

RESULTS OF THE CITY ELECTIONS

A. S. GOODEVE DEFEATS HECTOR McPHERSON BY MAJORITY OF 54.

A Strong Council Has Been Chosen—Details of the Day's Doings—How the Vote Stood.

Mr. A. S. Goodeve was again elected to the position of mayor of Rossland Thursday by a majority of 54 votes over his opponent, Mr. Hector McPherson.

The total vote cast was not as large as expected, only 558 ballots having been deposited, although the list showed over 730 entitled to the franchise. Of these Mr. Goodeve received 306 and Mr. McPherson 252.

The majority vote according to wards, was as follows:

Ward 1.	
Goodeve.....	97
McPherson.....	72
Majority for Goodeve.....	25
Ward 2.	
Goodeve.....	114
McPherson.....	116
Majority for McPherson.....	2
Ward 3.	
Goodeve.....	95
McPherson.....	64
Majority for Goodeve.....	31
Majority for Goodeve in wards 1 and 3.	56

The contest for the aldermanic seats was almost as keen as that for mayor, and of the old council only one member remains, Mr. J. S. Clute, Jr., Ald. Edgren and Ross Thompson having been defeated by narrow majorities. The candidates elected are as follows:

Ward 1.—C. R. Hamilton and John Dean.	
Ward 2.—Hector McRae and A. A. Mackenzie.	
Ward 3.—J. S. Clute, Jr., and George Talbot.	

The vote resulted as follows:

Ward 1.	
C. R. Hamilton.....	130
John Dean.....	81
J. H. Robinson.....	79
Alex. Dunlop.....	53
(Spoiled ballots 2.)	
Ward 2.	
Hector McRae.....	148
A. A. Mackenzie.....	131
Ross Thompson.....	128
(Spoiled ballots 11.)	
Ward 3.	
John S. Clute.....	98
George Talbot.....	91
John Edgren.....	70
Matty W. Simpson.....	60
(Spoiled ballots 6.)	

The council for 1900 will, accordingly consist of the following members, if all elections are sustained: Mayor, A. S. Goodeve; Ald. Hamilton, Dean, McRae, Mackenzie, Clute and Talbot.

Although the vote was not a heavy one, there were plenty of evidences of interest on the part of the citizens, and the activity in taking voters to the polls kept the streets lively with vehicles, and the air musical with the sound of sleigh bells.

The largest vote, of course, was polled in ward two, and here McPherson's chief strength was supposed to lie. In fact, this ward gave him a majority of two over Mr. Goodeve. The latter gentleman's majority in the other two wards, however, gave him sufficient to make his election sure, even before the result in Ward two was known.

As was expected, Messrs. Hamilton, McRae and Clute headed the aldermanic polls in the respective wards they will represent. The contests for second place in all of these were very close, and while the election of Messrs. Mackenzie in ward two and Talbot in ward three was confidently expected by their supporters, Messrs. Ross Thompson and Edgren were generally known to have large followings.

In ward one a recount will have to determine whether Mr. John Dean or Mr. J. H. Robinson has been elected. The first announcement was that Mr. Robinson had been successful by a majority of two, but after going over the ballots again, this majority was transferred to Mr. Dean. The returning officer will give his decision today.

The council is a long way the best which the city has had in the period of its existence. It is composed of progressive business men, who will make the interests of the citizens their chief aim.

No sooner were the results of the election known than the victors began to rejoice. The adherents of Mayor Goodeve and of the winning councilmen cheered themselves hoarse. At five o'clock Mayor Goodeve made a little speech in his committee room. He heartily thanked the committeemen for the victory which had come to him and also those outside of the committee who had labored so untiringly that he might win. He was glad that the issues that had been brought up during the campaign had been threshed out, and felt that the people showed that they were with him by re-electing him mayor. He said he had kept his pledges during the term which was just expiring, and declared he would continue to keep them during the term which he was just entering. Now that the election was over he hoped that the little differences which had arisen during the campaign would be immediately forgotten, and that all would join hands and work for the good of Rossland.

In the evening a procession made up of torchlight bearers and teams, and headed by a brass band, marched up and down Columbia avenue, cheering for Mayor Goodeve and the aldermen elect. It finally halted in front of the Goodeve headquarters, and loud calls were made for the mayor. Mayor Goodeve came forward on the balcony in front of his headquarters and was loudly cheered. He thanked the electors for the honor which they had shown him by re-electing him. He said the campaign had been characterized by cleanliness and fairness, and was remarkable for the almost total absence of those personalities which are sometimes indulged in. He reiterated considerable of what he had said in the afternoon as to the keeping of the pledges which he had made to the people, and closed with a wish that all would forget the little feeling that had arisen during the campaign, and that all would heartily band themselves together and work in harmony for the upbuilding of

Rossland. The mayor was heartily cheered at the close.

