It's Worth Investigating

IN buying flour, it is some consolation to know that the responsibility for its success doesn't altogether rest with you. It is part of our policy to inspect and test each barrel of Horton Flour before it is shipped. In that way, we not only avoid complaints, but we ensure that the flour shall always be of the same uniform quality, and therefore always dependable. Since it costs no more for this kind of flour, why not at least give it a trial? We believe you'll like it. Nearly every grocer carries and is glad to recommend Horton Flour.
