The editor of the Herald is absent this week.

Mr. R. L. Borden visits Nova Scotia this week. On June 18th he sails for Europe where he will remain a couple of months.

Senator Sullivan of Kingston is confined to his home here, and is in very poor health. He was not able to attend to his seasonal duties this year.

The work of placing the fire escapes on West Kent Street School has been concluded. Painters yesterday were putting on the finishing touches.

The Secretary of Finance of Cuba, Senor Villegas, said the other day that the forthcoming budget would reach a total of fully \$20,000,000, leaving a deficit over the regular revenues of \$2,000,000, which is expected, would be covered by the receipts from the national lottery.

Hon. James Duffy, is pessimistic over Ontario crop conditions. Unless we have a good spell of day warm weather agricultural conditions this year will be very serious, he said tonight. This is the most backward spring in forty years and only a spell of steady warm and dry weather can save the situation.

A fifty dollar fine was paid on Wednesday at North Sydney by the commander of the French, fishing schooner Dictator, which was seized last week by the government cruiser, Gladiator, for an infringement of the customs law. The maximum penalty is \$400, but the vessel was dealt with leniently.

The new board of management of the Intercolonial Railway will hold its meetings and have permanent offices in Montreal. It will have the powers of the executive of a railway company. It will be given a free hand so far as it can, consistent with ministerial responsibility to parliament. It will control rates, subject to approval by order in council.

Advices from Montreal of May 22nd say: Word reached this city of the drowning of four lumbermen in the Rouge river, north of Calumet. Three of the victims were brothers named Grenier, while the name of the fourth has not been ascertained. All four were experienced loggers but on the capsizing of the boat in which they were crossing, they were carried under by the current, swollen by spring rains, before assistance could reach them. All were employees of the Riordan Paper Mills.

Advices of the 18th from Lettbridge, Alberta, said: The present snow storm promises to be the most serious yet in recent. The stock will suffer severely. The calving and lambing season is on, and the weather means the loss of a large percentage of the calves and lambs as well as the weaker ones of the older cattle and sheep. Prominent cattlemen say any calves born during the storm would probably die. W. A. Hamilton, of the Alberta sheep company, says sheep men with stables and straw are losing one-third of their lambs.

One of the most daring hold-ups in the history of Truro N. S., took place shortly after one o'clock Wednesday afternoon, when two strange men walked into the office of the Canadian Express Company, near the I. R. C. station and while one covered Clerk Burgess with a revolver, the other went through the safe taking cash amounting to \$1,500 and everything of value in sight. The police have scoured the town and country since, with the result that three persons were taken into custody, but all were released on being taken before Burgess the subject of the hold-up who declared they were not the men.

Mrs. J. B. Blatch, of Highland Avenue City has received news that her husband who was water tender on the steamer Ransom B. Fuller, is missing in Boston. The last heard of him was that he had gone on board his vessel at 12 o'clock one night and the United States and still more among foreigners there is grave doubt. If the explosion was caused by some internal accident and not by a Spanish torpedo the war cry "Remember the Maine" was a false appeal. Highminded Americans think that the nation can afford to have the truth known, even though it should prove that a great injustice was done in accusing Spain of blowing up an American ship when the two countries were at peace. We may be sure that if Great Britain were in the position of the United States there would be no delay in gathering all the evidence which would put the nation in the wrong. The English people seem to enjoy such conclusions.—St. John Standard.

Writing in the Canadian Courier, Mr. A. B. Wilcott makes the suggestion that the three maritime provinces Nova Scotia, New Brunswick and Prince Edward Island together with that part of the province of Quebec lying north of those three provinces and a portion of the unorganized territory of Ungava, should be formed into one province, to be known as Acadia. In return for the parting off Quebec he would give that province the remainder of Ungava, and to Ontario and Manitoba he would make the additional proposal by the resolution passed last July in the Dominion House for the division of the unorganized territory of Keewatin. There would thus be left some 141,000 square miles of Labrador, between the new province of Acadia and the Atlantic.

The battleship Maine is still at the bottom of the sea. It is possible to raise her and find out what caused the fatal explosion. Her last commander opposes further attempts declaring that there is no doubt how she was destroyed. But among other officers in the United States, and still more among foreigners there is grave doubt. If the explosion was caused by some internal accident and not by a Spanish torpedo the war cry "Remember the Maine" was a false appeal. Highminded Americans think that the nation can afford to have the truth known, even though it should prove that a great injustice was done in accusing Spain of blowing up an American ship when the two countries were at peace. We may be sure that if Great Britain were in the position of the United States there would be no delay in gathering all the evidence which would put the nation in the wrong. The English people seem to enjoy such conclusions.—St. John Standard.

Shrubb won the twenty mile race from St. Yves at Montreal, Tuesday, beating his opponent about a lap and a half.

Extensive docks and warehouses were destroyed at Lille, France, Wednesday night last. One man was killed. The loss is estimated at close to \$1,500,000.

One hundred and fifty masons and helpers went out on strike the other day, in an effort to obtain an increase of 50 cents to their daily wages. The masters have refused to consider the demand.

Fifty thousand mackerel were landed at Newport, R. I., the 18th, by schooners which secured their catch from waters adjacent to Fire Island, New York. The schooner Georgia, of Harwich, Mass., contributed one-half.

Hartley Crawford, of St. John, baggage-master on the South Shore train, was accidentally killed at Cassell's Sliding on Friday last. When on the down trip the baggage-master was missed and on the return trip his body was found at the sliding.

Sheffield advices of May 22nd say: A political meeting addressed by Premier Asquith was stormed last night by a crowd of suffragettes. The women failed to effect an entrance to the Hall and several were injured in encounters with the police. Mr. Asquith was obliged to make his exit secretly through a side door before the proceedings ended.

One of the funniest things seen about Queen Street for a long time was a frisky young pig that got away from its owner Friday afternoon. Dogs, boys, and men joined in the chase, but pig was as greasy as usual, and it was not until an expert made a dash for his boots that he was safely retired again to a well deserved captivity.

Quebec advices of the 21st inst say: A report from St. Ann des Monts says that while crossing the river on Sunday their boat upset and fifteen persons were thrown into the water. Of these five were drowned, viz., Archer Desro, Philippe Stard, Mrs. Lavassant, Mrs. Gervais and little daughter of Villan-court. The bodies of the men have been recovered.

Advices from Boston of the 21st say: A decision by the Supreme Court has over-ruled the exceptions taken in the case of the five Chinamen convicted of murder last July following the Tong war in Chinatown. The crimes for which the men were tried were the bloody Tong fight in the Chinese quarters when four Chinamen were killed and a dozen more injured. The decision means the electric chair for five Chinamen.

St. John advices of the 21st inst say: The plight of the steamer Mongolian is believed to be most precarious than ever owing to the heavy swell. The efforts of the steamer Diana to open up lane between the Mongolians and the harbor will however, likely be unavailing. The steamer Prosper managed, unaided to extricate herself. Five passengers successfully crossed the ice between the steamer and the harbor. This assured the passengers that a ready avenue of escape lay open.

Advices from Gardiff of May 21st say: A most extraordinary mystery of the sea is puzzling the police at Penzance. A little boy while walking on the shore of Mousehole, about two and a half miles from Penzance, saw a body apparently that of a woman floating in the water and gradually coming ashore with the tide. A remarkable discovery followed a closer examination of the body. It was that of a man disguised in woman's clothing. The wrists were secured with heavy handcuffs and the lower limbs were fastened with manacles. Who the man is and how he came to be so disguised and so fretted is a mystery upon which it is impossible to throw the slightest light.
