Grand, Upright, and Square.

Faultless Construction,

Phenomenal Durability,

And are Sold at Honest Prices.

The high position which they now occupy has been secured through these points. They are guaranteed to stand in tune and retain their evenness of tone longer than any piano ever manufactured, while in power and tone quality they are unequalled. A critical examination and comparison with pianos of the most distinguished of the competitors of the Hardman Piano is most respectfully invited, and the result will be the most convincing proof of the truth of the above.
