Pastor Invents Drama.
REV. A. T. KEMPTON, OF CAMBRIDGE, MASS STAGE SETTINGS, IMPRESSIONS, AND ALL CHARACTERS HIMSELF.
(Boston Post, January 31st.)
The dramatized sermon has come. The stage has taken the place of the pulpit at the Broadway Baptist Church, Cambridge. The minister, the Rev. A. T. Kempton, student of practical theology and devotee of dramatic work, now writes his sermons in dramatic form, assisted by his wife, and presents them with all the proper electrical effects, impressing all the characters himself.
With a white sheeted operating table in place of the church pulpit, and surrounded by a complete stage setting representing a physician's office, the Rev. Mr. Kempton will present tomorrow night his second dramatic sermon entitled, 'The Fight for Life' INVENTED DRAMA SERMON.
For some time past the ministers of Cambridge have faced a steady decline in their Sunday night congregations. Several churches have been closed temporarily, others have combined with stronger churches.
Observing the signs of the times the Rev. Mr. Kempton, of the Broadway Baptist Church, Cambridge, started months ago to study the problem. The result is the dramatic sermon, which is believed to be the greatest innovation in preaching since Charles Sheldon drew crowds to his church with a series of story sermons, first presented at the novel, 'The His Steps'.
Last Sunday the dramatist-minister presented his first drama. It was entitled 'How John Hunter Spent His Last Sunday Evening of the Old Year.' The pulpit and rail about the rostrum had been removed. The platform was a stage representing the cosy den in John Hunter's home. The steropticon in the gallery served as a spot or shadow light.
The church was dark. Only the stage was lighted. The choir on an outside stairway sang as Hunter heard the church choir next door to his home. Everything was complete even to the booming of the chimes as the playlet scene reached its dramatic climax at the dying of the old year.
HEARD HIS FIRST ADDRESS.
Last night Mr. Kempton said that when he came out on the platform he was more afraid than he had ever been before. His audience was more than double the usual Sunday night number and he feared that his lesson would not be taken seriously. Before he was through there were people in tears.
Tomorrow night Mr. Kempton will appear as Dr. John Ross in his office. Three patients, a man who is the head of a boys' school, a boy who is rapidly growing blind, and a disolute man who turns out to be the father of the boy, consult the doctor.
On the pupil-stage will be a desk, telephone, fireplace and other furniture. At one side will be the operating table, with a drop light shining on it. X ray photographs, microscopes and blood test slides will lend reality. They are used in showing the father of the little blind boy the hopeless nature of his ailment.
After the operation the doctor lectures to his officialized in a white operating coat. The teacher has been saved. The other man has paid the penalty of a loose life. The light over the operating table fades, and a big Methodist Minister recommends Chamberlain's Cough Remedy.
Rev. James A. Lewis, Milos, Minn., writes: Chamberlain's Cough Remedy has been a needed and welcome guest in our home for a number of years. I highly recommend it to my family as being a medicine worthy of trial in cases of colds, coughs and croup. Give Chamberlain's Cough Remedy a trial and we are confident you will find it very efficacious and continue to use it as an essential requisite for years to come, as many others have done. For sale by all dealers.

\$100,000 for Acadia College.
THE REQUEST WAS MADE BY MISS MARY CRAMP.
The Maritime Baptist last week contained an appreciation of Miss Mary Cramp, by Rev. Joseph Sullivan, D.D. Miss Cramp, died on December 14th, last. She was a daughter of the late Rev. J. M. Cramp, D.D., who in 1851 was appointed President of Acadia College and rendered that great Baptist educational institution, and the denomination, years of valuable service. A brother of Miss Cramp was the late Mr. George B. Cramp, K.C., one of the best known lawyers in Montreal.
Dr. Sullivan says: 'Miss Cramp was a devoted Christian woman; a loyal, because an intelligent and well-informed Baptist; she loved the House of God and the place where prayer was wont to be made. When her health permitted she regularly attended the Sunday service and the mid-week meeting for prayer in Olivet Baptist Church. During her long illness it was my privilege to minister to her. She was most courteous in her acknowledgment of the slightest service rendered to her.
'In the bestowal of a considerable fortune she and her brother, roomed based their servants, made provision for their relatives, for mission work, and for the hospitals in which they were interested, \$100,000 being left to the Samaritan Hospital and \$100,000 to the Montreal General Hospital. McGill University was left something over \$100,000, Acadia College, we are glad to state, received \$100,000. Both also left small legacies to Olivet Church as tokens of interest and esteem.'