Hon. T. Mayne Daly congratulated the large audience gathered on the fact that Mayor Goodeve and so able a board of aldermen had been selected to look after the affairs of the city during the next 12 months. The speaker sincerely hoped that the contest had engendered no feeling of hostility that would be lasting, and that everybody would go to bed with a friendly feeling for their opponents in the canvass that has just been closed. He closed by saying that Rossland had done herself proud by re-electing Mayor Goodeve. (Applause.)

Mr. John Dean, alderman elect, said he had no unfriendly feeling for those who had not voted for him. He was elected by a plurality of two votes over Mr. Robinson in the First ward. The result was so close that he had asked that there be a recount so that there might never be any doubt as to the result. He congratulated the electors on the fact that Mr. Goodeve had been re-elected, and said he was proud of the fair way in which the election had been carried on. He thanked the electors for the honor that had been shown him by electing him to a membership in the board of aldermen, and concluded by hoping that all differences would be forgotten and that all would now work in harmony for the glory and the good of Rossland. (Applause.)

Hon. T. Mayne Daly closed the meeting by asking for three cheers for Mayor Goodeve, three cheers for the Queen, and three cheers for the Canadian boys who are fighting the battles of the Empire in South Africa. Each of these requests were fervently and loudly responded to. Then the crowd dispersed.

ELECTION AT GREENWOOD.

Mayor Thomas Hardy Re-elected By a Majority of 45.

Greenwood, Jan. 11.—(Special.)—Mayor Thomas Hardy was re-elected to office by a majority of 45 over his opponent Robert Wood. Hardy received 135 and Wood 90 votes. For the north ward, the aldermen elected were David A. Bannerman, 56; C. Scott Galaway, 64, and P. P. Sharpe, 58; for the south ward, James Sutherland, 57; D. J. Sullivan, 65, and George H. Cropley, 78. Mayor Hardy is pledged to carry out extensive improvements for water works and sewerage systems, and has a majority in the council to endorse him. The election passed off quietly.

The first issue of the Daily Times will appear tomorrow.

ELECTIONS AT GRAND FORKS.

Mayor Lloyd A. Manly Again Returned By the Citizens.

Grand Forks, B. C., Jan. 11.—As expected, Mayor Lloyd A. Manly was re-elected to the position of first magistrate today. The elections were all closely contested. The following are the successful candidates: Lloyd A. Manly, re-elected for mayor by a majority of 13 over Charles Cummings; aldermen elected, H. A. Henderson, W. B. Davey, P. S. McCallum, W. K. C. Manly, J. Donaldson and R. Harvey.

HOUSTON MAYOR OR NELSON.

He Had the Backing of All the Old Timers.

Nelson, Jan. 11.—(Special.)—John Houston was today elected mayor of Nelson over Frank Ketcher by a majority of 11. Fletcher had a majority of 28 in the west ward and Houston 39 in the east ward. It was an exciting contest, as Houston has all the old timers ranged behind him. Ketcher did not make a popular candidate. The new mayor, however, will have an adverse council, as only one of his supporters was elected as alderman, and the same party practically has control of the municipal government. The aldermen elected are: West ward, A. L. McKillop, Dr. E. C. Arthur, W. Irvine; East ward, Dr. G. A. B. Hall, W. J. Wilson and Chris Morrison.

Revelstoke Council.

Revelstoke, Jan. 11.—The municipal elections here today resulted as follows: Mayor, A. N. Smith, elected over F. McKee by a majority of five; Ward 1, Lewis Patrick and Thos. Kirkpatrick by acclamation; Ward 2, Wm. Newman and D. E. McKee, by acclamation; Ward 3, J. Abrahamson and S. Needham.

Kaslo's Mayor.

Kaslo, June 11.—The mayoralty election here today resulted in the return of McAnn.

Elections at Victoria.

Victoria, Jan. 12.—The following was the vote in the mayoralty election today: Charles Hayward 1,351, Charles E. Redfern 629. Hayward thus defeated the present mayor by 722. The vote was considerably less than last year, the result being generally conceded in advance. The aldermen elected were: North ward, Kinsman, Bryden and Beckwith; Centre ward, Williams, Stewart and Yates; South ward, Cameron, Cooley and Hill. The trustees elected were: Messrs. Grant, Brown and Drury.

VANCOUVER ELECTIONS.

