## CANADA'S CROPS WILL BREAK ALL RECORDS

## Quality as Well as Quantity Far in Advance of Other Years

Satisfactory Reports Come From Every Part of the Dominion - Only Slight Setbacks in Various Provinces.

OTTAWA, Oct. 12-The monthly bulletin of the census and statistics bureau, giving the condition of field crop throughout the Dominion at the end of September, shows that in quality as wel' as in quantity this year's harvest is of record breaking variety.

The reports of reliable correspondents in all sections of the country show that as compared with the reports at the same date last year, the average quality of spring wheat is 83 to 75 per cent. of a standard, of oats, 84 to 75, of barley, 81 to 71, of rye, 81 to 73, of peas, 81 to 63, of heans, 92 to 75, of buckwheat ,86 to 74, of mixed grains, 89 to 75, of flax, 86 to 68, and of corn for husking, 87 to 82. In the north west provinces, where the bulk or the field grain is produced, the av-erages of quality are uniformly high. Compared with last year, spring wheat in Manitoba is 87 to 81 per cent, of a standard, oats 86 to 73, and barley 85

In Saskatchewan wheat is 93 to 61, oats 94 to 67, and barley 91 to 58. In Alberta spring wheat is 89 to 77, oats 96 to 84 and barley 84 to 80. These high qualities applied to a total out-put of 350,000,000 bushels at the highest market prices realized in a quarter of a century are an indication of the country's fortune reaped from the soil of the prairies this year. In all the provinces as well as in the north west the records of grain crops or

Rust, the joint worm and hail storms did some injury in parts of Prince Edward Island. Drought re-tarded plant growth in the Annapolis Valley of Nova Scotia. Heavy rains brought the grain of New Brunswick in the stock and early frost and grasshoppers have lowered the averages of oats and barley in Quebec. But the loss from these causes will not be seriously

## GOOD BLOOD AND GOOD HEALTH

is the Result Obtained When Dr. Williams' Pink Pills Are Used

To have good health you must have good blood. It is only when the blood is bad that the health is poor. The blood is the life-giving fluid of the body-it is therefore an absolute neces sity that it should be kept free from all impurities and poisons. To do this nothing can equal Dr. Williams' Pink Pills for Pale People. These Pills make new, rich blood with every dose; they drive out every impuritypoison-and thus give good health. Concerning them Miss Bernadette Lapointe of St. Jerome, Que. says: "For several years my health was very bad-my system was completely run down. I had indigestion continually; my heart was weak; I had headaches and backaches, and was sore all over. My blood was very poor and more than once I was in despair. I tried many supposed remedies, but none of them helped me One day a friend advised me to try Dr. Williams' Pink Pills, telling me that she had found them good in a case similar to mine. I followed her advice and began taking the pills. They soon gave me some slight relief. Encouraged by this I continued their use for several months and they strengthened my whole system. I am today in excellent health and always keep Dr. Williams' Pink Pills in the house, for if I feel a little out of sorts I take a box of Pills and am soon all right again." Thousands of young girls throughout Canada suffer just as Miss Lapointe did. They are siekly all the time and are totally unable to take the enjoyment out of life that every healthy girl should. They need a tonic to build them up-to enable them to withstand the worries of household or business duties; to give them strength to enjoy social life. Such a ic is Dr. Willims' Pink Pills for Pale People. These Pills give blood to bloodless girls; they strengthen the nerves; banish headaches and backaches; cure indigestion, rheumatism, heart palpitation and relieve the many ills of girlhood and womanhood. Sold by all medicine dealers or direct by mail at 50 cents a box or six boxes for

There is also a possibility that the Liberal Government, engaged over the refusal of the House of Lords, at the dictation of the Tories, to pass the tude that the Tories having got the country into a financial mess might find a way to get it out again. Another plan is that the Chancellor of the Exchequer should raise the cessor to find the money to repay it. This is also open to the objection that the great London bankers to whom he would have to apply are to a man opposed to his policies, and probably would make terms which would be practically prohibitive. Morever, such a loan would have to amount to \$250.-000,000 at least and any attempt to float such an enormous amount in value of government securities as would amount almost to a panic. It would appear, from Board of Trade returns and from the bank statement that trade is reviving. The worst feature continues to be the British railway market. Traffic returns are as unsatisfactory as ever, taken as a whole, but prospects are not considered bad. The loss is in passenger receipts, and it has to be borne in mind in comparing passenger traffic returns with those of a year ago that that was a period when hundreds of thousands of people were attracted from all parts of this country and Europe to the great French exhibition, Looking at the receipts by themselves they show increases rather than decreases. The increases all round may be small, but they are looked upon as giving those interested some reason be optimistic regarding the future
