JORDAN

MAKES MEN SOUND AND STRONG

Detroit Specialist Making Men's
Diseases a Specialty for Years.
Will Accept Your Case, giving
Individual Treatment. You
may use it in the Privacy of
Your Own Home.

You May Pay When You are Cured.
A Detroit Specialist who has 14 diplomas and
certificates from medical colleges and state boards
of medical examiners, and who has a vast experi-
ence in diagnosing diseases of men, is positive he
can cure a great many so called incurable cases.

DR. S. GOLDBERG.
The possessor of 14 diplomas and certificates,
who wants no money that he does not earn.
In order to convince patients that he has the abil-
ity to do so he says, Dr. Goldberg will accept your
case for treatment, and you need not pay one
cent until a complete cure has been made; he
wants to hear from patients who have been able
to get cured, as he guarantees a positive cure for
all chronic, nervous, blood and skin diseases,
which he accepts for treatment. He not only cures
the condition itself, but likewise all the complica-
tions, such as rheumatism, bladder of kidney
troubles, blood poison, physical and nervous
debility, lack of vitality, stomach trouble, etc.
The doctor realizes that it is one thing to make
claims and another thing to back them up; so he
has made it a rule not to ask for money unless he
cures you, and when you are cured he feels sure
that you will willingly pay him a small fee. It
seems, therefore, that it is to the best interests of
everyone who suffers to write the doctor confi-
dentially and lay your case before him, which will
receive careful attention, and a correct diagnosis
of your case will be made free of charge; if you
have lost faith with him, as you have everything
to gain and nothing to lose, you must remember
one penny need be paid until you are cured.
Medicines for patients are prepared in his
laboratory to meet the requirements of each
individual case. He will send a booklet on the
subject, which contains the 14 diplomas and cer-
tificates, entirely free. Address him simply
Dr. S. Goldberg, 208 Woodward Ave., Room 111
Detroit, Michigan. Send him a Canadian post-
office note from Windsor, Ont., consequently
there is no duty to be paid.

CANADIAN PACIFIC

EASTER SINGLE FARE!

Going April 20, 21, 22, '23,
24, Returning Until
April 25th.

Between all stations in Can-
ada; Port Arthur, Sault Ste.
Marie, Mich., Detroit, Mich.,

BIG OCEAN BREAKWATER.

This Government is Building One
5,600 Feet Long.

San Pedro, Cal., is about a hundred
miles north of the Mexican boundary
and a few miles south of Los Angeles.
When California had to have a new
harbor somewhere a board of govern-
ment engineers in 1897 decided that
San Pedro had the best natural advan-
tages for constructing one. The result
of their work shows that a harbor can
be built almost anywhere if enough
money is expended. Congress appro-
priated \$2,900,000 for the San Pedro
breakwater, extending 8,500 feet in
length in the ocean, and for dredging
behind it.

The breakwater is a sort of continuation
of Point Fermin, to the east-
ward. It was planned to comprise two
straight arms, connected by a curve
1,800 feet long of 1,910 feet radius, the
westerly arm to be 3,000 feet long and
the easterly arm 3,700 feet long. A gap of
2,000 feet was left between it and the
shore, but this gap was crossed by a
railway of tremendous strength to en-
able the contractors to dump rocks for
the breakwater.

The total amount of rock required,
according to the government specifica-
tions, is 2,206,983 tons, of which it is
estimated 770,000 are yet to be put in
place. For some time the contractors
have been dropping the rock at the
rate of 45,000 tons a month, or four
tons a minute, at a cost of \$0.84 a ton.
At the beginning the dumping took
place in twenty-five feet of water. To-
day the contractors are making big
splashes in fifty-two feet of water.
The rocks are often so large that only
two of them can be put on one car.
There is a year and a half of dumping
ahead, but already a harbor of refuge
is formed, where vessels can lie in
safety in all sorts of weather behind a
rock line above high water.

POINTED PARAGRAPHS.

Trouble is about the only thing some
people can borrow without security.

Don't get blue over small matters;
the large ones take care of themselves.

Poor relations never look so poor as
they do when they ride in a carriage
belonging to rich kin.

The longer a man has been married
the harder he has to cough to attract
sympathy from his wife.

If a man quits work he begins to get
old rapidly. Work has a rejuvenating
influence that idleness lacks.

When people who are not very well
acquainted begin to gossip a boy on
thin ice doesn't feel his way more care-
fully.

The New Alloy Invar.

The new alloy called invar, consist-
ing of steel mixed with about 36 per
cent of nickel, which is practically in-
variable in volume with ordinary
changes of temperature, has recently
been adopted by Swiss watchmakers
for making balances in the majority of
their best timepieces. The compensa-
tion for temperature thus obtained is
superior to any hitherto known. For
many years watchmakers have strug-
gled with an outstanding trouble in
the best compensated chronometers,
known as "Dent's error," due prin-
cipally to the nonlinear variation of the
elasticity of the steel of the hairspring.
By the use of Invar Dent's error may
be practically eliminated.

