[From THE DAILY COLONIST, Feb. 18.] THE CITY.

Teachers' Institute yesterdry afternoon, Mr. J. Campbell, of the Cadboro Bay school, contributed a naper on the teaching of the physical features of a country, giving a practical exposition of the subject which met with the cordial

VANCOUVER lodge, No. 5, A.O.U.W., at their regular meeting last night instructed their Grand Lodge delegates to oppose any change in the assessment system that may be proposed in the approaching Grand Lodge meeting. Bro. Myers, P.D.G.M.W., afterwards installed the officers for the eusuing term as follows: H. O. Edwards, P.M.W.; G. W. Cavin, M.W.; A. Townsley, F.; J. Townsley, O.; J. Critchley, R.; W. Jackson, Fin.; R. Seabrook, Rec.; J. R. Fraser, G.; D. P. Pickard, I.W.; and J. F. Silver, O.W. Grand Lodge delegates —M. M. Myers and D. Fulton.

sample received yesterday is almost solid iron with fine crystals of quartz. The specimen is now on exhibition at the company's office and should be seen by all interested in the development and progress of mining in the province.

"BRITAIN-not England," was the subject under c subject under consideration at last even-ing's meeting of the Sir William Wallace society—a letter published in the Scottish-American having again brought the subject into prominence. After the debate, which was of course all in the affirmation that the subject in the affirmative, the petition which it is proposed to present to Her Majesty the Queen, on this well discussed question, was passed around and signed by all present. Afterwards Messrs. Douglass, present. Afterwards Messrs. Douglass, Dick, Mackie, and Brownlie, sang songs of the dear land of the heather, Mr. Robertson gave a pipe solo, and Mr. Cornish contributed a reading which was ing item of a very enjoyable evening's programme.

YESTERDAY Saw still another

Mikado and Korinto Gold Mining Co., Rossland 1,000,000 and an ambitious student of the University of Washington, is visiting the city with Mrs. Levy, his mother. They arrived on the Rosslie yesterday morning and will spend the next few days at the Driard, this being the first visit Mrs. Levy has paid the city in over twenty years. Aubrey is a youth of but seventeen veers of age, yet he is the composite

and procure the needed legislation to bring about that result. It is claimed by the people of Nelson that the town is now too large to thrive on strippings from the government test, and that they given relief to thousands who would have dragged out a miserable and more or less are able and willing to rustle for thembrief existence. Dr. Williams by means of his Pink Pills has earned and enjoys the gratitude of untold numbers who were on the verge of isolation or death, because their case defied the skill of the ordinary But sidewalks, passable streets, and a

and if it had all been smelted within the district there would be no more prosperous section of country in America. But owing to the high price of coke, and other causes, it is not likely that any large tonnage of Slocan and Ainsworth ore will be smelted within the district until the completion of the Crow's Nest Pass railway. The smelters at Nelson and Trail now pay about \$14 a. top for the

railway. The smelters at Nelson and Trail now pay about \$14 a ton for the coke used. Were that price cut in two, to both these smelters would be in a position to compete with American smelters for the treatment of silver-lead ore.

There is no great interest felt in Southern Kootenay over the construction of a new road to the coast. The wholesale merchants of Victoria and Vancouver already have competitive freight routes to Kootenay points like Nelson, Kaslo, Sandon and Rossland. While a new road would add another competitor, the road would add another competitor, the country through which it is projected would, says Mr. Houston, probably be wolld, says Mr. Houston, probably be well served by the extension of the Shuswap & Okanagan from Pentiction, and by the building of Corbin's projected road from a point on the Spokane & Northern. Nelson, Kaslo, Sandon and

Rossland have just such railway connec-Rossland have just such railway connections, and they are all thriving.

If the provincial government believes the province is in a position to aid the building of railways, let the aid be given to trunk railways that will open up inaccessable portions of the province; but it should drop the policy of building short branch roads and handing them over free to trunk roads.

As regards the mineral act, there is no express desire in Kootenay for

no express desire in Kootenay for changes. Working miners naturally obchanges. Working miners naturally object to paying a tax not exacted from other working men, and claim that owners can see no good reason why they should not be allowed to acquire the surface rights of their claims. Mine owners, as a rule, do not object to paying their share of taxation, provided always that the taxation is coultably always, that the taxation is equitably

SPRINGHILL COLLIERIES.

HALIFAX, Feb. 11.—The members of the Mechanics' lodge, P.W.A., knocked off work in the coal mines at Springhill to-day, and the entire force of the colliery is now idle. The Mechanics' lodge yesterday notified the management that if the grievances of Pioneer lodge were not settled by 6 p.m. to-day the members of the former would also go out. As the trouble was not settled this threat was carried out. The strike committee of Pioneer lodge to-day presented to General Manager Cowan a proposition for settlement covering all the questions in dispute, which they asked him to sign. It shows that there is not much difference between what the men desire and what the management are willing to give.
