

Published by Authority

For the information of persons belonging to Newfoundland who propose to go to the United States of America, notice is hereby given that the Immigration Laws of the United States, which came into effect on the first May last, provide:

1.—That all aliens entering the United States shall pay a tax of \$8, but children under sixteen years of age, accompanying their father or their mother, shall not be subject to such tax. In the case of persons not remaining sixty days in the United States, the said tax will be returned upon their leaving the country.

2.—All aliens over sixteen years of age, who cannot read the English language, or some other language, will not be permitted to enter.

3.—Amongst other classes of aliens not admitted into the United States are the following:—Idiots, insane, epileptic, paupers, those physically defective and children under sixteen who are unaccompanied.

Cases have been brought to the notice of the Government where Newfoundlanders for one or other of the above reasons have been refused admission to the United States, and much disappointment and inconvenience, as well as expense, has been the result.

J. R. Bennett,
Colonial Secretary's Office,
10th July, 1917.

Parcel Post Notice

Until the opening of navigation, Parcel delivery on many of the present routes must be partially, and for some places entirely, suspended, weather conditions making it impossible for carriers to carry heavy weights over the almost impassable roads. During the month of April only small parcels can be accepted, and if larger ones are taken the Department cannot guarantee delivery.

J. Alex Robinson,
apl13.3i Postmaster-General.

Fire Insurance

When you insure your House, Furniture or Stock

the Insurance Company carries the risk. If you remain uninsured, you carry the risk yourself. IT COSTS BUT A FEW DOLLARS ANNUALLY TO HAVE YOUR PROPERTY OR STOCK COVERED.

C. E. RUSSELL - Bay Roberts
Agent for Fire and Life Insurance.

"Imperial" Engine

The first cost of a motor engine is important. The life of the engine is also important. Some engines go on doing duty for years. The cooling or water circulation has a lot to do with it. This "Imperial" has. You can run the "Imperial" at the highest speed and yet keep it as cool as you wish.

C. E. RUSSELL, AGENT,
BAY ROBERTS.

Envelopes Envelopes

To Shopkeepers and Others I have on hand a stock of

Envelopes

Sold only in lots.

C. E. RUSSELL, Bay Roberts.

SERGES AND TWEEDS

Our new stock of Serges and Tweeds have just been opened, and having ordered these before the rise in price of Woolens, we are able to give our customers the advantage of old prices.

Order that suit or raincoat now as the season is advancing, as you will have to pay considerably more later on.

JOHN MAUNDER,
281-283 Duckworth Street,
St. John's.

Know Yourself

Ignorance is Not Innocence

In the Self and Sex books you will find that essential knowledge of yourself which is necessary to the fullest and happiest life. This series is highly recommended by doctors, ministers and laymen throughout the world, and has been translated into many languages.

SMITH Company Ltd.
St. John's.

The Committee rose until to-morrow.
The House adjourned to to-morrow at 3 p.m.

WEDNESDAY, June 27th.
The House met at 3 p.m., pursuant to adjournment.

Various questions were asked and answered.
The House went into Committee of the Whole on Supply.

MR. GRIMES attacked the Government's Agricultural Policy. In his opinion, any increase in the amount of agricultural produce was due to nature's causes, not to the **MR. DEVEREAUX** defended the agricultural societies.

He showed some of the difficulties which agricultural societies had to contend with. One of their greatest difficulties was partisan criticism.

MR. GRIMES repeated that potatoes were being cultivated in increased quantities, only because the price had gone up.

MR. DOWNEY said that enough was being produced now to supply the entire market. He spoke of the large amount of beef and mutton raised in the Peninsula of Avalon.

MR. COAKER asked how the Agricultural Commissioners could take credit for increasing the production of meat, since all they had done was to send out a few bulls, etc., to improve the breed. He read out extracts from a large number of reports of agricultural societies, in which it was stated that cattle were not increasing. He advocated the settling of small groups of farmers in suitable places along the railway line.

MR. DOWNEY pointed out that, although in certain places there might be an immense amount of unused pasture, the people could only keep as many cattle as the acreage under cultivation would enable them to provide winter forage for. The number of cattle kept could not increase very greatly until the acreage of cultivation increased.