Newspaper Advertising.

The Louisville Courier-Journal of-
fered five prizes for the best sugges-
tions for advertising the city. The
theory has lately been advanced, and
with a measure of acceptance, that a
city needs to be advertised as much as
a business does. The judges decided
that the most effective plan proposed
was the raising of a sufficient amount
of money to advertise the city's advan-
tages in the leading newspapers pub-
lished in the territory from which the
city expects to draw trade and popu-
lation, followed up by advertising in
the leading journals of the country. All
the proposals had reference to some
form of newspaper advertising.

The Mountain Laurel.

Following the example of twenty-two
states which have adopted floral em-
blems, there has just been a hear-
ing at the statehouse in Boston be-
fore the committee on probate and
chancery with a view to selecting a
floral emblem for Massachusetts. Peti-
tions from all parts of the state were
presented, and one naming the moun-
tain laurel for the honor was signed
by 25,000 men and women who want
it for the state emblem. The next high-
est favorite, the mayflower, received
only 3,000 votes, while the rest of the
votes were "scattering."

Relics of the Cave Dwellers.

A prehistoric cave dwelling has re-
cently been discovered near Wuznan,
on Lake Lucerne, in Switzerland. A
party of antiquarians had the entrance
passage into the cavern cleared of ob-
structions and a grove of staves of
caves was laid bare. A fine collection
of stone implements, including knives,
ax heads and spears, gigantic shells
rudely ornamented, evidently drinking
vessels and dishes, was discovered. In
one chamber of the cavern the ex-
plorers found the remains of the bones
of many extinct animals.

Fortune Telling Tokens.

In the fashionable west end of Lon-
don a teneap especially made for for-
tune telling is being sold. The cup is
engraved on the inside with the mystic
symbols of the fortune teller—a
bell, heart, horseshoe, and so on. The
tea leaves at the bottom are swirled
around the cup, and according to the
position or objects on which they stick
so is one's fortune.

Some years ago, a farmer laid, grown
restless and tiring of tilling the soil and
the small returns of farm life, left the
comfortable home fireside to seek a
quicker fortune in the gold mines.
The most independent man on earth is
the farmer, for he makes the earth yield
him almost everything needed for life.
He knows that as he sows so will he reap.
He usually keeps strong and healthy. In
the same way that the earth yields food
for man, so does it provide remedies for
human ills. Thousands of households
throughout the farming districts of the
United States know the value of Doctor
Pierce's Golden Medical Discovery. It is
Nature's most valuable and health-giving
agent—made without the use of alcohol.
It contains roots, herbs and barks, and is
the concentration of Nature's vitality as
found in the fields and woods. This
remedy has a history which speaks well
for it because it was given to the public
by Dr. R. V. Pierce, founder of the In-
valids' Hotel and Surgical Institute, at
Buffalo, N. Y., nearly forty years ago.
Some medicines, tonics or compounds,
enjoy a large sale for a few years, then
disappear, but Dr. Pierce's Golden Med-
ical Discovery has proved such a reliable
blood remedy and tonic that it often en-
joys the confidence of several generations
in a family, and its increased sales year
by year coming from the recommenda-
tions of those who have tried it, prove its
lasting merit.

CIVIC BEAUTY.

Architects Urge That More Attention
Be Devoted Thereto.

Speaking at the Ontario Association
of Architects' convention Mr. J. Hor-
ace McFarland, president of the Ameri-
can Civic Association, dealt with the
capital of Pennsylvania, and told of
the improvements there.

"When you are civically sick send
for a doctor. That is all the message
I have to bring, and it will fit Mr.
York as well as Toronto," said Mr.
McFarland's advice. Three experts in
sewage and water supply, in parks and
in paving had been called in to pre-
scribe for Harrisburg.

"If you do not provide play places
for your children you are doing your
part towards killing them. If you do
not make playground children of them
they will make slum children of them-
selves. Put a park in a slum and you
need not worry so much about the
number of saloons you have around it."

Mr. McFarland said that Boston had
reached that stage of civic righteous-
ness when they made open spaces by
saring down business blocks. Business
had all outdoors to spread itself in, and
the parks and playgrounds should be
where the people had immediate access
to them.

"Think of your streets with the
poles wiped out. The wires for elec-
tric utilities will never be put under-
ground until it has to be done, and
then it will be done right away quick."
With regard to dwellings, he thought
each house should cover a certain
minimum of square feet, and a bylaw
should be passed to prevent cramped
building. The made ground and dumps
he described as so many typhoid fever
traps. "The Health of the People the
Beginning of Happiness" was the mot-
to he adopted from the Brookline pub-
lic baths.

