### Lift off Corns!

Doesn't hurt a bit and Frezons  
costs only a few cents.

With your finger! You can lift off  
any hard corn, soft corn, or corn between  
the toes, and the hard skin calluses from  
bottom of foot.

A tiny bottle of "Frezons" costs little  
at any drug store; apply a few drops  
upon the corn or callus. Instantly it  
begins hurting, then shortly you lift that  
bothersome corn or callus right off, root  
and all, without one bit of pain or sore-  
ness. Truly! No humbug!

### Power Project Moving Along

The engineers of the New Brun-  
swick commission have been active  
in the preliminary plans  
for the works, many of which have  
been looked over and approved by  
Henry Holgate, the consulting en-  
gineer. Mr. Holgate has set his seal  
of approval on the general scheme  
of development by which not only  
the cities and towns of the province  
will receive the benefit of cheaper  
light and power, but the municipal-  
ities will also share in the conven-  
ience.

It is planned to supply current  
from Musquash and Logansport to all  
points from the source of supply  
through St. John and Moncton,  
where the system will be linked up  
with that from the North Shore.  
The power from the Shogomoc will  
be used to supply the St. John river  
valley, connecting at St. John with  
the Southern line. It is understood  
that the commission will be in po-  
sition to ask for tenders for the first  
work in the near future.

### Canada's Customs \$23,000,000 Higher

Ottawa, Aug. 31.—Customs re-  
ceipts for the five months of the  
fiscal year ending today show an in-  
crease of \$23,108,359 over those for  
the same period in 1919. From the  
first of April to the end of August  
this year, total customs receipts  
were \$90,544,330 while during the  
same period in 1919 they were \$67,  
435,971. For the month of August  
alone the increase as compared with  
August last year was \$2,703,549, the

## SAVED FROM LIFELONG MISERY

And a Dangerous Operation by  
Taking "FRUIT-A-LIVES"

8929 Union St., Vancouver, B.C.  
"I suffered with all the symptoms  
of Female Trouble, with chronic Con-  
stitution and constant Headaches.  
First pains ran down the back and  
sides of the body. I tried various  
remedies without relief, and then put  
myself under a doctor's care and he  
advised me to have an operation. I  
refused.

Then, I started taking 'Fruit-a-  
lives'; and from the outset, I felt  
better, and this medicine has completely  
relieved me of all my misery and  
suffering. My weight was only 145  
pounds and now it is 168 pounds. I  
am free of pain and headaches and the  
terrible Constipation; and what saved  
me from misery is the splendid fruit  
medicine, 'Fruit-a-lives'."

### Roads Must Take Canadian Funds

The interstate commerce commis-  
sion suspended pending investigation,  
rules of certain southwestern  
railroads requiring payment of  
freight charges in United States cur-  
rency on through shipments to Can-  
ada.

Some doubt was expressed as to  
the right of carriers to impose such  
a rule on traffic moving in Canadian  
territory and the commission post-  
poned the effective date of the re-  
gulations until December 29.

Applications of the requirement to  
traffic between points in the United  
States was not affected by the sus-  
pension.

### Small Attendance At Normal School

The number of students who have  
applied for admission to the Provin-  
cial Normal School for the coming  
year, shows a big decrease com-  
pared with attendance in former  
years. This year only 178 students  
have applied for instruction at that  
institution, this number being be-  
tween 40 and 50 less than last year's  
classes. Compared with the classes  
of a few years ago, when upwards of  
three hundred students attended the  
Normal School, the attendance has  
fallen off about 40 per cent.

Forty-five applications for 1st class  
1921 applications for 2nd class and 31  
for 3rd class have been received up  
to date.

With a shortage, at present, in the  
number of teachers in this Province  
the falling off in the attendance at  
the Normal School is regarded as in-  
dicating even more serious condi-  
tions for the future.

### Electrical Storm Does Heavy Damage

Moncton, N. B., Aug. 31.—A woman  
killed by lightning in her home, and  
some six or seven barns burned as  
the result of the severe electrical  
storm which passed over this section  
this morning, marked the worst  
thunder storm experienced in Mon-  
cton and the surrounding country for  
some years. Mrs. Alphonse W. Bour-  
que was struck by an electric bolt  
while sitting in her home, and died  
about half an hour later. Mrs.  
Bourque was sitting near an open  
stove-pipe hole in the chimney when  
hit. Her sister was in the same  
room and was slightly stunned. The  
shoes were stripped from the feet  
of the stricken woman and her shoul-  
ders badly burned by the deadly fluid.

Seven Barns Burned

Barns belonging to George Hopper  
at Little River, Emerson Steadman  
and John Hour, Salisbury Road;  
Charles Mason, Springhill, Kings  
county, and two barns at Meadow  
Brook were hit by lightning during  
the storm and burned, together with  
the contents. The lightning did not  
hit in Moncton city, the storm being  
less severe here than in the sur-  
rounding districts.

Mrs. Bourque, the victim of the  
tragic death, was thirty-five years  
old and leaves a husband and seven  
young children.

Big Storm at Sydney

Sydney, N. S., Aug. 31.—The trans-  
forming station of the Dominion  
Steel Corporation was struck by  
lightning tonight and the subsequent  
blaze destroyed the station entirely.  
As a result the plant was without  
light and will be held up for a few  
days.

Aspirin is the trade mark (registered  
in Canada) of Bayer Manufacture of  
Monocrotonicacidester of Salicylicacid.

means Bayer manufacture, to assist the  
public against imitations, the Tablets of  
Bayer Company, Ltd., will be stamped  
with their general trade mark, the  
"Bayer Cross."
