From her early conversion at twelve years old, she follow ed her God right humbly, through many trials of disposition, and humbly does the writer pray that "her gracious Saviour" may make this lit tle notice abundantly useful to many a nervous. timid Christian, who has like her lived all the life time subject to bondage from the fear of death. She had a noble intellectual mind, lucid and clear, with strong discerning powers and simplicity and lack of affectation. Left very early in life "a widow indeed," with two dear boys. she returned to her father's house, and only those who have felt her loss, know all the comfort and the blessing, the happiness and the love she diffused around her, unselfish in the highest degree she anticipated every wish of those around her, in her care for their comfort even the dumb animals shared. Her own family went to her with every care and anxiety, and she soothed and directed till it troubled them no more. Her be nevolence and geniality made her a great favourite with the poor she came in contact with : her love of the Sabbath and the sanctuary was intense To her they surely were a delight; her Satur day was a ceaseless preparation for them, she strictly fulfilled the Scripture "Not slothful in usiness;" and while engaged in her household duties, her voice, which was one of great compass, sweetness and power, trilled out hymn after hymn in her Master's praise. Is it to be wondered at with all these qualities she was every thing to her own, that all shrank from her re moval from them; and some with less grace than earnest promises : oh the gracious loving Lord that permits unworthy dust to charge God foolishly and does not desured them as in a moment. In November 1859 her health began to decline. and in the spring following her medical advisers decided that a painful operation was necessary to save her life, most calmly did she acquiesce with this, and at once proceeded to "set be house in order." Under the influence of chloroform she sustained the operation : and not a sigh or murmur escaped her lips until she was well again, which was in an incredibly short time Often and often after she referred with great pleasure to the blessing she derived then from the visits of her faithful friend the Rev.
