DRY FARMING: Its Principles and Practice

(By William McDonald, M.S. Agr., Sc.D., Ph.D.)

The readers of The Guide have demanded reliable information on "dry farming" as it is called. After considerable search and consultation with experts this book was selected. The author is one of the leading agricultural scientists of the day and has studied conditions in South Africa and United States. The author treats of the "Campbell System" of dry farming and also devotes a chapter to "The Traction Engine in Dry Farming." Professor W. J. Elliott, who is in charge of the C.P.S. farm at Strathmore, Alberta, and one of Canada's leading Dry Farming Experts, says: "I could certainly recommend 'Dry Farming' to all those who are considering this work in any one of its phases, and in fact for any man who is farming under more humid conditions there are many points that will aid him very much in the handling and treatment of his soil." The book is written in a simple style that may be understood by every man who reads, and in fact, so well has the author prepared this work that it reads like an interesting novel. It contains 280 pages and is well illustrated. This book is kept in The Guide office and will be sent by return mail, \$1.50, postpaid.

Warning to the Politicians

On December 16 last the organized farmers of Canada went to Ottawa 800 strong. They were intelligent men and knew what they wanted. They were tired of the bickerings of political parties and of the reign of Special Privilege. In the House of Commons chamber on that beautiful winter morning those farmers told the politicians what they wanted; what they were going to have. The whole story of the trip and of what the farmers did and said is published in the book entitled "The Siege of Ottawa." It cannot be obtained anywhere else. Every farmer should have a copy and should see that his friends have a copy. They will be sent to any address by return mail postpaid for 25 cents each. Five copies for \$1.00. Lower prices for orders of twenty-five or more copies.
