If you are Use Bodd's Byspepsia Tab-lets-What They did for R. A. Bar

Talking of the Christmas season and its accompaniment of turkey, plum pudding and other palatable but rather indigestible dishes it is of interest to at teast seventy-live per cent, of the general public to know that the ill-effects that follow heavy disners can be avoided. There are thousands of people in Canada who once faced a hearty disner with fear and trembling who saw est what they like when they fike and enjoy it too. They have used Dodd's Dyspessia Tablets.

One of those is Mr. R. A. Barton of 23 Tyndall avenue, Toronto, well known in Queen City business oircles. "Yes," Mr. Barton says, "fiere was a time when I was afraid to eat many things that would layer suited my tasts. Now I can sat whatever is set before see taking no questions, Dodd's Dyspessia Tablets did it after all the doctors I consulted had failed. It tookperhaps a dozen boxes to fix up my stomach but it's all right new. "If you're troubled that way try Dodd's Dyspessia Tablets."

Hundreds of methods of preserving jonts have been tried, but few of them have proved practical for the farmer because of the difficulty or expense of treating them. One of the experiment stations has recently begin an extensive experiment with several of the most promising of these methods, most of which depend on extracting the matural juices of the weed and filling the goess with some astiseptic preparation which prevents the working of wood destroying germs. Charring the posts seems to be about the best-of the simpler methods of treatment. Hot tar is samther good goeseverive. Preserving Fence Posts.

-Cost of War in Wigning.

The enormous cost of warrous only be realized when set down in aggregates. About \$10,000,000 a week is the estimate of the cost of the Russian-Japanese war. That means about \$500,000,000, or half a billion dollars, a year. The United States Civil war of fear years' durafilm soft the north slose \$4,000,000,000. During the crossing months the Geovernment outlay was \$1,000,000 and 1 toost the allies a billion and a quarter to give Napoleon his Waterloo.

The mather who would be horrified at the thought of letting her daughter wander away to a strange country without guide or counsel, yet permits her to enter that unknown land of womanhood without counsel or caution. Then, in utter ignorance, the maiden must meet physical problems whose solution will affect her whole future life. Dr. Pierce's Favorite Prescription has been well named a "God-send to women." It corrects irregularities and imparts auch rigorous vitality to the delicate womanly organs, as fits them for their important functions. Many a Tervous, hysterical, peevish girl has been changed to a happy young woman after the use of "Favorite Prescription" has established the sound health of the argans peculiarly femiaine.

MR. WHITNEY SERIOUS.

Reknowledges Liberel Ald.

Movisburg, Jan. 26.—"In the immediate presence of the great political apheaval in the province to-day, I can have but little to say.

"All must acknowledge the serious meaning of this emphatic expression of the people's will.

"I fully and gladly appreciate the fact that Liberals in large numbers joined in that expression."

J. P. Whitbery, leader of the Conservative party in the Province of Ontario, made the above statement last night.

During the evening Mr. Whitney was fairly "deluged with telegraph bulletins, which kept him informed of the situation as it developed.

Not one of Mr. Whitney's strong backers in the last House was beaten. They carried their seats by majorities away up in the hundreds. The Limerals made a dead set on such men as Hanna in West Lambton, heading in North Essex, Carscalten in East 'Hamilton, and Beck in London, but these man piled up votes faster than these man piled up votes faster than they were ever able to do it before. Cell Matheson, J. J. Roy, Dr. Wil-loughly and other preminent Genservative candidates proved big win

Even New Ontario, which Premie Ross discovered, almost unanimously decided against the Government, Mr. Hoss gaining only one seat out of seven. YOU CAN INTEREST HIM

Any Man Over Fifty.

Anv Man Over Fifty.

You can interest any man over fifty vears of age in anything that will make him feel better, because, while he may not as yet have any positive erganic disease, he no longer feels the buoyancy and vigor of twaty-five nor the freedom from aches and pains he enoyad in earlier years, and he very naturally examines with interest any projection looking to the improvement and preservation of his health.

He will notice among other things that the stomach of fifty, is a very different one from the stomach he possessed at twenty-five. That greatest care must be exercised as to what is eaten and how much of it, and even with the best of care, there will be increasing digestive weakness with advancing years.

A proposition to perfect or improve the digestion and assimilation of food is one which interests not while every inam of fifty, but every man, woman and child of any age, because the whole secret of good health, good blood, strong nerves, is to have a stomach which will promptly and theroughly digest wholesome food, because blood, nerves, brain tissue and every other constituent of the body are entirely the product of digestion, and no medicing or "health" food can possibly create pure blood or restore shaky nerves when a weak stomach is replenishing the daily wear and tear of the body from a mass of fermestiag, half-digested food.

No, the stomach itself wants help and in mo roundabout way, either; it wants direct, unmistakable assistance, such as is given by one or two Stuart's Dyspepsia Tablets after each meal.

These tablets coure stomach trouble because their use gives the stomach a chance to rest and recuperate; one of Stuart's Dyspepsia Tablets after each meal.

These tablets oure stomach trouble because their use gives the stomach a chance to rest, and recuperate; one of Stuart's Dyspepsia Tablets contains digestive elements sufficient to digest 3,000 grains of ordinary food such as bread, meat, eggs, etc.

The plau of dieting is simply another aame for starvation, and the use of Trepared shood and newfargled breakfast foods simply makes matters worse, as any dyspeptic who has tried them knows.

As Dr. Bennett says, the only reason at can insagine why Stuart's Dyspepsia Tablets are not universally used by everybody who is in any way troubled with poor digestion is because usany people seem to think that because a medicine is adventised or is sold in drug stores or is pnotected by a trade mark mist be a humbug, whereas as a matter of truth any druggist who is observant knows that Stuart's Dyspepsia Tablets have cared more, people of indigestion, heart burn, heart troube, nervous prostration and randown sendition generally than, all trouble, nervous prostration and run-down condition generally than all the patent medicines and doctors' prescriptions for stomach trouble combined.
