A Standard For Millions Now Living Will Never Die.

After six thousand years of effort man points proudly to our present day civilization as the acme of his attainments.

A civilization stooping to brutalities too inhuman for savages, makes the standards of Christianity but empty and hollow professions.

From this hypocrisy there is a tearing away. A spirit of lawlessness flouts laws and customs with an abandon that does not stop to consider consequences so persistent are the attempts for release. But what new standards—social, political and religious—are to succeed the present? In the fulfilment of Prophecy so marked at the present time there is outlined a programme that was foretold in the Bible, a standard that promises adoption because present troubles were foretold as shaping the standard for the people.