The quality and size of the animals had, however, improved substantially. He thought that a certain amount of wheat might be grown on the West Coast.

The Committee occupied most of the afternoon in reading and passing the Estimates. Various members discussing briefly across the table various items as they arose. The Committee rose at 6.30 and reported progress, and asked leave to sit again to-morrow.

The House adjourned to-morrow at 3 p.m.

THURSDAY, June 28th.
The House met at 3 p.m., pursuant to adjournment.

Various questions were asked and answered.

The House went into Committee of the Whole on Supply.

The whole session occupied in reading the estimates, various items of which were briefly discussed across the table by various members.

HON. COLONIAL SECRETARY explained that an attempt was being made to reopen the Howley coal seam.

MR. COAKER & MR. LLOYD praised the working of the new elective Road Boards in their Districts. The new system was eminently satisfactory in the opinion of the speakers.

The Committee rose and reported progress at six o'clock.

The House then went into Committee of the Whole on the Woolen Mills Contract.

HON. COLONIAL SECRETARY explained briefly the amendments to be made in the resolutions.

MR. LLOYD suggested further amendments.

The Committee rose and reported progress.

On motion of Hon. Colonial Secretary the Bill dealing with the General Hospital was withdrawn, with a view to the preparation of a more comprehensive Bill.

MONDAY, July 2nd.
The House met at 3 p.m., pursuant to adjournment.

A petition was presented by Mr. Jennings.

The House went into Committee of the Whole on Supply.

The reading of the Estimates was practically completed. The Committee then rose.

THE PREMIER introduced an amendment to the Bill relating to Collie Dogs in St. George's, so as to avoid the killing of any especially trained dogs, which was passed.

An amendment to the Wreck and Salvage Bill was passed.

The House then adjourned to to-morrow at 3 p.m.

TUESDAY, July 3rd.
The House met at 3 p.m., pursuant to adjournment.

Petitions were presented by Mr. Parsons and Mr. Devereaux.

The House went into Committee of the Whole on Resolutions to raise a war loan of \$3,000,000.

HON. MINISTER OF FINANCE explained that the annual naval and military expenditure now came to over one million dollars per year; besides this there was the back pay to be provided, as promised, for the Royal Naval Reserve.

It was hoped that the present loan would carry us to the end of the war. If not another loan would have to be raised in the future. Part of the loan would also be used to repay a large advance received from the Imperial Government. In reply to Mr. Lloyd he gave some details of the calculations. The back pay of the Naval Reservists would take from seven to eight hundred thousand dollars.

MR. LLOYD said he thought it was time to create a Department responsible for the expenditure of war funds, headed by a Minister who could answer for it in this House. We had already expended three million dollars, and such sums as this should not be administered solely by Committees of private citizens, however estimable and devoted. The details of all expenditures should be before the House.

THE PREMIER entirely agreed, but pointed out that practically the whole of our war expenditure consisted of the pay of the officers and men of the forces, so that in any event the Committee could not go far wrong. Most of the Committee did not deal with money in any way.

The Committee then rose and adjourned.

The House went into Committee of the Whole on Supply, finished the last two items of the estimates and rose.

THE PREMIER moved second reading of a Bill to permit the exportation to Canada, and the United States of pit props now lying in this Colony and cut before January 15, 1917. There were about \$500,000 worth of pit props in this country cut last winter or earlier, which it was impossible to export to England, and in order to avoid their lying here to rot, it was proposed to allow the owners to export them if the war was not over.

The Bill was read a second time. The House adjourned to to-morrow at 3 p.m.

PROVED ONCE MORE IN SOUTHAMPTON

That Dodd's Kidney Pills Cure Rheumatism

Harold D. Bertram Had Inflammatory Rheumatism and One Box of Dodd's Kidney Pills Cleared It Out of His System.

Southampton, Ont., July 17th. (Special.)—That rheumatism is caused by disordered kidneys and that Dodd's Kidney Pills will cure it is again proved by the case of Harold D. Bertram, a young man well and favorably known here. He had inflammatory rheumatism for two months. Dodd's Kidney Pills cured him.

