SHAKEN BY KARTHQUAKES.

Southern Austria and Portions o Italy and Hungary Seriously Disturbed.

Buildings Thrown Down and a General Panic Experienced in Various Places.

VIERNA, April 15.—Shocks of earthquake occurred throughout Southern Austria last night. At Laibach thirty-one shocks were felt. All the churches, public buildings, business houses and private residences in town were damaged. Several persons were killed by falling walls, etc. A large number of persons were more or less seriously injured. All the clocks in this city stopped at 11.20 o'clock this morning; persons arriving at railroad stations report deaths and damage to property in many towns. They say that along the railway lines they saw thousands of people camped in the fields. The trains were rooked by the shocks. Some say that the rolling motion was as noticeable as on a ship at sea. All the reports indicate that the shocks followed lines from Florence to Para a Florence to Vienna and Serajano, in Bosnia, to Stein-Amh-Angar, in Hungary.

Trieste four. Shocks were also felt at Ab bazzia, Arco, Gorizia, Cillia and other places, in all of which buildings were damaged. Slight shocks were also felt in this city. In many districts the people are camping out. During the earthquake at large sums for their evidence, and that Camping out. During the earthquake at large sums for other witnesses have been hired in large of Terrebonne. Hon. Mr. Arsenault will be ROME. April 15.—Shocks of earthquake were experienced in Venice and Verona yeswere experienced in venice and verons yesterday. Many buildings were damaged and several persons injured. At the first earthquake shock the people fied to open spaces TRIESTE, April 15.—Persons coming from

Laibach give descriptions of scenes of terror during the earthquake there. The first shock was so severe that the whole population was aroused and hundreds ran naked into the street. By three o'clock the streets were blocked with carriages in which the sick and children were being conveyed to places of safety. A little later vans loaded with furniture could be seen on every side. Men and women carrying clothing and boxes of valuables crowded the atreets and often stopped the progress of the vehicles. Terrified groups knelt on the corners and before the churches praying for deliverance and begging the priests to pray for them. The barracks, the museum, the distillery

and half a dozen other large buildings were laid in ruins. Scores of other buildings were cracked and half shaken from their oundations. At Fiume an audience in the Players' theatre had just risen to leave the crowded madly to the exits. Many persons were injured, but none tatally. All night boats fiiled with fugitives put out from the Flume wharves to the shipping. There is hardly a vessel in the harbor without several that it was engineered by the Standard Oil

throughout the day.

CHINA AND JAPAN.

LONDON, April 16.-The Times correspondent in Shanghai says: "Li Hung field which originally reduced the price of lated terms of peace are: 1. The independsion of Fermosa; 5. An indemnity of \$200,000 000; 6 An offensive and defensive alliance between China and Japan. Shanghai dispatches report great excitement there and signs of an outbreak, as a result of a proclamation purporting to be signed by the Emperor, stating that the empire is ended and that he, the Emperor, is unable to further govern the country. The proclamation charges officials with con ruption in office. It is said secret societies issued the proclamation and the Emperor

The Standard's Berlin correspondent mentions a rumer which is credited in some quarters that the Japanese Field Marshal Yamagata is the rich Duke Johann of Austria, who several years ago gave up his titles, took out a ship to the South American coast as 'apt. Johann and has not have the standard's Berlin correspondent mentions. They were all shackled and accompanied by four officers under command of Keeper Quilty. They are transferred to the Stony Mountain penitentiary, owing to the increased facilities for keeping convicts there. had nothing to do with it. coast as (apt. Johann and has not been heard from since. The Standard correspondent seems to believe this remarkable rumor for he gives many reasons why he thinks it may

THE SCHOOL QUESTION.

WINNIPEG, April 16 .- (Special) -In an interview with the Free Press representative to-night Archbishop Langevin denied that he had received any encyclical letter from Rome on the Manitoba school question. His Grace, however, said he had received a leter from Cardinal Vicar Ledochowski, in would be excommunion

GLADSTONE AND ARMENIA.

LONDON, April 15 -Right. Hon. W. E. Gladstone received a delegation of Armenians at Hawarden to-day. He assured them of his profound sympathy. He was visited on Saturday by three Armenian refugees, who are being exhibited in London as a means of exciting sympathy. The refugees were, it is said, persuaded to leave Biblis by an Armenian named Hoyadjanz, who arrived there recently from America. The Armenithere recently from America. The Armenians of Bitlis are indignant at the action of Hoyadjanz, and say the refugees were virtually kidnapped, and that they wanted to return to their own villages.