James F. Garden Has Been Re-elected Mayor—A Slap at Martin.

Vancouver, B. C., Jan. 12.—(Special.)—The municipal contest in Vancouver resulted in the re-election of James F. Garden as mayor by 194 majority, and the practical defeat of the Deadman's Island citizens committee, the men they were fighting being returned at the head of the poll. The Deadman's Island issue was engineered by Joseph Martin, and the result is taken as a nasty slap in the face for him.

A DELIGHTED PLUMBER.

For Twelve Years Catarrhs Was the Bane of His Life—Dr. Agnew's Catarrhal Powder Cured Him. A plumber, lives at 199 Jarvis street, Toronto. He says: "For nearly twelve years I have been troubled with catarrh; my nostrils were continually stopping up, and I suffered very much from headache. The doctors could not give me any permanent relief. Dr. Agnew's Catarrhal Powder both relieved and cured me. I can recommend it with confidence." Sold by Goodeve Bros.

LETTER FROM MR. HART-McHARG

HE WRITES FROM CAPE TOWN TO CAPTAIN FORIN.

A Brief Outline of What the Canadian Contingent Were Doing at the Time of His Communication.

In Camp, Green Point Common, near Cape Town, 5:45 a. m., Dec. 1, 1899: My Dear Captain—With a clear sky overhead and a smooth sea below, amid the blowing of the whistles of 20 transports and the cheers of the Gordon Highlanders, who had just arrived on the steamship Cheshire, across whose bows we passed, the old Sardinia steamed into Table Bay on Wednesday, the 30th ult., all being well on board.

The mayor and council came out and called on the commanding officer, as also did several officers who are remaining at the base; these calls being subsequently returned. We did not disembark until yesterday morning about 8 a. m., and came almost directly out here, a distance of about two miles, headed by the pipes and drums of the Cape Town Highlanders. For some reason or other we turned on the route which the public evidently expected us to take, as we swung into an almost empty street, while we could see dense crowds up along the main street.

To go to the front definitely what our movements are to be except that we are to go to the front at once, probably today; but you will know all about this long before this letter reaches you. We have been told unofficially that we are to be brigaded with the Black Watch and Seaforth, and we are all naturally delighted at the idea, as we are bound to be in the thick of it if this report is true. A cheer went up all along the line when this announcement was made.

I am thankful to say we are going to the front in light marching order. A great coat in which is rolled a shirt and pair of socks, one lavasack with soap, towel, knife and fork and spoon, pot of grease and pipe and tobacco; this together with mess tin, water bottle, side arms, rifle, etc., and bandolier constitute our whole equipment. Not even a brush. We are getting a new issue of boots here and they are a great improvement on what we brought with us. There are enormous quantities of stores at this point. Some of our men have bought khaki suits issued to them, as the ones on board would not fit. It is pretty hot weather and the men get well burned yesterday, a white streak being noticeable down both cheeks, where the chin strap goes.

A Good Voyage.

We had a really good voyage as far as weather goes, but the accommodation on the Sardinia was of the most wretched kind, principally in regard to room. The boat is altogether too small to take over 1,000 men and 10 horses. We hardly had room to move and it was a very difficult matter to keep things clean and tidy. Then again she is only a 9 1/2 knot boat instead of 12 as represented. We should have arrived here a week ago if we had had a decent boat. We were expected then. The life on board was much the same day after day, once the first few days were over. They were cold and wet, and a good deal of sickness, but it soon began to get warmer and early morning bathing parades were started. These consisted of running round the deck several times and then getting under a good big hose; it was the most popular parade we had. Reveille sounded at 5 a. m. Then bathing parade, breakfast, and drill for an hour; 10:30 dinner at 1. Generally some minor duties during the afternoon, and tea at 5:30; first post sounding at 8:15; last at 8:45 and lights out at 9. There were six men detailed for watch from each company night and morning, who paraded at 8 a. m. and p. m.; there were also the guards to mount, etc.

Appointed Corporal.

I was appointed full corporal of No. 1 section from the 1st of November and drew the minimum sum of 70 cents a day. When falling in I am on the extreme right of the whole battalion.

We have a pretty good company from British Columbia and Manitoba, and the officers are all very popular with the men. Crooke and Rea are getting along splendidly, as are all the representatives of the Rocky Mountain Rangers.

There were a good many wounded men about Cape Town and in conversation with them one learns that they are only too anxious to get back to the front. I am not sure what part we go to, but I think it is up Kimberley where Lord Methuen is.

Hope you are all well in Rossland. With kind regards to all members of the company and enquiring friends, I am, yours sincerely,

W. HART-McHARG,

Corp. No. 1 sec., A company, R. C. M. I.

