Were given a great reception this mornwere given a great reception this morning on their arrival here over the Boston & Maine Railway from New York. It was their first official welcome to Canada, and while the visit was short, much was crowded into the sixty minutes of their stay, and gave a foretaste of the generous reception that awaits them during their itinerary in the dominion. They were officially welcomed by Mayor C. D. White, K. C., who presented addresses in French and English. The 53rd Regimental Band was in attendance and all the French-Canadian societies of the city were strongly represented. After taken in automobiles through the principal thoroughfares which were lined by thousands of spectators. Many of the works closed to give the employes an opportunity to join in the reception. The Blue Devils were accompanied by a party of Canadians headed by L. J. Loranger, K. C., of the military service council, Montreal; Captain Jenkins, secretary to the military service council, Montreal; Captain Jenkins, secretary to the military service council, Montreal; Captain Jenkins, secretary to the military service council, Montreal; Captain Jenkins, secretary to the military service council, Montreal; Captain Jenkins, secretary to the military service council, Montreal; Captain Jenkins, secretary to the military service council, Montreal; Captain Jenkins, secretary to the military service council, Montreal; Captain Jenkins, secretary to the minister of justice. To Coal for the Dominion Buildings, will be received at this office until 12 o'clock noon, on 'Thursday, June 27, 1918, to manufacturing industry. Farmers have some reason to complain that when they had an opportunity to obtain free trade in farming products, a pooling of agricultural products, the manufacturers opposed it tooth and nail. But we do not believe that farmers will retaliate by opposing the proposal for a pooling of industrial resources. It is a good proposal, and we hope that the reciprocity for which the manufacturers ask will be granted.

New Director Demands 15,000,000

Feet a Month for Airplanes

Washington, June 19—John D. Ryan, financier and copper magnate, has been saying nothing ever since he took over direction of aircraft production, but considerable evidence has accumulated that points toward defiaite accomplishment in one direction that military men say it would be most dangerous to neglect. That is the production of airplane spruce.

Lumbermen say that Mr. Ryan has demanded 15,000,000 feet of spruce a month from the Cascade forests, and little things like the drafting of 9,000 men, the planning of logging railroads, and the mobilization of a rather large existing industry for war production indicate that he intends to get it. The consoling fact is that, even if American factories are late in making planos, so long as the raw material flew to France and England is maintained the Allies will have machines.
