

THE LOUDEN CARRIER

—helps you solve your labour problem

THOUSANDS of Louden Litter Carrier outfits were installed when labour conditions were normal, and they have since given daily demonstrations of their value, as savers of time, and of labour. How much greater this value to-day, when farm help is scarce, and high in price. Secure

a price on a complete Louden Litter Carrier outfit from our dealer in your locality, or from us direct. You will be surprised at the low cost of the equipment, which lasts a life-time, and at the saving in the cost of performing a hard and disagreeable task.

Litter Carrier equipment to give satisfaction must be right in design, in material, and in workmanship. You can purchase Louden equipment, assured that on each count, you are getting the best.

Louden track is centre hung, weighs two pounds to the foot, and is high carbon steel. Full strength of the steel bars. They are neither punched nor drilled for splicing or attaching the hangers. This track can be curved without heating, right in your own barn.

Litter Carrier box is made of heavy galvanized steel. Strongly reinforced with angle iron. No wood to rot out, or get manure soaked.

Louden Litter Carriers will move and lift the heaviest loads, with but little effort.

Back Your Aim with Confidence

in Dominion—the only Canadian-made ammunition.
When the one good shot of the trip arrives you will never know the disappointment of a missfire if you use **Dominion Big Game Cartridges**

At that instant when the moose or deer appears the knowledge that a true aim is backed up by true ammunition helps mightily.

With Dominion .303 British Soft Point—or any of the other big "D" Cartridges—the sportsman is sure of ammunition with a real "hit and stop".

No matter what big game you seek there is a Dominion Cartridge to stand by your aim and give you confidence.

Send for our attractive hanger "A Chip of the Old Block".

Simonds Crescent Ground Cross-Cut Saws

This saw will cut 10 per cent. more timber, same time and labor being used, than any other brand of Cross-Cut Saw made. This guarantee has stood for thirty years.

There are two reasons for the superiority of the Simonds Saw—grinding and steel.

A saw that does not bind in the kerf cuts easy; a saw that binds is a bother. Crescent grinding insures saws ground so that the teeth are all of even thickness throughout the length of the saw, and the blade tapered for clearance to the greatest degree consistent with a strength of blade which enables the operator to push as well as pull the saw. Crescent grinding is an exclusive process, used only on Simonds Cross-Cut Saws.

Simonds Canada Saw Company, Limited, Montreal, Que. Vancouver, B.C. St. John, N.B.
Always buy a saw with a sharp cutting edge—not a soft saw—because the former lasts longer and keeps its edge better

Simonds Steel will take a temper to hold a cutting edge and stay sharp for a longer time than any saw not made of Simonds Steel. There are two reasons why you should buy Simonds Crescent Ground Cross-Cut Saws—Quality and Price.

Superior quality makes your cutting as easy as cutting can be. The price is moderate for the saw value given. It is about the same as you would pay for an inferior saw; therefore, why not get the best for your money—a saw with the manufacturer's name, "Simonds," on it. It is your guarantee and your protection. The saw illustrated, Simonds Crescent Ground Saw, No. 22, is the most satisfactory saw for all usual sawing purposes. Insist on your hardware dealers supplying you with Simonds Saws. Write to the factory for further particulars.

Your Maple Grove is the Most Profitable Part of Your Farm

No matter what crops you raise, one single acre of maple trees will give you a bigger profit with less work, less time, and at less expense than an acre of any other crop on your farm.

An acre of oats returns only about \$30, and you must plough, fertilize, harrow, drill the seed, reap, thresh and pay for seed, besides your time, horses, help and expensive machinery. Your profit is about \$5.00. An acre containing 100 maple trees will return about \$30 in syrup and sugar, and the cost is only about \$10, with your time, at a season of the year when you cannot do anything else.

We will show you how to do it, supply you with the proper equipment, and let you pay cash for it or pay in two or three yearly payments.

Write us to-day for the fullest information and do not longer neglect the present high prices for maple products.
