

Peaches, Plums, Prunes and Pears

will only be about half a crop. Better obtain your supply early.

Crabapples and apples indicate a crop less than in 1915, but prices are lower. This in spite of additional duty.

Okanagan United Growers Ltd.

CHEAP FALL PLOWING

KEROSENE POWER MAKES IT SO

The Waterloo Boy Kerosene One-Man Tractor is a Kerosene Tractor throughout. It has no special attachment for the heavier fuel. Being built especially to burn kerosene, you can depend on it to give perfect satisfaction. Kerosene costs about half as much as gasoline. The saving in fuel alone is worth your first consideration. Actual buyers of Waterloo Boy Tractors report to us that they are plowing on from 1 1/2 to 2 gallons of kerosene per acre. Days in the fall are priceless. Early fall plowing pays every time. You can work the Waterloo Boy from daylight to dark. The Brandon Fair demonstration proved conclusively what the Waterloo Boy can do. We are mighty proud of its performance. You'll be just as proud, too, if you buy one.

PROMPT DELIVERY GUARANTEED

We are always well stocked with Waterloo Boy Tractors and repair parts. Place your order today. We absolutely guarantee to make shipment any day you mention.

We also handle Gas Engines, Grain Grinders, Cordwood and Pole Saws, Electric Lighting Machinery, Hand and Power Washing Machines, Grain Elevators, Pump Jacks, Milking Machines, Belting and Threshers' Supplies.

Weight only 4800 lbs. Brake Test 24 h.p. Draw Bar 12 h.p. Ignition, High Tension Coil Magneto, with Ignition Starter

Gasoline Engine and Supply Co. Ltd., Winnipeg

DELCO-LIGHT

Even Electricity
On the Farm Now—
AT SMALL COST

Electricity that seemed so wonderful to the farmer, yet so unattainable, can now be had on every farm. More wonderful still, its cost is low—averaging less than five cents a day. Most wonderful of all, this great achievement is completely efficient, absolutely reliable in every single detail. The name alone must prove to you how perfect and yet how simple Delco-Light is. Now through Delco-Light, you can make farm life brighter, pleasanter, easier. No more bother with old-fashioned, dim, kerosene lamps—but a brilliant, clear, convenient light or power—just at the turning of a switch.

The Greatest City Advantage

Electricity is not a luxury any more than water; it is a necessity. It is to have such conveniences as Delco-Light gives that many farmers—especially the younger ones—desert the country for the city. Delco-Light will make your home brighter, more cheerful, more enjoyable. In the odd moments left at the end of each day's toil you can read—by the light that all can enjoy.

Clear Convenient, Light, Everywhere on the Farm

Delco-Light has made the old oil lantern around the barn at out-of-date as the car-drawn wagon. All the light you want in any part of the barn can be had by simply turning a switch. Down at the end of your lane, up in the hay-loft, in the tool-shed—anywhere and everywhere you can have a perfect, brilliant light without fuss or trouble. Chores will not occupy half the time you now spend. Animals can be tended to in a good light—and there's no danger whatever with Delco-Light.

So Simple that a Child Can Operate It

The Delco-Light is a complete isolated electric plant—combining gasoline engine, a dynamo, specially designed batteries, and a switchboard. Weight is 325 pounds, capable of delivering 750 watts. Low voltage—32 volts—eliminates all danger. Gasoline engine is air-cooled, so no danger of freezing, starts itself on pressing of a lever. Automatically cuts off switch when batteries are fully charged. Run once or twice a week it will supply all current needed—a child will operate it without trouble. Nothing to get out of order. Batteries, specially built for Delco-Light of sealed glass jar type, come fully charged.

A CANADIAN SUCCESS

"Electricity for EVERY Home in Canada." That is the Delco-Light ambition—to bring to the convenience, all the brilliance of electricity to every home in Canada that now is without this great advantage. Great as is the ideal its successful attainment is assured—the Delco-Light plant is thoroughly reliable and efficient. Efficient, too, is the wonderful organization selling Delco-Light, full of enthusiasm about Delco-Light and its possibilities.

Clean, Safe, Cheap

None of the grease and grime with Delco-Light that was so annoying with kerosene lamps. A turn of the switch and the electric bulb floods your room with brilliance—no smoke, no smell, but a clear, clean light. No need to be careful and gingerly—no danger of explosion. Best of all, Delco-Light is wonderfully cheap; average cost per day is less than 5 cents.

PRICE COMPLETE \$375.

Delco-Light was developed by the same company making the world famous Delco starting, lighting and ignition for automobiles.

THE DOMESTIC ENGINEERING COMPANY
DAYTON, OHIO.

POWER

Delco-Light is low-voltage system for safety. But it delivers power that will run small machines about your farm with complete efficiency. Think of the saving of labor with Delco-Light installed in your home. Cream separator, churn, washing machine all run by electric power. Have your wife hours of hard toil. Will pump all the water you need—drive a vacuum cleaner—drive a food chopper—make your life on the farm easier, pleasanter, more enjoyable.

PEDLARS 'O SHAWA' SHINGLES

GIVE wind and weather a chance to get beneath the shingles of your home, and you are in for no end of trouble and expense—warping, rotting, loosening shingles—leaking roofs and endless repairs. Pedlar's "Oshawas" Shingles give you the permanence of a single sheet of metal with the beauty of separate shingles. Lock tight on all four sides—windproof, rainproof, rustproof—not even the nails are visible. There's safety and permanence in a Pedlar's roof. The cost is small. Write now for "The Right Roof" Booklet G.O.
