

**BALFOUR TO HEAD
ARMS DELEGATION**

LONDON, Oct. 12.—Arthur J. Balfour probably will head the British delegation to the Washington conference on limitations of armaments and Far Eastern affairs. It was understood in authoritative quarters tonight.

His tentative acceptance was said to have been the result of pressure brought to bear upon him to alter his previously expressed decision not to attend.

It has been definitely decided that Lord Lee of Fareham will sail for America Oct. 26 on the steamship Olympic.

**The Kidneys**

The office man and the outdoor worker suffer alike from derangements of the kidneys.

Backaches and headaches are among the symptoms. In some cases Bright's disease soon develops, others suffer from high blood pressure until hardening of the arteries sets in.

In order to forestall painful and fatal diseases prompt action should be taken at the first sign of trouble.

Mr. A. D. MacKinnon, Kirkwood, Inverness county, N.S., writes:

"I can highly recommend Dr. Chase's Kidney-Liver Pills to all suffering from weak kidneys. I suffered from kidney disease for a long time. I may also say that for three years I was nearly always troubled with headaches, and no treatment seemed to do more than afford temporary relief. I was finally told of Dr. Chase's Kidney-Liver Pills, and after using a few boxes was completely relieved. I have also used Dr. Chase's Ointment with the best results, and never fail to recommend these wonderful remedies."

Dr. Chase's Kidney-Liver Pills, one pill a dose, 25c a box, all dealers, or Edmondson, Bates & Co., Limited, Toronto.

**POLICEMAN CHANGES
HIS MURDER PLEA**

Rademacher Now Denies
Throwing Wife in River.

[Special to The Advertiser.]

DETROIT, Oct. 12.—Unshaven, collarless and shirking in appearance in spite of his six feet of body, Herman F. Rademacher, police officer, who this morning stood before Judge Thomas M. Cotter and in a low-pitched voice pleaded guilty to the charge of slaying his wife, Gertrude, last Thursday night by throwing her over the rail of the Belle Isle bridge into the river, late tonight changed his plea to one of not guilty, when arraigned before Judge William M. Heston in recorder's court and announced that he would employ counsel to acquit him of the charge on which he is held.

Just before he appeared in court he told Detective Frederick Frahm and Edward Mitte, they say, that the slaying was the climax of a plan that had been in his mind for six months, and that time after time during that period he had taken his wife to Belle Isle with the intention of killing her, but each time had lost his nerve.

"She was always talking about suicide," he was quoted as saying. "We were fighting quite a good deal. I made up my mind to kill her last spring, and I took her over to the island several times with the intention of doing it, but always lost my nerve."

What his motive was still remains shrouded. He refused to tell the detectives why he desired to kill his wife, and members of the homicide squad admitted they knew no more now, in spite of his confession, as to the motives that they did the day he was arrested.

When Judge Cotter asked him if he had anything to say, he shook his head. "Nothing, except Dr. Chase said he had arranged to see this afternoon and arrange about my property," he declared.

The crowd that filled the rear of the courtroom remained standing as Rademacher was arraigned. He did not turn his head to look at his fellow-officers and court attaches, but kept his eyes fixed on the judge. With his unshaven face and collarless shirt, he looked much like the other men in the line of prisoners that preceded him, and far from the dapper, erect police officer who had stood so many times on the other side of the rail.

Rademacher today told Detective Mitte and Frahm that although he had been seeing Mrs. Elizabeth Well, 2230 Joseph Campus avenue, three afternoons and three evenings a week for many months, that his regard for her was purely of a platonic nature.

"She is a very fine woman, and I enjoyed the home life in her cottage," he said. "I used to wait for her three afternoons a week and escort her home, and when she worked nights I did the same thing."

**BORDEN TO ATTEND
DISARMAMENT PARLEY**

OTTAWA, Oct. 12.—Sir Robert Borden will represent Canada at the disarmament conference in Washington, provided a place is accorded this country on the British delegation, it was stated here this morning.

**Alexander Agrees To Leave
Paris Pleasures For Throne**

PARIS, Oct. 12.—The call of duty as monarch of a poverty-stricken people has overcome the siren song of Paris pleasure, and Prince Alexander of Serbia is going home to be king of Jugo-Slavia. The Jugo-Slav legation in an official communique issued today, denies the report that its prince has decided to abdicate in favor of his brother, George, and remain in Paris.

Repeated reported accidents, attacks of appendicitis, nervous breakdowns and sudden relapses have been constant excuses for the presence of Alexander in the French capital since the death of old King Peter made him monarch-elect. And Alexander, according to reports, is said to be "madly in love" with a Paris beauty.