Crippling Pains of Rheumatism.
CANNOT BE CURED BY LINIMENTS—MUST BE REACHED THROUGH THE BLOOD.
Thousands of men and women suffer severely from rheumatism. Crippling pains in the muscles and joints make every movement a torture. Many people think rheumatism is due to cold or wet weather and they try to cure themselves by rubbing liniment on the painful parts. This is a great mistake—the rheumatic poison is in the blood, and liniments and rubbing cannot give more than the most temporary relief. If you are a victim of rheumatism or lumbago you can only rid yourself of it by making your blood rich and pure, for only in this way can the poisons of rheumatism be driven from the system. Dr. Williams' Pink Pills have cured more cases of rheumatism than any other disease except anemia, just because they make the rich, red blood that goes right to the root and cause of rheumatism. You cannot be well when your blood is impure, therefore begin curing your rheumatism to day with Dr. Williams' Pink Pills. The following are the particulars of one of the many thousands of cures to the credit of this health giving medicine: Mr. Jerome Nadou, St. Jerome, Que., says: 'A few years ago I was seized with a severe attack of rheumatism. The pains in my back, arms and legs were terrible. I treated with several doctors but they did not help me, and at last time when I was unable to work, and began to think that I would be a cripple for life. While in this trying condition a friend who had been cured of rheumatism by the use of Dr. Williams' Pink Pills advised me to try this remedy and I got a supply of the Pills. I had taken the Pills for several weeks before any improvement was noticed, but once signs of relief came the improvement from that time on was rapid, and I joyfully continued taking the Pills until every vestige of the trouble disappeared. No one but a similar sufferer can imagine the gratitude I feel for this relief from pain, and because I have since enjoyed perfect health I urged other rheumatic sufferers to give this medicine a trial. You can get Dr. Williams' Pink Pills from any medicine dealer or by mail at 50 cents a box or six boxes for \$2.50 in advance from Dr. Williams' Medicine Co., Brockville, Ont.'

The Joys of Travel.
The power of enjoyment of glowing over things for their own sake, is a rare faculty that of writing English. It is a consoling truth that the joys of travel are reserved for middle age. Little does it matter where young people go they are always voyaging in the land of youth; they carry it with them wherever they turn; they make discoveries about themselves there. It is rather a waste of time and money for them to take long journeys to delightful places while such places only serve as a fitting background for romance and ambition. But when men and women begin to grow tired of themselves, then is the time to travel; they really go abroad; they step beyond the barriers of their personal experience and go forth as true adventurers. Then alone are they content to take what they find with them; they become part of it being. Who can compute the pleasure that a cure can give—the line of a roof, high pitched and gabled, the head of a road, the broken light upon a humble jays, but it is when life has humbled us that we come into our true happiness—the happiness of things that exist independently of us, that will go on after we have departed. And it is this sense of permanent enjoyment with all the fascinations of the transitory—of discovery and of luck, of risk and of chance—which makes of travel such a glowing source of pleasure, one that leaves a fortune behind it.—London Times.