A woman's influence may be strong
but she seldom uses it judiciously.

SERLING & KOVINSKY

EFFECT OF ENVIRONMENT.

Children, as Well as Plants, Flourish
by Proper Surroundings.

A learned professor was speaking to
a large audience at the University of
Philadelphia upon the adaptation of
plants to their environment, says the
Ladies' World. He described a thorny
plant of the desert, so formidable that
it has the surname of "horrida." He
told them how every leaf through long
generations of warfare had become a
spine, but that when transferred to
European botanical gardens from the
burning sands of Sahara, sheltered
there and watered, so wondrous was
the change in it that it could hardly
be recognized. The thorns in the new
growth became leaves. It seemed to
joy in its rest from struggle and de-
velop lines of beauty.

One listener thought of tired, strug-
gling women, those who have much to
contend with, how sharp they are and
ever on the defensive, yet how they
change when freed from wailing in-
fants, trying boys, weary hours of
sewing after long days about the house
to lessen expenses and how pleasant it
is to see them develop when rest and
a better income and a more refining life
are theirs.

Beside this person in a reverie was a
tenderly reared little woman who had
never known want or hardship or suf-
fering. She turned to the writer and
whispered:

"He is talking of plants, and I am
thinking of children. If only the little
children could have right surroundings
and develop in health and beauty!"
The specialists in botany and the
amateurs listened for information, but
thereafter the lecture was, for those
two, an allegory and a sermon.

A UTILITY BOX.

One of the Useful Things That Every
House Should Have.

A utility box, without which no house
is quite complete or any girl happy, is
one of the most useful articles to possess
to a bride, or, if the happy bridegroom
be handy with tools, let it be one of
his first delights to make one for the
new home. Any plain packing box of
a desirable size will answer the pur-
pose after the cracks and nail holes
have been puttied up and the whole

THE USEFUL UTILITY BOX.

box inside and out thoroughly sand-
papered and planed until the surface
of the wood is nice and smooth. One
or two coats of green stain (or the
color preferred) should then be applied,
and the box will be ready for decoration.
On the box shown in the illus-
tration a border of cretome was fas-
tened on with green leather upholstery-
er's nails. On the lid a piece of rose
cretome was cut from a remnant and
tacked on with the same kind of nails
over a couple of layers of wadding.
The effect when the box was finished
was very good.—Ladies' Home Jour-
nal.

Brushes on Fine Furniture.

Brushes can be removed from fine
furniture by means of what is known
in the cabinet trade as the steaming
process, and any intelligent person can
do it by exercising a reasonable
amount of care. The object, of course,
is to raise the grain of the wood to
the same level as before the damage.
Take a piece of wet felt or heavy flannel
about the size of the dent to be
removed and a hot iron. Lay the felt
on the damaged spot and apply the
iron so as to make the wood hot with
the steam. Repeat the process until
the grain of the wood has risen some-
what higher than the rest of the sur-
face. Allow it to dry for some hours.
Sandpaper it with 00 paper until
smooth, then refinish. If this is properly
done the surface will be like new.
Very hard wood will succumb to this
treatment, but will take more time
than woods like mahogany or black
walnut.

To Restore Gray Hair.

A celebrated German physician's
recipe which is said to restore the color
to gray hair after illness is to give sul-
phur and iron internally and by anoint-
ing the scalp with yolk of egg. A hair
restorer is made from one dram of sul-
phate of iron, one-half dram of sul-
phure, one ounce of tincture of iodo-
randi, four drams each of extract of
rosemary and extract of thyme, one
ounce each of rectified spirits and gly-
cerin and one-half pint of elder flower
water. Add the iron to the spirits, the
glycerin to the extracts and tincture,
the sulphure to the perfumed water.
Agitate, then add the first mixture to
the second and lastly unite them to the
third. Apply to scalp and hair nightly
with massage.

Own a Home.

A house, like a child, is an educator.
It has an ethical and spiritual influ-
ence commensurate with its economic
value. With the school of thought, now
somewhat in evidence, which would
send the mothers out into business and
professional life, "farm out" the babies
in nurseries and fetch the food supply
from a co-operative kitchen, we have
little in common. The family, united
and sanctified by a happy homemaking,
is the unit of society and the bulwark
of the nation. On with the home build-
ing! Simple furnishings are the height
of fashion now, and the doctor and the
preacher rise up and call them blessed.
Practice the simple life and have a
home.—Good Housekeeping.

STOP! WOMEN,

AND CONSIDER THE
ALL-IMPORTANT
FACT

That in addressing Mrs. Pinkham you
are confiding your private ills to a woman
a woman whose experience with wom-
an's diseases covers a great many years.
You can talk freely to a woman when it
is revolting to relate your private troubles
to a man—besides a man does not under-
stand—simply because he is a man.