Prince Alexander had almost decided to remain in Paris, to ask his country to deposit money to his credit in Paris banks, and to renounce his claims to the throne. Prime Minister Pachitch pleaded with the pleasure loving prince apparently in vain. Alexander's last experience at Belgrade was on the receiving end of a brief shower of bombs and he professed little liking for a repetition of the experience. But apparently moral suasion has induced Alexander to change his mind.

**HINT SOLUTION OF
MAIL THEFT CASE**

Detroit Police Arrest Two, But
Withhold Clues.

DETROIT, Oct. 12.—Shrouding behind a cloak of secrecy their efforts to solve the Windsor mail wagon robbery of last Friday night, when considerable mail was taken, postoffice officials and police tonight intimated that a solution is in the offing.

They refused, however, to deny or to affirm a report that two men arrested by Detectives Marlette and O'Rourke, were in any way connected with the robbery.

The men, Paul Liard, 30, and Joseph Colombo, 27, were registered on the police blotter on charges of violating the United States code and robbery armed, respectively.

Late this afternoon, William MacAulay, driver of the Royal Canadian mail wagon, which the robbers held up at the point of pistols, visited police headquarters and viewed the men. Whether he identified them is not known, because of the reticence of authorities working on the case.

The finding of an old-fashioned trunk, such as those used by foreigners filled with mangled pieces of stolen mail, early Sunday, caused members of the Black Hand squad working on the case to announce their belief that the robbers were Italians.

Following this announcement, the authorities began an exhaustive search through "Little Italy" and other Italian districts for the robbers. Several suspects have been questioned, but the arrests of today are regarded as the most important.

**LADY BECK IS
NOW IMPROVING**

TORONTO, Oct. 12.—Lady Beck, who was operated on at the General Hospital yesterday afternoon for an abdominal ailment, was reported in a bulletin today to be in a "fairly satisfactory" condition.

That her condition for the present is serious, was intimated earlier in the day, but Sir Adam stated that her doctors were satisfied with the improvement shown since last night.

**BANK ROBBERS SCARED
THROW RIFLES AWAY**

Five Manitoba Bandits With
\$60,000 Yield To Officers.

WINNIPEG, Oct. 12.—The Bank of Hochelaga at Elie, 30 miles west of here, was robbed of between \$40,000 and \$60,000 this afternoon by five heavily-armed bandits, who escaped towards Winnipeg in a motor car, but subsequently were captured and brought to Winnipeg this evening, after they "got scared and threw their rifles away," according to the police officers who effected their arrest. No shots were fired, it was stated.

The men gave the names of Henry Quackenbush, James Redding, Sydney Roberts, George J. Adams and Clarence W. Adams. The robbers held up the manager of the branch and his two clerks, both girls, and chloroformed them to permit of an easy escape. All three will recover.

The safe was rifled, and the bandits succeeded in getting out of town before the alarm was given. The provincial police were notified in a few minutes, and officers were sent out in all directions. Two miles and a half from Elie the bandits' car broke down, and by that time the villagers were in pursuit. The bandits took to their heels through the countryside, carrying two big satchels filled with banknotes.

**PROMINENT U. S.
POLITICIAN DIES**

WASHINGTON, Oct. 12.—Senator Knox of Pennsylvania, former United States secretary of state, died at his home here tonight after a stroke of paralysis.

Mr. Knox was on his way to the dining-room at 6:15 o'clock when he suffered the stroke. He died fifteen minutes later without regaining consciousness.

Senator and Mrs. Knox returned from England only yesterday, where they had spent a vacation during the recent recess of Congress, touring by automobile. The trip seemed to have benefited the senator, and he had given no indications of failing health.

Mrs. Knox and the senator's secretary, F. W. Martin, were near the senator when he was stricken, and summoned aid, but it was futile.

**FINAL SILESIAN PLAN
EVOLVED BY LEAGUE**

Solution Reached by Council
Necessitates New Lines.

GENEVA, Oct. 12.—The council of the League of Nations has reached a final decision on the Upper Silesian question, and has thereby accomplished the greatest task yet set for its determination with greater despatch than many expected.

The solution reached by the council involves a new frontier line, together with certain measures providing for guarantees against the dislocation of existing economic conditions. The members of the council are confident that this solution is the only possible one, and that it will at the same time roll away one of the dark clouds hovering over Europe, and firmly establish the prestige of the League of Nations.

Dispatch Plan.
The text of the decision will be published simultaneously at Paris, London, Rome and Geneva, as soon as notified to the Berlin and Warsaw Governments.

A courier left for Paris tonight conveying the document to M. Briand, the president of the Supreme Council.

A statement issued by the league tonight says that, confronted by the extreme difficulty of reconciling the ethical and economic elements of the question, the council first of all charged a committee, composed of Belgian, Brazilian, Chinese and Spanish delegates, with the study of the problem. The committee reached the conclusion that a frontier drawn either in accordance with the plebiscite or the economic conditions, without other stipulations, was bound to have unfortunate results.

