TOPICS FOR THE COUNCIL.

A Warm Time To-night, But Not a Long Meeting.

SUNDAY AT DUNDURN AGAIN.

The City Council will meet to-night and will have a hot time of it, even if only the weather furnishes the heat. In view of the adverse reports of the City Engineer the proposed purchase of the Springer quarry is likely to cause some discussion and indications are that the recommendation will be referred back for further consideration. The question of the lighting of city buildings is also an interesting one that will come up, there being a probability that the Markets, Police and Jail report will also be referred back. Some important recommendations are made by the Harbor Committee in reference to the leasing of beach lots and beach improvements. A change has been made in the Sewers Committee's report since the first printing. In the first report the tender of J. J. Armstrong, for the Kent street sewer, at 72 cents a foot, was recommended, but in the amended one, Joseph Kent's tender at 59 cents, is approved. It is not unlikely that an effort will be made to reopen the Birch avenue sewer right of way matter, but as the sewer is now in process of construction, the brick work being begun, reconsideration is not probable.

Rev. T. Albert Moore called upon Mayor Teetzel this morning to protest, with vigor, against the running, at full swing, of the refreshment booths at Dundurn Park, on Sunday. Not only temperance drinks, it is said, but cigars, candies, etc., were sold last Sunday. The Board will consider the matter at its next meeting.

Major J. S. Hendrie has written to Mayor Teetzel about the condition of upper James street, reminding him of the promise made last year that James street south would be the first jobs done. The street is in a disgraceful condition, and should have been attended to ere this. Mr. Hendrie, judging from the long time the Stuart street job is taking, fears that James street has little chance of being done this year.

Major Teetzel has written to the City Engineer on the subject, and will endeavor to get the work started without delay. The length of time spent on the Stuart street job is largely accounted for by the shortage of tar during May and June.

During June Building Inspector Anderson issued permits representing work to the value of \$56,810, an increase of \$3,011 over June, 1899.

A meeting of the Board of Health, called for 7 o'clock this evening, has been cancelled.

Fire and Water Committee will meet at 7:30 this evening, half an hour before the Council meeting.

The Hamilton Harbor Committee's request for an apron dock on the south side of the pier at Burlington Canal has been referred by the Department of Public Works to the Chief Engineer, for a report.

Thomas Myles & Son have written to the Mayor pointing out that the Rogers Coal Company's tender for grate, egg, stove, nut and Hazleton Lehigh lump coal amounts to \$6,188.03 and the Myles tender to \$6,178.79, or \$9.24 lower than the one the committee has recommended to the Council. For soft coal the Myles tender is the better, \$9,179.41, and the Rogers tender \$9,449.96. Therefore Myles & Son ask that they get both tenders.

James Smith has been appointed foreman of a cement sidewalk gang, and will begin work on the east side of West avenue north, between Wilson and Evans streets, to-morrow. It is said his appointment will be protested to-night by one of the aldermen at the City Council meeting.

Well Worth Remembering.

A firm to be progressive must keep in touch with the requirements of the people. Messrs. Green Bros., the undertakers, have recognized this and have introduced a system to their increasing business by manufacturing their own burial cases, thus doing away with the middleman's profit. Their office is open day and night. Telephone, No. 955.

GAVE LARGE DIAMOND RING,

To be Sold for the Missionary Fund of the Christian Alliance

The convention of the Christian and Missionary Alliance at Grimsby Park was brought to a close yesterday afternoon, and Rev. A. B. Simpson and Rev. L. Lachue left at once for New York.

At the close of the meeting a woman from Bradford, Pa., handed Rev. Mr. Philpott a large diamond ring, which she had been wearing, asking him to sell it and send the proceeds to the treasurer of the alliance in New York. The ring is worth about \$125. Her husband was present when the ring was handed over.

The convention was very successful, and over \$5,000 was raised.

DOMINION DAY ECHOES.

Thos. McKelvie Fined \$10 for Kicking in Kaiser's Door.

A TORONTO MAN INJURED.

The longing for a "nightcap" was the cause of T. McKelvie, of Dominion Day in the cells. He applied for a drink about 10 o'clock at Frank Kaiser's liquor store, Caroline street, but as Mr. Kaiser had closed for the day he was refused. Then he became real mad and kicked in the door, and threw some stones at it. Several dollars damage was done. P. C. Zeate responded to a call for police and arrested McKelvie. He was brought before Magistrate Jelfs this morning and charged with wilful damage. He was found guilty of the charge and fined \$10 and costs. He was defended by Mr. Jas. Farmer, and he said some hard things about the members of the police force.

