STIMATED PROHIBITION MAJOR

The Globe appears to be more same The Globe appears to be more sang-mine concerning the triumph of the pro-hibitionists than they are themselves. It estimates that in a total vote of half a million, prohibition will have over a hundred thousand majority. The Globe says: "The liquor traffic, which in the great temperance agi-tations of past years, was defended by powerful platform speakers, has on this seconsion taken part in no public meet-ings, and thus the contest has been recibed of not a little of its interest. Despite this, it would seem probable Despite this, it would seem probable that at least half a million elector will mark their ballots on Thursday week, and that over three hundred thousand of the votes cast will be for

ANARCHISM AND SOCIALISM.

"Anarphism is Socialism crazed and running amuck." says Bystander in the Weekly Sun. Well, maybe, just as genius frequently ends in insanity. But the socialist and the amarchist in their avowed principles represent ex tremes so far apart that all the rest of us come in between. The socialist is all for government, the anarchist wants no government at all. The so-cialist wants the state to own and con-trol everything of a public character for the henefit of all. The anarchist wants no state at all. The socialist seants no state at all. The socialists wants to build up, the anarchists in this country, and few arowed social-ists, because we have advanced far emough socialistically to satisfy pub-tic opinion. Were the socialists of Ger-many in Canada to-day, they would can themselves socialists no longer, because many in Canada to-day, they would call themselves socialists no longer, because they would realize largely what they move demand where they are and would reasignize that the country is progressing as fast as consistent with stable government, towards the goal that they believe best for the general-welfare. It is strange to find a man like Prof. Goldwin Smith coupling two such expresses as socialism and amarchism together, when one is all for the state, and the other is against all states.

"Cannot something be done to get people to Kingstpa?" asks the Whiz. Wainter or St. Thirmas may do some-thing for you, but around here people are all getting so good that Kingston is no fit place for them.

The Liberals have decided to abandon their protest in East Middlesex against T. D. Hedgens, of ram Dan fame. That is the third petition it is an-nounced they will not push. The other two are North Ontario and North Toonto. The Conservatives so far have ot abundoned any of their protests.

Avail. Cured by Cuticura.

When my little boy was two years of age, dry spots commenced to appear on different parts of his body. Last winter it seemed to go to his hands, and I was obliged to keep his first three fingers done up all the time, as it was a raw sore, beginning to extend down toward the paim of the hand. We consulted three different physicians, each a certain length of time, to see a benefit of their medicines. I think now, after using Curicura, that some of the salves that I used did more injury than good. A geutleman (who sat next to me in church) asked me the matter with my boy's hand. I took off one of the cloths and showed him, he took off one of the cloths and showed him, he took off one of the cloths and showed him, he took off one of the cloths and showed him, he took off one of the cloths and showed him, he took off one of the cloths and showed him, he took off one of the cloths and showed him, he took off one of the cloths and showed him, he took off one of the cloths and showed him, he took off one of the cloths and showed him, he took off one of the cloths and showed him, he took off one of the cloths and showed him, he took off one of the cloths and showed him, he took off one of the cloths and showed him, he took off one of the cloths and showed him, he took off one of the cloths and showed him, he took off one of the cloths and showed him he can be compared to the cloths and showed him he can be compared to the cloths and showed him he can be compared to the cloths and showed him he can be compared to the cloths and showed him he can be compared to the cloths and showed him he can be compared to the cloths and showed him he can be compared to the cloths and showed him he can be compared to the cloths and the cloths an ment) and CUTICIAR RESOLVENT, put asside what I had been using, and began with them. Well! flep cured that hand, I was afraid that this winter it would break out again, but no, it is all cured, and I have not had to have a cloth on it this winter. raising district in Canada, Archie Campbell will no doubt atone for his treacherous treatment of us in the matter of natural gas, by getting on of those stations for Chatham.

For the purpose of outbidding the Planet and getting the city printing the Banner quoted prices it does not now want to live up to. Those price secured it the contract and it should either adhere to them or throw up the work. The attempt to dip its band in the civic treasury is a gross outrage.

If a sewer contractor came along and asked for an increase on his contract price of 300 or 400 per cent. the Banner would be the first to protest. It made its own figures to get shead of the Planet and it is childlen now to ek to evade them.

The London, England, papers refuse to believe that Mr. Chamberlain told state secrets to a New York paper. Commenting on this the Manitola Free Press remarks that "state secrets are often told to less important person-ages." (This is very true. The writer has been told things by cabinet minishas been told chings by cabinet minis-ters which were supposed to be kept in the inner circle and he was allowed to use them, too, provided the source of the information was not divulged. Mr. Chamberlain only went this one better, He shouldered the responsi-bility for his satements himself ic-stend of letting the reporter do it. And if his collectures do not like his pourse, what are they going to do phout is see long as the English masses are behind him.

The practice of exceeding the estimates was so general in the good old Tory days that it was looked upon as a matter of course. Mr. Fielding has established a new record in that line. He has exceeded his estimated surplus by over a million, a thing unprecedented in Tory annals.—Sarnia Observor.

If he has he has done a foolish and If he has he has done a foolish and dangerous thing. This extra million has been filched out of the pockets of nas seen fliched out of the pockets of the people and is being hung up as a femptation to Tarte and his friends, less merit for Schroved their matchtempiration to Tarte and his friends, and Grit boodiers generally to make another raid on the country and enrich themselves otherwise than by the sweat of their respective brows. We respectfully submit that when a government takes more from the people than is necessary for the economical administration of public affairs it is committing a moral robbary.

WOODMAN, SPARE THOSE TREES

Market Guide.

Tuesday's Banner contains an injudicious and mischievous editorial encouraging the council to mutilate our beautiful shade trees. The law recognizes vested interests of householder in prevention of damages to road shade trees which beautify and improve the value of his lot. Streets threatened should appoint one sharp resident, or more as a vigilance committee, and get out an ad interim injunction. It is a

ing the damage could not be held per-sonally liable. Dr. Holmes showed what could be done to ward off tree butchers: Perhaps as simple a way as any, would be for the opposite house owner to protect the tree promptly and throw the onus on the council of suein, for obstruction.
