DEPT. OF INDIAN AFFAIRS

AUG 31 1917

SURVEYS

Gentlemen/-

We would like to change our reserve, on account of it being partly burned and partly flooded by water, about three square miles of our best land being under water also there is a mining claim patented on our reserve. If the government would grant us a more suitable place for a reserve, as there is no land suitable for cultivation on the one we hold at present and we would like to move on to where we could clear some land for cultivation, if this can be arranged, if the government can see the way clear to grant this, we would like to pick out a reserve ourselves.

to Mr. D. P. Poirer

Frank Kistabish

Yours truly,

Indian Affairs. (RG 10, Volume 7764, File 27074-13)