Many women suffer in silence and drift along
from bad to worse, knowing full well that they
ought to have immediate assistance, but a natural
modesty impels them to shrink from exposing them-
selves to the questions and probably examinations of
even their family physician. It is unnecessary.
Without money or price you can consult a woman
whose knowledge from actual experience is great.

Mrs. Pinkham's Standing Invitation:

Women suffering from any form of female weak-
ness are invited to promptly communicate with Mrs.
Pinkham at Lynn, Mass. All letters are received,
opened, read and answered by women only. A
woman can freely talk of her private illness to a
woman: thus has been established the eternal
confidence between Mrs. Pinkham and the women
of America which has never been broken. Out
of the vast volume of experience which she
has to draw from, it is more than possible
that she has gained the very knowledge
that will help your case. She asks nothing
in return except your good-will, and her
advice has relieved thousands. Surely any
woman, rich or poor, is very foolish if she
does not take advantage of this generous
offer of assistance.—Lydia E. Pinkham
Medicine Co., Lynn, Mass.

Following we publish two let- ters from a woman who accepted this invitation. Note the result.

First letter.
"Dear Mrs. Pinkham:—
For eight years I have suffered something
terrible every month with my periods. The
pains are excruciating and I can hardly stand
them. My doctor says I have ovarian and
womb trouble, and I must go through an op-
eration if I want to get well. I do not want
to submit to it if I can possibly help it.
Please tell me what to do. I hope you can
relieve me." Mrs. Mary Dimmick, 50th and E.
Capitol Sts., Benning P.O., Washington, D.C.

Second letter.
"Dear Mrs. Pinkham:—
After following carefully your advice,
and taking Lydia E. Pinkham's Vegetable
Compound, I am very anxious to send you
my testimonial, that others may know their
value and what you have done for me.

"As you know, I wrote you that my doctor
said I must have an operation or I could not
live. I then wrote you, telling you my ail-
ments. I followed your advice and am en-
tirely well. I can walk miles without an
ache or a pain, and I owe my life to you and
to Lydia E. Pinkham's Vegetable Compound.
I wish every suffering woman would read
this testimonial and realize the value of writ-
ing to you and your remedy."—Mrs. Mary
Dimmick, 50th and E. Capitol Streets, Ben-
ning P.O., Washington, D.C.

When a medicine has been successful
in restoring to health so many women
whose testimony is so unquestionable,
you cannot well say, without trying it,
"I do not believe it will help me." If
you are ill, don't hesitate to get a bot-
tle of Lydia E. Pinkham's Vegetable
Compound at once, and write Mrs. Pink-
ham, Lynn, Mass., for special advice—
it is free and always helpful.

DISTRICT DOINGS

BALDOON.

Mr. Fred Roe has rented his farm
to Geo. McLearn. Fred intends tak-
ing a trip up through Algoma Dis-
trict.

Mrs. J. Tiffin has gone to Wind-
sor to see her sister, who is very
ill.

Mr. B. Rankin, of Chatham, was
visiting friends on the 4th conces-

SUNDAY.

Mrs. Fred Roe is on the sick list.
Mr. and Mrs. Jos. Wump treated
the choir to a maple taffy pull on
Wednesday night. The evening was
very enjoyably spent in pulling taffy
and playing games.

Miss McAubin, of Montreal, is visit-
ing at the parsonage.

Mr. J. Tiffin has sold out here
and is moving to Dover Centre.
Rev. A. I. Brown preached a fine
sermon Sunday morning from the
text "The half has never yet been
told." The choir sang two excellent
anthems.

Ayer's Sarsaparilla. Mends shattered nerves. Gives a healthy red to pale cheeks. Puts good flesh on thin children. Takes off pimples, rashes. Ask your doc- tor to tell you about it. Lowell, Mass.

Chatham Mineral Springs!

HOTEL SANITA, just completed, new and modern, every par-
ticular connected with the most complete Mineral Bath House in Canada,
cheerfully situated, facing Tecumseh Park.

The Mineral Water

Supplied from a deep rock flowing well, is pronounced by expert
chemists to be equal to the water of Carlsbad. We are constantly re-
ceiving testimonials from people the Baths have cured of Rheumatism in
its worst forms, Gout, Uric Acid, all diseases of the kidneys, Bladder,
Blood, Skin and nerves. MODERATE RATES.

Write for particulars.
The Chatham Mineral Water Company, Limited

BETTER CLOTHING

It is by making better clothing,
not cheaper, that we are able to
hold and increase our patronage.
Why sink your personality in
"ready-mades" when you can ob-
tain clothes of character and in-
dividuality, made in good taste and
style, at a slightly higher cost.
Every garment we guarantee the
best in material, pattern, cut, finish

The T. H. TAYLOR CO
