HEATED DEBATE

The Appointment of Mr. Jackson Discussed and a Snap Vote Taken.

Ottawa, July 28.—The Opposition suc. eeded, by springing an amendment un-***** expectedly today, in getting a snap vote in which the Government majority was The division occurred in a slim House upon an academic amendment offered by Mr. R. L. Borden to the motion to go into supply, which the Gov-ernment supporters either had to accept or reject without an opportunity to offer an amendment to the amend-ment. The debate was introduced by Mr. W. A. Bennett, who denounced the appointment as commercial agent in England of Mr. J. B. Jackson, former ly of Ingersoll, who was a prominent figure in the South Oxford provincial election trial. Mr. Bennett quoted from the evidence and comments of judges to show that Mr. Jackson should not have received an appointment as a representative of the Dominion in the mother country. Sir Richard Cart-wright assumed the sole responsibility and blame, if there was any blame, for the appointment, and exonerated his

colleagues in the cabinet. While not defending Mr. Jackson's indiscretions, he contended that he had not done anything to render himself liable to the law, and that there was no difference morally between Mr. Jackson paying for evidence and respectable and ionorable gentlemen in the Conservative party advertising that they would pay rewards for evidence which would unseat Liberal candidates who carried their ridings, Mr. R. L. Borden con-demned Sir Richard for his inability to find any more forcible language than conduct in seeking to procure evidence true or false. There never was a more damnable doctrine more unblushingly ayowed, said Mr. Borden, than that oreached by Sir Richard in this conction. One Government supporter, Mr. Erb, South Perth, voted in the minority. In supply items aggregating \$2.250,000 were voted for the public works department.