THE NEW COUNCIL.

The Mayor and Aldermen Sworn in by Judge Boulton.

The city council of 1899 met yesterday at 11:30 o'clock, and formally passed the city government over to their successors. Mayor Goodeve was in the chair and all the members were present. A report on the fire protection of the city and on insurance rates, was presented by Alderman Lalonde, which contained corrections of representations made to the board of fire underwriters by the inspector sent to report on the condition of this city. Ald. Edgren reported on the list of tools in the hands of the superintendent of streets. Short speeches of farewell were made by the various aldermen. They referred to the pleasant relations which had existed during the year and the successful conduct of the city's affairs. Mayor Goodeve briefly replied to the compliments paid him, and expressed the satisfaction he had felt at the co-operation of the aldermen. The council adjourned.

At 12:15 o'clock the new council was sworn by Police Magistrate Boulton. Ald. Hector McRae was absent, being out of the city. The following standing committees were appointed:

Finance—Clute, Hamilton and Mackenzie.

Board of Works—Dean, McRae and Clute.

Fire, Water and Light—McRae, Talbot and Hamilton.

Health and Relief—Mackenzie, Talbot and Dean.

REV. P. A. COOL'S LECTURE.

He Believes the Anglo-Saxon Will Dominate the World.

There was a pleasant gathering in the Methodist church last night to listen to a lecture on "The Sunrise of the Twentieth Century," by the Rev. P. A. Cool of Spokane. The lecturer, who is gifted with great charm of manner, began by going back to the dawn of history, and touched upon the sun-worshippers of Persia in the days of old. Jumping from millenium to millenium in the early stages of the world's progress, he touched on the characters of Noah, Abraham and Moses, Solomon and The Nazarene, as closing each of the first millenium epochs. Next showing how the conflict of Holy Roman church and empire resulted in the marvellous trio Michael Angelo, Martin Luther and Columbus, in art, in religion and in discovery, he said the close of this century brought vividly before the memory the great era of Anglo-Saxon history; the days of the meeting of the great charter, laying the foundation stones of individual liberty; the reign of good Queen Bess marking the path of Anglo-Saxon progress and the glorious reign of "one of the women whom the Almighty had honored and whom the world will ever honor," Victoria in cementing the walls of Anglo-Saxon pre-eminence. He said the islands of the sea were ours, not Spain; that India was doing grateful homage, that Turkey would surely pay the price of the Armenian blood shed by her, that China, with broken walls, was awaiting the onset of the western civilization, and that Africa itself would surely bow to the same beneficent sway.

The reverend lecturer closed by predicting the victory of the Anglo-Saxon as against the Latin civilization, and that the universal language of the future need not be further sought; we had English, which was now spoken clear around the world. As to the social question—labor and capital—that had vexed the soul of society from the beginning of time, but the solution was not immediately visible. He personally believed that the answer to this mighty problem, whether money was to rule the world or whether intellect and integrity were to be the great factors, lay in the application of the golden rule, "do unto men as you would men should do unto you."

COLVILLE, INDIANS.

They Come Over to 'nis Side and Destroy the Game.

Mr. A. Snider, who is operating properties on the Pend d'Oreille river, at a point 12 miles east from Waneta, is in the city. Mr. Snider is the only white man on the west side of the Columbia, man on the west side of the Columbia. He says that it is the custom of the Indians from the Colville reservation to come into British Columbia and kill all sorts of game, principally deer. They use dogs and drive the game out of the country, which is contrary to the law. The law, too, is against Indians from the United States coming into British Columbia for the purpose of killing game. The game when slaughtered, is taken back into the United States. In September last he saw two Indians taking two deer with them back into the United States. They admitted that they were from the other side, and that they had killed the deer in British Columbia. Two days before Christmas Mr. Snider met two Indians near his cabin, and they had a big white tail deer which they had killed on this side of the line. He told them to look out, that it was against the law to kill deer, and threatened to inform the constable in Waneta of their unlawful action. One of them answered: "What shall I look out for? You had better look out. This is my country, and I have lived here for 30 years, and I have killed many white men, and will kill you too." As both Indians were armed with guns, and as Mr. Snider was unarmed, he was compelled to let the Indians go without further molestation. This is a matter which should be looked after by the provincial authorities. A special constable could soon put a stop to the practice.

GREENWOOD ITEMS.

Mining Notes in the Boundary Country—Important Deals.

