The Governor General Coming to Guelph.

We have received a telegraph from the Provincial Secretary, stating that the deputation have succeeded in inducing the Governor-General to visit Guelph on Thursday.—Lieut-Governor Howland will also accompany him.

That "Very Suspicious Affair."

That "Very Suspicious Affair."

The Mail and Leader have been greatly exercised over what they are pleased to call a "very suspicious affair." It is this. A company was lately formed in Toronto, called the "Canada Car Company" the works to be located in that city. The Tory organs stated, on Thursday, that this Company had succeeded in entering into a contract with the Ontario Government for the use, for seven years and a half more, of the labour of the Central Prison, now in course of construction, in the western part of that city. It is further announced that the new company are to have workshops in the Central Prison, and that from the building it will have rails laid down to connect with the principal railways entering Toronto. Out of this rumour the organs sent a fat job for some of the leading Reformers. They charge that the Company is none other than George Brown, Blaikie and Alexander, a few other Reformers, and a handful of Conservatives thrown in to ward off suspicion. They announce the whole affair as a job, and that Geo Brown has brought a pressure to bear on the Government, and compelled them to enter into an agreement for the use of the prison labour as above stated, which they maintain will be a source of great profit to the Company.

Now for the facts, as we find them in the Globe of Friday. The President and Vice-President of this commany to the pressure of the city. Hall, at which a large number of the city hall, at which a large number of the city. Ball, at which a large number of the city and the company are above stated, which they maintain will be a source of great profit to the Company.

Now for the facts, as we find them in the Globe of Friday. The President and Vice-President of this command the command and vice-President of this command the company aread to the collection to very fine bunches of hot-house grapes, b

will be a source of great profit to the Company.

Now for the facts, as we find them in the Globe of Friday. The President and Vice-President of this company are Tories, three out of the four Directors are Tories, and the Secretary, Solicitor, Consulting Counsel and Broker belong to the same school of politics. Only three of the Officers are Reformers. As regards Mr. Brown's connection with the Company, the Globe states that he does not even own a share m it; that he never heard of the prison contract until it was-completed, and believing that however advantageous that contract might be to the Government, it would not be advantageous to the Company, he declined to take shares, especially on that ground.

Such is the unravelment of this awfully suspicious affair. Like the Proton and other so-called outrages, it has turned out to be a myth, and the Tory organs are getting laughed at for being frightened at such silly canards.

Cartier's Election.

Cartier's Election.

The Manitoba Liberal, speaking of Sir Geo. Cartier's election for Provencher, says:—"Sir Geo. E. Cartier has been elected by acclamation for Provencher. Riel and Clarke have both given way to the former, on condition that he receives free and unconditional pardon—and the latter that he receives a judgeship, no doubt. It is said that the nommation of B. C. Davy would not be received by the Returning Officer, least Sir Geo. would be driven to the necessity of a poll. This was rather an extraordinary proceeding, and will no doubt give rise to a protest being entered. It has come to a pretty pass when the gallant knights and baronets are driven from their homes and friends, to seek refuge in holes and corners away in the desolate regions of the North West, with French Half-breeds and Chinese as their constituents. It will be fun to be in the House at Ottawa when Sir George and Sir Frank are introduced."

PARTYISM RUN MAD.—The Huron Signal contains the following: None but very silly people allow a difference of political opinion to interfere with the friendship and good feeling which should exsist between neighbours. To such an extent, however, has Tory malevolence at the loss of the South Riding election been carried, that in a certam locality in Goderich Township they refuse to help their "Girt" neighbors when they have the threshing machine at work. It is extremely foolish to allow political differences to alienate personal friendship.

we believe, elected. Owing to the influence of Bishop Tache and Riel, he succeeded in polling the French vote to a man. We are sorry for the people of Marquette, as we would rather see a Frenchman elect ed than Cunningham.

SOUTH GRENVILLE.—We learn that Mr. James Cairns is to be the Tory Candidate for South Grenville. Mr. Ellis, who formerly ran against Mr. Fraser, was nominated, but he declined the honour. He had run once in their interest and knew so well what it was like that he did not wish to repeat the experiment. South Grenville is safe for the Reform cause.

some day during the Exhibition.

Six George Cartier left Montreal on Friday evening for Quebec by express. A few of his friends were present to witness his departure for Vichy, France, where he proceeds, by medical advice, with the hope of establishing his health.

The Winnipeg Liberal says that the survey of Manitoba is progressing apudly. There have been upwards of eighty townships surveyed this eason; and, including last year's urvey, there must be at least nearly 00 townships subdivided into lots of 60 acres each, and ready for actual settlement.

the City Hall, at which a large number of the citizens were presented.

After spending over an hour at the Hall, Lord and Lady Dufferin returned to their temporary abode and partook of a lunch before leaving for the station, which was reached shortly after helf-past one o'clock. After bidding farewell to those whose hospitality they had enjoyed, and to a number of leading citizens who accompanied them to the station, Lord Dufferin and Countess Dufferin went on board the special train which was placed at their disposal by the Managing Director of the Grat Western Railway. At twenty minutes to two o'clock the train moved out from the station amid loud cheering for Lord and Lady Dufferin.

Another Murder in Chicago.

CHICAGO, Sept. 27.—The body of a man named McMahon was found last night frightfully bruised. Murder is suspected. An attempt to institute lynch law is feared by the authorities, and a large posse of police is stationed in the gaol to prevent lawless attempts to swing the murderers confined there.
