GENTLEMEN.—I am 71 years of age, Have been enflicted with sick headache most all my life, which developed into Dyspepsia of a mild type about twenty years ago, and has continued to grow worse until during the past seven or eight years! I have not been able to take a drink of cold water or milk, as they would produce severe pains and sometimes vomiting. I have been subject to severe pains in the chest, with dizzines, which have been more frequent during the past three or four years. My mouth was furred up in the morning, accompanied, with bad breath. My case was yearly growing worse.

panied with bad breath. My case was yearly go owing worse.

During this long period I have tried many popular medicines, as well as prescriptions from the regular medical practitioners, but without producing any im-

provement.

In the fall of '92 I concluded to try a bottle or two of your medicine and such were its effects that I continued it until now I can drink cold water or milk without any inconvenience. Those dizzy pains are all gone and my mouth as sweet as a baby's. In short your medicine has cured me and I am sure that all Dyspepties can be cured by its use.
