ADVERTISER'S TRAVEL CLUB GIVEN ENTHUSIASTIC SENDOFF TO QUEBEC AND EUROPE

Tremendous Throng Gathered at The Advertiser Office and Railway Stations to Say Good-bye to the Winners of the Great Contest-Event Will Long Be Remembered by Relatives and Friends.

The start of the European and Quebec travel clubs, the winners in The Advertiser's great contest, is now a matter of

Yesterday, in the midst of scenes of great enthusiasm, the two parties were sent on their way, with band playing and flags flying, and hundreds upon hundreds of friends and wellwishers shouting and waving their cheery word of farewell.

Not a single untoward incident marred the starting of either. The plans and arrangements had been so well made that everything ran as smoothly as well-oiled machinery, without a hitch anywhere.

Despite the fact that the Quebec trip club started at a fairly early hour of the morning of the holiday, seldom has there been such a number of people congregated at the Grand Trunk station as gathered to cheer the party off.

The party, which is under the direction of Mr. R. D. M. and Mrs. Decker, is as follows: Miss Margaret Kennedy, Ilderton; Miss May Mountjoy, London; Miss Ella Dickie, DOMINION DAY London; Miss Mary Gibson, Brucefield; Mrs. Ida Willis, London; Miss Eva Taylor, Port Stanley; Miss Eva McDowell, London; Miss Edith Glanville, London; Miss Margaret Simmie, Byron; Miss Aggie Sinclair, Brigden.

Even Greater Enthusiasm.

If such a thing were possible it would seem that the European trip party had an even more enthusiastic send-off. Certainly there was nothing lacking in the scenes of excitement which were enacted at the C. P. R. station shortly after 12 o'clock yesterday. And the ladies of the party must have felt a thrill of pleasure as they stood on the rear platform of the train as it pulled out on its way and saw the platform and tracks black with people, waving hats and hand-kerchiefs in honor of the friends who

were leaving on the great trip. 1,000,000 GALLONS FROM 4 WELLS

Horton Street Artesian Scheme Proves Wonderful Success Is the Test.

PEOPLE ARE NOW USING THE WATER

Full Supply of Wells Will Likely Give People Much More Water Than Was Promised.

One million gallons of pure spring water, pumped from the Beck artesian wells on Horton street, are being forced into the city mains today, and this water, mingled with that from Springbank, is going into every house

in the city and onto every table. This is the answer to the cries set affoat that the water is not good, that it is sulphurous, and all the rest. The people are drinking the water, are using it for cooking, and they do not know the difference. This article will carry the news to thousands of Londoners that they are drinking water from the new springs supply.

1,000,000 From Four Wells. But this is not all. The city has been promised that 2,000,000 gallons may be obtained from the fifteen wells. That this statement, on the part of the gentleman who promoted the scheme for the citizens, is a modest one is preven by the fact that only four wells are being pumped today, and yet 1,000,000 gallons of water are being forced into the mains.

Accepting as a fact that the water from all the wells may be used, it will be seen that at today's average, the available supply is nearer 3,000,000 than 2,000,000 from the fifteen wells. This morning the temporary pumping plant rounded into shape about 11 o'clock, and after that time the full million gallons of water were being pumped into the main against a pressure of about 95 pounds at Thames

Pressure Jumps.

Fire Chief Pleased.

Engineer Explains.

Engineer Moore, of the waterworks department, was seen by a reporter, but he stated that there was a mistake somewhere.

"The reservoir may have dropped three feet, but not in 24 hours," he replied. "About the greatest drop was six inches in one day. Of course, the reservoir might show a big drop, if the demand was great, and we were not pumping the average quantity of

THE JAIL RETURNS FOR LAST QUARTER

The jail returns for the quarter ending June 30 show a total of 188 prisoners committed during the quarter. These prisoners aggregated a detention of 2,846 days. The daily cost of rations for the prisoners, without medical attendance, amounted to 6.44 cents, and with medical attendance 6.64 cents per individual.

Provincial Bailiff Ryan arrived at the jail this morning to take three prisoners to the Central Prison to serve their sentences for theft. Two, of them go for six months and one for