The doctor said my trouble started with the grippe. Mr. Bertram states, "My hands and feet were badly swollen and the doctor did not seem to be doing me any good. My grandmother, Mrs. G. Grasser, advised me to take Dodd's Kidney Pills. I took one box of them and I haven't been bothered since. I am clear of the rheumatism."

That Mr. Bertram's trouble came from his kidneys is shown by his other symptoms. He had stiffness in the joints, was tired and nervous, and there were flashes of light before his eyes. He had a disgusting sensation across the loins, was always thirsty and felt heavy and sleepy after meals.

Rheumatism is caused by uric acid in the blood. Cured kidneys strain the uric acid out of the blood. Dodd's Kidney Pills cure the kidneys.

FRIDAY, July 6th.
The House met at 3 p.m., pursuant to adjournment.

Petitions were presented by Mr. Stone, Mr. Targett, Mr. Abbott.

The War Loan and the exportation of timber Bills passed Committee without detail.

The House adjourned to Monday at 3 p.m.

Fishing By Telephone

A strange way of discovering whereabouts of fish is practiced in some parts of Norway, and the method was discovered by a clever Norwegian. A microphone, which is an instrument that will transmit the slightest sound is lowered into the water from a fishing boat and a wire is attached to the telephone fired in the boat. The operator takes the receiver of the telephone and places it to his ear, ready to signal to the fishermen when he hears the least sound beneath the waters, and the fishing boat is immediately steered in the direction whence the sounds come. The result is a splendid haul.

As cod, herring, and mackerel swim in enormous schools, their passage through the water causes a rushing sound which is clearly heard by the fishermen, who immediately steer in the required direction and let down their nets.

Keeping Folks Away

The schoolmaster was trying to make conversation with the new pupil to put him at his ease and asked him what was his favorite poem.

"Excelsior," was the response. "I recite it every time we have company."

"Yes, sir," said the boy. "He says he thinks it keeps us from having much company."

Ireland Was First

An Irishman and a Scot were arguing as to the merits of their respective countries.

"Ah, well," said Sandy, "they tore down an old castle in Scotland and found many wires under it, which showed that the telegraph was known there hundreds of years ago."

"Well," said Pat, "they tore down an old castle in Ireland, and, begorra, there was no wire found under it, which shows that they knew all about wireless telegraphy in Ireland hundreds of years ago."

President Wilson's Story

Here is a yarn the American President is fond of spinning:—

"A friend of mine was in Canada with a fishing party and one member of the party was imprudent enough to sample some whiskey that was called 'Squirrel' whiskey, because it made those who drank it inclined to climb a tree. This gentleman imbibed too much of the dangerous liquid, and the consequence was that when he went to the station with the rest of the company he took a train bound south instead of a train bound north. Wishing to recover him, his companions telegraphed the conductor of the south-bound train, 'Send short man named Johnson back for the north bound train. He is intoxicated.'"

"Presently they got a reply from the conductor. 'Further particulars needed. There are thirteen men on the train who don't know either their name or their destination.'"

Brazil Joins The U.S.

In War Against Huns

Washington, June 30.—By sending its navy to co-operate with the American fleet in South American waters in hunting down German sea raiders, Brazil, without formal declaration, has practically joined the United States in the war against Germany.

Coincident with the inauguration of Brazil's naval operations a plan for protecting her merchant ships in their voyages to allied ports with frozen meats and other foodstuffs has been put into effect.

President Wilson now has under consideration the personnel of the mission to Brazil. It probably will leave the United States within a month or six weeks, and will include men familiar with Latin-American conditions.

A Modest Fisherman

He was a modest angler. Silently he had listened to the campers tell of the big ones they had caught, some of them tremendous fellows. Then by-and-by they asked him if he had distinguished himself that day by the taking of one worth mentioning.

"Only one," he said. "And the river fell six inches when I landed him."

Whereupon the symposium adjourned to the bunk.

THE BEST MOTOR MADE

Every leading feature of the best Marine Motor made in America is contained in the IMPERIAL.

The Imperial

is made of the best material on the market by master mechanics. It is simply and durably made and handsomely finished. It is easily operated, economical on fuel, and attains full power quickly. It is fitted with the Thermex Odorless Exhaust Silencer or Muffler. Special Cash Price on the 5 horsepower.