Greenwood, B. C., January 11, 1900. George Macaulay, Spokane, and J. G. Keane of the Cariboo mine, Camp McKinney, have been in the city this week on business. Mr. Keane says that everything is going along steadily at Camp McKinney. There are 55 men at work on the Cariboo and 125 in all at work in the camp. With reference to the Dayton mineral claim, nothing was being done at present, but so far as work had gone it had shown up to be extraordinarily rich.

The new town of Deadwood has made start. W. T. Kaake, of Phoenix, is erecting a hotel, which will be completed in a few days. He has already secured a license, and has his stock on the ground. The new hotel will be called the Columbia.

R. W. Armstrong, chief owner of the Grand Forks townsite, has sold out his interest for a large sum of money, and will operate throughout the district generally now that he is foot-loose. In the meantime he intends to take a holiday in the East. It would not be at all surprising if he made his headquarters in Greenwood before many moons.

A meeting of the Liberal-Conservatives for Greenwood and the district will be held in Miller's hall on Saturday evening to complete organization and to discuss plans for the future. Representatives will be present from Phoenix, Eholt, Midway and Deadwood.

An important mining deal was concluded yesterday when George Macaulay, president of the Cariboo mine, Camp McKinney, purchased a one-quarter interest in the Okanagan, an adjoining claim, from J. Moran for \$20,000 cash. The Cariboo company acquired the other three-quarters interest last year. The Okanagan, as stated, adjoins the Cariboo and contains its lead. The workings in the latter extend to the dividing line.

Report Confirmed.

London, Jan. 15.—A special dispatch from Cape Town, dated Friday, January 12th, evening, announces that General Warren has crossed the Tugela river.

BIG FOUR
When everything else went down they all improved. Why? The values and ore are both there in large quantities on the Big Four. The No. 2 vein exposed on the railway cutting, 40 feet wide, assays from which went from \$3.00 to \$4.32 in gold, we are now tunneling underneath and crossing the ledge, and the ore body will soon be reached and shipping begun, when large capital that is waiting development will come in, and small investors get big returns. Another large quartz vein, No. 1, running parallel 400 feet apart, stripped and exposed on railway cut, assays went \$1.20 to \$8.00. We will shortly start again in the tunnel and upraise to shaft.

A MILLION DOLLAR FUND.
Rev. E. D. MacLaren Places the Scheme Before the Presbyterians here.
The Presbyterian church was crowded at both services yesterday when Rev. E. D. MacLaren of Vancouver, addressed the congregation, and explained the position of the church in regard to the 20th century fund. Mr. MacLaren went into the matter in detail, and referred to the feeling which animated the members of the church on the subject.
At the close of this century of immense progress and advancement, he said, it was deemed fitting that some memorial should be raised as a testimony of the gratitude of the people for the divine blessings which they had enjoyed, and it had been decided that a memorial, designed to advance Christian work and knowledge, would be the best form which it could take. The ministers of the church had concluded that they themselves should contribute one-tenth of the sum which it was decided should be raised for this purpose, and which amounted to \$1,000,000, and already of this one-tenth, \$75,000, has been subscribed. Mr. MacLaren pointed out that in all self-supporting congregations there were at least ten communicants richer and more able to contribute to the fund than the minister was, and that, therefore, the proper spirit animated the great body of the Presbyterian church members, it would be a very easy matter to obtain even more than the amount designed. Of the million dollar fund, the present intention was that \$400,000 should be applied to freeing from debt the various churches within the jurisdiction of the general assembly, while \$600,000 would be employed in increasing the efficiency of religious educational institutions, and assisting to place the work of the church on a sounder financial basis. In computing the proportion which the various parts of the Dominion were expected to contribute, he said that \$45,000 had been set down as the amount which was looked for from British Columbia, and of this sum it was confidently anticipated that Rossland would contribute between \$2,200 and \$3,000. He made an eloquent plea for encouragement and assistance from this city, and certain

A STRIKE THREATENED.
G. N. Trainmen Do Not Care to Do Switching.
Minot, N. D., Jan. 15.—A strike of serious proportions is threatened by train operatives of the Great Northern railroad. This applies to the freight men only, but it is thought that unless an amicable settlement of the differences is brought about, a general tie-up will result. Last night an informal meeting of trainmen was held and it was decided to go out Tuesday night unless a modification of the rule lately introduced compelling freight crews to do switching at terminal points was granted.

Servian Ministry Resigns.
Vienna, Jan. 15.—The Neue Freie Presse says the Servian ministry has resigned owing to King Alexander insisting on granting amnesty to all the political prisoners convicted of high treason against his father, the former King Milan.

Mr. S. B. Baldwin of Missoula, Mont., is at the Windsor.