New Frontier Without Guarantee.
The committee accordingly recommended a new frontier, together with a guarantee against the dislocation of existing economic conditions extending over a period long enough to permit the region to adapt itself as completely as possible to the new situation.

**A Gentle Way
to End Corns**

The Modern Method—Scientific,
Easy, Quick and Sure

THE old corn enders were harsh, crude and uncertain. They came into disrepute.

Then a world-famed laboratory created a new method, and millions have adopted it.

The new way is Blue-jay—liquid or plaster. One applies it by a touch. The pain stops instantly, and soon the whole corn loosens and comes out.

To pare a corn and keep it now is folly. Stop it the moment it appears. Remove it in this gentle way.

Watch one corn go when Blue-jay is applied. You will let it deal with all corns after that.

Send to the drug store now.

Liquid or Plaster
Blue-jay
stops pain—ends corns
a Bauer & Black product

and effectively as possible to the new economic situation.

The committee also requested experts to study general measures, the application of which would assure continuity of the economic life of Upper Silesia and reduce to a minimum the difficulties during the period of change.

The economic stipulations formulated by the experts provide for the application over a fifteen year period, in some cases extending to twenty years, of a series of arrangements respecting railroads and water and electrical supplies, as well as the suppression of custom dues on numerous articles, including wine and coal and the maintenance of the German mark as legal currency in the regions ceded to Poland.

The council recommends the adoption of these plans, together with that of a guarantee relative to political minorities, believing the latter to be an element of a political frontier.

**What to Take for
Disordered Stomach**

Take a good dose of Carter's Little Liver Pills then take 2 or 3 for a few nights after. You will relish your meals without fear of trouble to follow. Millions of all ages take them for Biliousness, Dizziness, Sick Headache, upset Stomach and for Sallow, Flimsy, Blotchy Skin. They and the others of Carter's Little Liver Pills. Genuine bear signature—Bartford. Small Pills, Small Dose, Small Price.

FIRE PREVENTION WEEK

OCTOBER 9 to 15, 1921

LONDON'S FIRE CHIEF APPEALS TO CITIZENS

Extracts From
the Fire Bylaw.

48. (1) That the reels, engines and vehicles of the fire department of the City of London shall have the right of way on the streets and highways in the said city while proceeding to a fire, or answering a fire alarm call.

49. (1) No person shall, within the city, place, keep or deposit ashes in wooden receptacles, or within twenty-five feet of a house or building, unless the same are contained in some safe depositary constructed of brick, stone, or other incombustible material.

(2) No person shall, within the city, keep in a cellar, basement or area under any sidewalk, any waste paper, straw, shavings, lumber or other combustible material for a longer period than twenty-four hours; provided, however, that this sub-section shall not apply to the stock-in-trade or merchandise of any person within the city.

51. Any person convicted of a breach of any of the provisions of this bylaw shall forfeit and pay, at the discretion of the convicting magistrate, a penalty not exceeding the sum of fifty dollars for each offence, exclusive of costs.

"To you men who smoke cigarettes I make a special appeal---Be careful where you throw the 'butts,' for more than half the fires today are traced to this source."---CHIEF AITKEN

**\$64,874,935 Worth of Property Destroyed By
Fire During the Last Five Years in Ontario Alone**
(and this does not include forest fires)

The average fire loss in Ontario for the last three years has exceeded one million dollars per month, a per capita of \$5 for every man, woman and child in the province.

EXTRACT FROM GOVERNOR-GENERAL'S PROCLAMATION

It is shown by authoritative statistics that the amount of the average annual loss of insurable property by fire in Canada exceeds twenty-six million dollars and that in addition to this recorded loss of our developed resources there is a tremendous unappraised loss from forest fires.

In Canada more than 399 persons annually lose their lives as a result of fire.

It is shown by reliable statistics that at least 80 per cent of the fires which occur originate either directly or indirectly through inexcusable ignorance and neglect and are therefore preventable, and that the exercise of reasonable prudence and proper carelessness on the part of responsible individuals would reduce losses by fire in Canada to the comparatively insignificant proportions of losses in other countries.

Economic and humanitarian considerations imperatively demand that human life and material resources in Canada be so far as possible conserved in order that the national prosperity may be maintained and that the general welfare of the people may be measurably increased.

It is desirable that the attention of the public be directed to the extent and underlying causes of the preventable loss of life and property by fire and to the best and most practicable means for its control and that a specific period of the year be set apart and properly designated for the dissemination of such information.

Now know ye that we, by and with the advice of Our Privy Council of Canada, have thought fit to appoint and do appoint the week commencing Sunday, the ninth day of October, and ending on Saturday, the fifteenth day of October, in this present year as "Fire Prevention Week."

**Perhaps It
May Be Your
Place Next!**

Better make an inspection of your home today—
