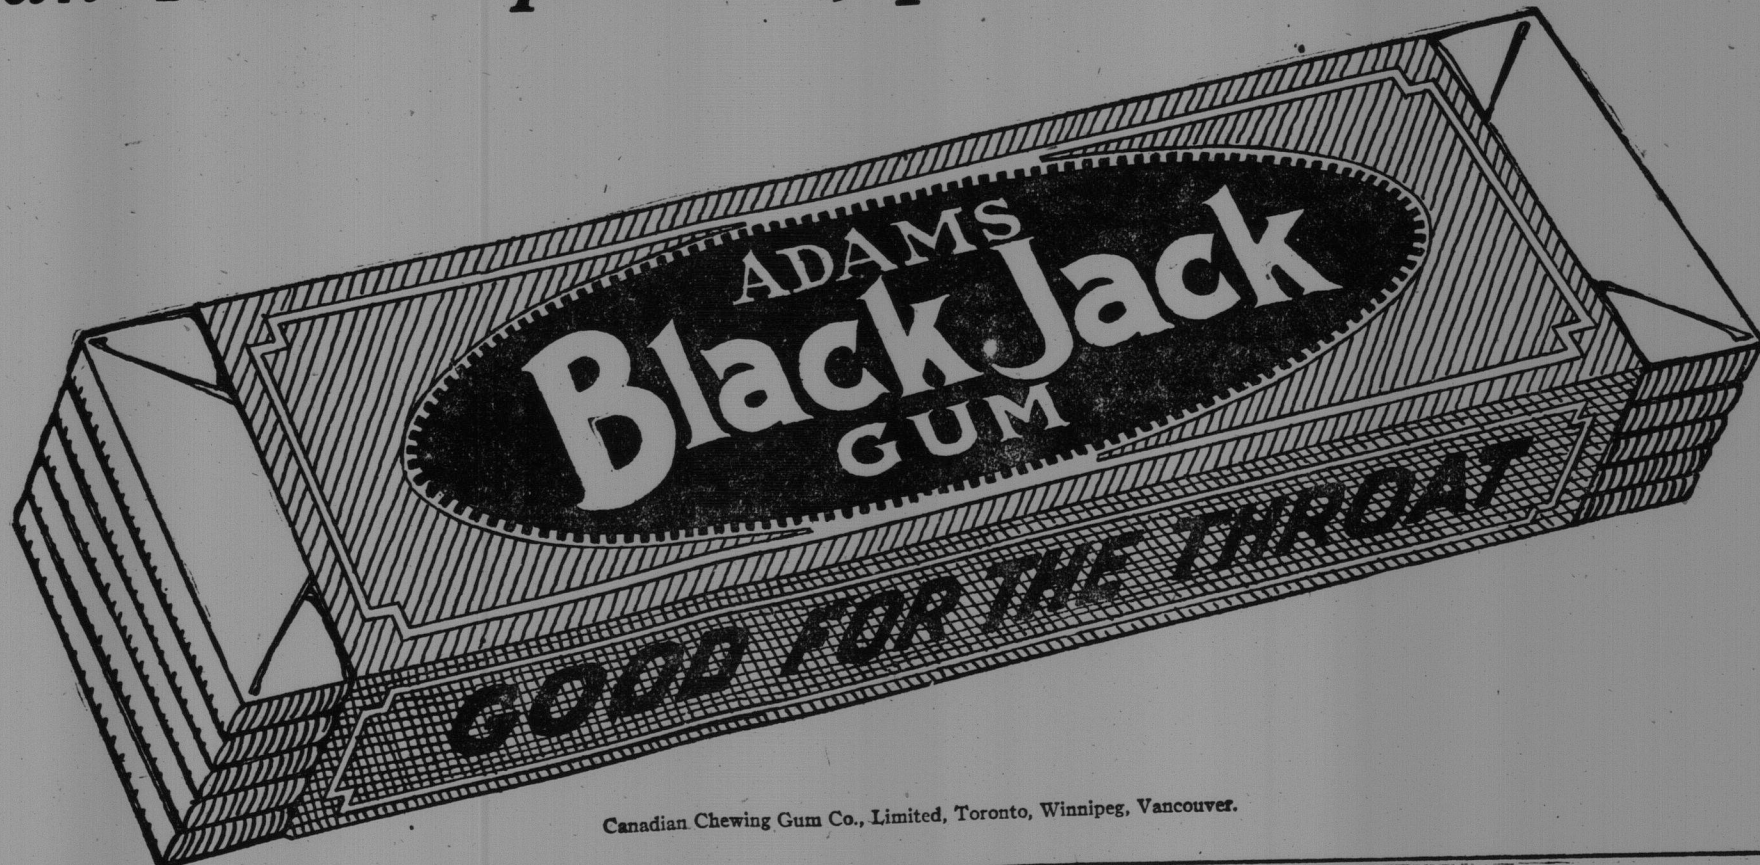

The Red Cross liked the benefits which come from the use of Adams Black Jack—it

promoted clean teeth when clean teeth were vital—it gave better digestion where meals were not too regular—nerves were relaxed where nervous strain was greatest—throats were eased and refreshed, thirst quenched, by the soothing licorice.

Its war record makes a pretty good case for Adams Black Jack at home.

The blue package is sold everywhere—5c.