Flour trial is essential but— it is not your work!
Flour varies from time to time in baking quality. This is because wheat continually varies according to soil conditions, etc.
Therefore, if baking results are to be constantly high, baking tests are essential. It is unreasonable to expect you to make these tests at your expense.
So from each shipment of wheat delivered at our mills we take a ten pound sample. This is ground into flour. Bread is baked from the flour. If this bread is high in quality and large in quantity, we use the shipment. Otherwise we sell it.
By simply asking for **FLOUR** bearing this name you can always be sure of more bread and better bread.
"More Bread and Better Bread" and "Better Pastry Too"

PURITY
The advent of the steel pen dates back to about 100 years ago, when steel pens of the barbed type—that is with the holder and pen in one piece—were made and sold for 20 cents, says The Bits.
To James Perry belongs the credit of bringing steel pens into general use. He began pen making in Manchester in 1819, and ultimately developed the pen trade in London by the prominent Birmingham makers, Mitchell, Gilliot and Mason caused a revolution in the trade by machine made pens.
The greatest improvement in the manufacture was the adoption of a 'steel pen' for the cutting out of pens. By means of this process one man can cut as many as 42,000 blanks a day.
The shape is given to the blanks, of course, by the dies in the types of pen to be made. As a matter of fact a leading pen maker has a catalogue containing 2,000 varieties of pens, while it has been estimated that no fewer than 10,000 different shapes and sizes are on the market.
The great objection to the steel pen when it first came into use was its stiffness. There was not that 'give' and spring in the metal pen which characterized the old fashioned goose quill pen.
This was remedied, however, by the side splits which we see in pens to day and for many years the method of splitting the pens by means of a press was kept secret by those famous pen makers, Gilliot and Mason.
Briefly, the method of manufacture is as follows: The blanks are pierced and the splits cut after which the pen requires to be softened by annealing. Then they are raised and hardened, scoured with acid, colored, varnished and dried, girls afterward looking over the pens through aside the faulty ones and packing the good ones into boxes ready for sale.
How the trade has grown may be gathered from the fact that in 1839 steel pens were not generally known, but in 1849 the trade was a leading Rand.

Give That Puffy Child This Guaranteed Remedy.
If your child is under-weight listless, sitting, liable to get sick easily, it needs a medicine to build its weight and strength. For this purpose there is nothing else we know of that we can so strongly recommend as Rexall Olive Oil Emulsion. The remarkable success of this splendid medicine is due to the fact that it contains ingredients that tone the nerves, enrich the blood and furnish the entire system the strength, weight and health building substances it needs. And it does all this without injuring the stomach, and it is not unpleasant to take, but even the most sensitive stomach is benefited by it, and the digestion improved. On the other hand, it contains no alcohol or habit forming drugs, which most parents object to giving their children. It does its good work by taking hold of the weakness and builds the body up to its natural strength, at the same time making it strong to resist disease.
Rexall Olive Oil Emulsion does not build your child up, feed the stomach, putty muscles and make the child one lively, strong, well, and full of the animal spirits children are meant by nature to have. Come back and tell us and get your money. We don't want you to lose a cent. We think this is no more than fair, and it leaves you no cause to hesitate. For old people also for convalescents—all who are nervous, tired out, run-down no matter what the cause—we offer Rexall Olive Oil Emulsion with the same guarantee of entire satisfaction or money back. Sold only at steel pens were not generally known, but in 1849 the trade was a leading Rand.

Twinges of Lumbago
Mr. John N. Frank, farmer, Mink Lake, Alta., writes: "For two years I suffered from lumbago. Sharp pains would dart through the back and sides or come on suddenly when bending or twisting the body. I could not do any work for months of each year, was often confined to the bed unable to sit or stand."
"Since using Dr. Chase's Kidney-Liver Pills, I have not had any time and have been very greatly benefited. Though I still have slight attacks this treatment seems to be driving the disease out of the system."
"I have been entirely cured of annoying itching piles of three years' standing by use of Dr. Chase's Ointment."
So long as the kidneys fail to eliminate the poisons from the blood there is bound to be suffering from pains, aches, rheumatism and lumbago. To make the cure thorough and lasting you must use Dr. Chase's Kidney-Liver Pills. One pill a dose, 25 cents a box, 5 for \$1.00, all dealers. Sample box mailed free if you mention this paper. Edmondson, Bates & Co., Limited, Toronto.