Patrick Quinn, John street north, was committed to trial on a charge of committing an aggravated assault on Nicholson of Toronto. Detective Bleakly, who arrested him, was the chief witness. He said he saw Quinn kick Nicholson several times and render him unconscious. The assault was committed at the corner of James and Barton streets at 10 o'clock yesterday. Quinn says he was struck first. He was admitted to bail, Mr. S. F. Washington appeared for him.

Geo. Gassett, of Cainsville, was fined \$5 or 30 days in jail for assaulting an unknown man on Bay street and fined \$10 and costs.

John Jackson, James street, and T. Sullivan, Barton street, were fined \$2 each for firing shots from a rifle on the street in May. Sullivan was summoned at the time, but he disappeared and some of his neighbors were in hopes he would stay away.

Approve of the Purchase.

To the Editor of the Times:

Sir,—I was very much interested in your account of the special meeting of the Board of Works held on Friday evening last to consider the purchase of the Springer quarry property in the city. To my mind, Mr. Carscallen made an exceedingly strong plea for the purchase of the quarry and one that should be considered seriously by our aldermen. As rector of a church in the east end of the city, and one, therefore, who knows something of the necessities of the working classes, that portion of his argument which appealed to me most readily was that "the annual saving in the charitable funds of the city alone, through providing work for the unemployed, would pay for the quarry in five or six years." I am glad to see that Mayor Teetzel and a majority of the members of the Board of Works hold similar views. Our people, even the poorest, are for the most part of a sturdy, independent, self-respecting stock. It is to the interest of the city to foster these characteristics by every means in its power. The purchase and working of this quarry by the city will be one means to this end. It is not my intention to add to the arguments made use of by Mr. Carscallen and the other favorable to the purchase. I write simply with the intention of saying what has been already said on the subject and with the hope that the City Council will at its next meeting purchase the Springer property for the city. Yours truly,

Charles J. James,
St. Thomas Rectory, Hamilton, July 2, 1900.

Re Springer Quarry

To the Editor of the Times:

Sir,—I see the question is brought up again in reference to the city buying the Springer quarry. I think, from the nominal price that Mrs. Springer is offering the quarry for, it should be bought. I have been a property holder for half a century in the city of Hamilton, and have been in and over the Springer quarry. I might say, times without number, and I most earnestly advocate the purchase of the property on the terms offered by Mrs. Springer. It would not only be a good asset for the city, but would also be the means of giving employment to many poor persons that have to be kept wholly or partly by the city charities.

An East End Property Holder,

LATE SPORTING NOTES.

Hamilton Shots at Brantford.

A number of Hamilton shots took in the tournament at Dunnville yesterday, but did not do as well as gunners from this city usually do. In the team event Hamilton was represented by Birdsall, Biggar and Wilson and scored 44, being third in the race. Brantford team won and the Brantford men Summerhages and Montgomery were first, and scored in individual scores.

The Scotchmen Won.

A keenly-contested game was played on the Thistle green to settle the merits of Scotch vs. Canadian bowling. A Glasgow rink, skipped by Capt. John Horn, visited the city of its bowling tour, and a match was arranged with the veteran skip, John Harvey. When the two rinks appeared on the green, however, Mr. Harvey was compelled, on account of a sudden attack of rheumatism in his left knee, to offer a substitute to skip his rink. This he found in Mr. Geo. Gates, who ranks high in the art of bowling. No objection was made by Capt. Horn, although several "hats" were on the game. The green was heavier than the Scotch bowlers were accustomed to, and the first five ends were won by the Hamilton rink. When the Glasgow men got "onto" the green, however, they played a great game, and gradually pulled up on their opponents, and eventually passed them, winning the game by 3 shots. Mr. Harvey and a great many Hamilton bowlers were on the green, cheering on the Thistle men, but the Glasgow bowlers were the wonder of the crowd.

Winnipeg Crew Won

Winnipeg, Man., July 3.—At Nelson, B. C., yesterday, the Winnipeg crew, stroked by C. Riley, won the four oar race against the B. C. crews by between four and five lengths. The time was only eight seconds behind the amateur record of America.