The agitation has received a fresh impetus by a letter from Mr. Gladstone writers and Mr. Athle in which Mr. Cladstone

ten to Mr. Atkin, in which Mr. Gladstone says: "The snare lying ahead is that we may be tempted to abandon all useful action by promise of reform. Mere words from the Turks are not worth the breath used in speaking them."

The Globe's correspondent in Constanti nople re-asserts that most of the stories of Armenian horrors have been invented by interested persons and are part of the propa-ganda of an organized political campaign against the Port gainst the Porte,
The Speaker's Constantinople repres

correspondent attempts to weaken the effect of the coming report of the Armenian commission of inquiry by asserting that a mass committed by Armenians upon Turks in Moosh and other places near by.

COAL OIL.

Another Jump Expected-The Consumption Much Greater Than the Production.

PITTSBURG, Pa., April 15.—Another jump n oil is expected. Assemblyman H. T. Marshall, the father of the bill repealing the law prohibiting the consolidation of pipe lines, said last night the market will continue advancing for some time yet. A. Mc- feet where oil is expected. Mullen, a prominent broker, thinks that the building when the first shock came. All Standard is short on French contracts and is buying up the production to save itself.

REVELSTOKE.

(From the Kamloops Sentinel.) The news about the townsite dispute was received with considerable satisfaction, s an increase in the production beyond when the production between the production one of the most extraordinary of recent political developments; but it would be still more extraordinary if any county in the probability of the smelter being put in operation with increased facilities for handling ore, those more especially internal lack for a great advance in the prosespecially because it is thought the deested look for a great advance in the pros-

convenience from the water rising in the river. The work has been finished in less

be made a success and the benefit it be to the farming community. Lists were opened for those who purpose to subscribe for stock, when the proposition received good support and the raising of the required mount seems assured. A committee will take charge of securing further support and arranging for a supply of the raw product

possib'e the washing away of the atructure by the high water in summer.

(From the Kootenay Mail.) W. F. McCulloch, a resident of Victoria, but in 1865 a miner in Big Bend, stopped in

Revelstoke for a day or two while on his way into the Slocan mining district, being a shareholder in some of its mines. Thirty years ago on the first day of April, 1865, he started with a party from Colville for Big Bend. One of the most important creeks of that district bears his name.

On December 12th Andrew J. Whalen was drowned in the Columbia river at Revelstoke, and on Good Friday, April 12th, just four menths after, his body was found. David T. Hall and Charles D. Taylor were going down the river in a row boat to their ranch at Hall's Landing, and when near the mouth of the Illeoillewast they discovered a body in the Columbia about 50 feet from China that it can accord in a row in the columbia about 50 feet from the columbia the shore, which proved to be that of Whalen. The jury found that the deceased, Andrew John Whalen, met his death through accidental drowning on the night of 12th December, 1894, in his endeavor to save his friend, E S. Wilson.

Robert Caley, who came in from Big Bend this week, reports that work on the placer claim on Gold Stream, in which he is interested, has been stopped for the present. The water rose so fast that it could not be continued. Charlie Norleins has been prevented from going on by the rising water.
Before stopping, however, he proved his ground by sinking to bed rock, which took two days, and gave \$72 a day to the man.
When the water falls again he will work with renewed encouragement, and have the wing dam in shape to resist damage by the

The first movement of ore after navigation opened on the river was made on April 6, and between that date and the 12 h twenty-one cars were shipped from Revel-stoke, all being consigned to Omaha, with the exception of four carloads which went to Tacoma, and all from the mines of Slocan except two carloads which were from the Silver King and came out by way of Nelson. The total movement of ore during these seven days amounted to 3561 tons, and the following named mines were represented: Two cars from the Alamo, six Reco, five Noble Five, one Deadman, two Alpha, one Yakima, one Idaho, two Silver King, two Slocan Star. All the ore is classed as two Slocan Star. All the ore is classed as galena or silver lead, with the exception of tion of affairs. that from the Silver King, which is argentiferous copper.

Three days ago the large force which has been for about two months on the river bank under the immediate supervision of Engineer Hamlin and the general direction of Chief Engineer Gamble, was discharged About 1,000 feet from the railway bridge, as far down the river as the Central hotel the mattrasses, composed of wire, timber, brush, bolts and stone, have been placed to protect the bank from the spring and summer floods. It has the appearance of being a very substantial piece of work and very effective for the purpose for which it is de signed.

KAMLOOPS.

KAMLOOPS, April 14.—(Special)—A representative meeting last night endorsed the proposal for a Dominion sanitarium, and steps will be taken to make chief promoter by the respective governments."
