the outset, with a large increase for the future. The Value of Land Grants. The average price at which the twenty-six leading Land-grant Railroads have thus far sold their lande, is \$7,04 per acre—the highest average of any grant being \$13 98, and the lowest \$3,07. With few excep-tions, the average selling price has steadily in-creased from year to year. The lands of the Northern Pacific Road are admitted, by all who have seen them, to be better and more salable than those of most other grants, but, sold at the general average of \$7,04 per acre, they will yield more than \$161,000 per mile of road—more than three times the possible cost of construction and equipment; or, at the lowest average of any grant (\$3,07), they will produce more than \$70.
