Payne, the George Kelly of the circuit, coming in from the field, is to work the keystone posiheld, is to work the Reyson's posi-tion. Before Payne had a chance to mislay any chances, Sacksetter, the youthful catcher of the Homoners, got a badly split finger in the fifth, and this necessitated another switch and this necessitated another switch in the lineup, Payne being shunted back to the field, while Turner was permitted to go back in the game. Already about 35 entries have been received, and more coming every day. Experts who have seen the Petrolia track, which is one of the few government chartered tracks in the province, claim it to be the best they have run across. If the meet proves a success, it is the intention of the club to have two or three days' racing next year.

In the opening round, after Lewis had landed a couple of heavy blows on Haggerty's jaw, the latter went into a clinch and was warned for holding. After they were separated, the Canadian again assumed the offensive, and landed smartly, having much the better of the second. The second round opened with some fierce milling. Lewis had the better of it at this style of fighting, and sent the American back to the ropes. This round was also Lewis'.

Personally, I like the jigger be'ter than any other one club. You can do practically anything with it off the tee if you wish to. A jigger is an easy club to use and I have a rule about clubs which I tell beginners—'If in doubt, use a jigger." If there is a heavy shaft on the club it can be used to play out of sand—though a niblick is to be preferred for such service. If you have no jigger in your bag, make it the next club you buy and you'll have a little all-purpose stick which will come in handy right along.

There are obvious benefits to the purchaser in Dodge Brothers policy of making constant, gradual refinements in their product instead of changing from one design to another
