OLD BACKS NEED HELP

When people get to be 50 and 60 and 70, they need a little help sometime to get through with the day's work. Their backs can't stand the heavy loads, the steady strain, of lusty youth. They need

St: Raphael Ont., Jan. 5th. "Four years ago, I had such pains in my back that I could not work. The pains extended to my arms, sides and shoulders. It used many kinds of medicine for over a year, none of which did me very much good. I read about Gin Fills and sent for a sample and used them and found the pains were leaving me and I was feeling better. So I bought one box and before I had used them all, the pains were almost gone and I could keep at work. After I had taken six other boxes, I was entirely cured and I feel as strong as at the age of 80. I am a farmer, now Gi years old." FRANK LEALAND Gin Pills are "Made in Canada", 50c a box, 6 for \$2.50 at all dealers. Sold in U.S. under the name of "GINO" Pills. The House That Krupp Built

This is the house that Krupp built.

This is the gun that was made in the house that Krupp built.

This is the spirit of militarism that appropriated the gun that was made in the house that Krupp built.

These are the generations of iron men that are responsible for the spirit of militarism that appropriated the gun that was made in the house that Krupp built.

This is the ruler who is the culmination of the generations of iron men who are responsible for the spirit of militarism that appropriated the gun that was made in the house that Krupp built.

This is the war that from sheer greed was born, that was waged by the ruler who is the culmination of the generations of iron men that are responsible for the spirit of militarism that appropriated the gun that was made in the house that Krupp built.

These are the countries all bleeding and torn, that were wrecked by the war that from sheer greed was born that was waged by the ruler who is the culmination of the generations of iron men that are responsible for the spirit of militarism that appropriated the gun that was made in the house that Krupp built.

This is the future of hatred and

scorn of the various countries, all bleeding and torn, that were wrecked by the war that from sheer greed was born that was waged by the ruler who is the culmination of the generations of iron men that are responsible for the spirit of militarism that appropriated the gun that was made in the house that Krupp built.-Life.

Should a Christian Fight?

Can a Christian fight? One would think so from the thousands who have been at it for nearly six months. Should a Christian fight? That depends upon circumstances, examples of which are at hand in almost countless numbers since the war began. Though Christians of the right sort are not bloodthirsty men, they are nevertheless patriotic, and if necessity calls for it, they cannot do otherwise than draw the sword or shoulder the gun. We confess that our difficulty is, to count that man a proper Christian who declines to enter the fray when the interests of King and Country are at stake, and when the Kingdom of Christ and all its gracious principles are threatened by the egotistical madness of men whose meat and drink are militarism and its pernicious brood. The sword of the true Christian is sometimes stained with blood.—Canadian Bap-

Looking to The End

Russia, along with the other allies has provided surprises for the Prussian war lords. This will come as a greater blow to them than the failure of their political agents to appreciate the internal unity of the nations they sought to bring under subjection. Even in the military affairs where they believed themselves to be supreme the kaiser and his advisors have found themselves wofully at fault. Now after seven months of war Germany is reduced to a point where it is no better off than Britain -indeed worse, because the men under training in the United Kingdom equal the first line troops of Garmany.

Germany never dreamed of the present situation any more than she did that Russia would prove a formidable foe, not by reason of vast resources of men, but of rapid mobilization and skilful leadership. Germany had organized an efficient war machine, but it could not create or improvise a great military genius.

Joffre and French have proved more than equal to German commanders and in the great eastern campaign the Grand Duke Nicholas has commanded the utmost confidence. He has known when to yield ground if that meant later success. He has allowed the Germans to waste themselves in futile attacks and the process of attrition carried out systematically is preparing the path for ultimate and final victory.

Cow's Individuality

It is still possible to find dairymen who never dig deeper than the surface knowledge of the whole herd giving so much milk, counting simply the total weight sent to the factory one day, or per month, or again simply the average yield per cow for the factory season.

A plain fact that cannot be impressed too strongly is that cows have individuality; people have personality. What makes two cows yield quite different weights of milk and fat when all conditions are practically equal? Even supposing a cow's interior economy were made visible and luminous, has any man the requisite knowledge to fathom all the mysteries of milk-manufacture?

We do know this, the yield of milk and its percentage of fat are apt to vary from day to day most strangely. The first half of the milk drawn may not contain more than half as much fat as the latter half: the cow may have some slight sickness; some of her delicate nervous functions may be deranged temporarily; extremes of weather, undue exposure, excitement, may all influence the yield of milk and the test. Hence it is clear that the sensible way to judge a cow's performance is not by any one test or weight, but rather on her TOTAL YIELD for the season. A cold, matter-of-fact "average" does not give necessary information, cows HAVE INDIVIDUALITY, which is worth studying so that they may repay their owners for intelligent handling. If you are not already testing each cow you own, write the Dairy Division, Ottawa, for forms for recording milk yields and feed.

Cooper's Hawk.

The almost universal prejudice against birds of prey is due to the activities of a few members of the hawk family, chief among which is the Cooper's hawk. Cooper's hawk usually approaches under cover and drops on unsuspecting victims, making great inroads on poultry yards and game coverts. This bird, together with its two near relations, the sharp shinned hawk and the goshawk, should be destroyed by every possible means.

Holy Willie's Prayer

(With apologies to the Shade of Burns) "He is a barking fox, and will bite and do a lot of mischief yet."—Prince Bis-marck on the Kaiser.

O Thou, wha' in the heavens dost dwell, Receive this message from mysel', For, Lord, I think that I've done well,

A' for Thy glory, In sending sinners' souls tae hell. Then hear my story—

Ye ken that Grey, the clever loom, Did a' he could tae keep me doon, Thocht that yout Belgium I'd come roun' To get to France, Where I had vowed that late or soon I'd lead a dance.

Thou kens, Lord, I had ta'en an aith, Alang wi' France an' Britain baith, Tae keep wee Belgium free o' skaith Or enemies' caper;
But'did they think that I'd keep faith
Wi' a scrap o' paper?

To Belgians offer fair I made, If they wad ca't a piece o' trade, And let me through to France, I said I'd pay them well; They scorned my offer, disobeyed, Sent me to hell!!!

Thou hast seen how wi' muckle care, That their whole country I've laid bare Wi' cannon, rifle, sword and spear In blood knee-deep, And left mine enemies nae mair

Thou kens I've been a clever chiel, Thou kens I've been a clever chief.
I've been as cunnin' as the deil,
Tryin' tae mak the British feel
I them did like;
While wi' my fisk, weel mailed wi' steel,
I meant tae strike.

Than eyes tae weep.

When my auld granny died, I wot, When at her funeral I grat,
At uncle's too, my een wer wat,
I did my share; And lots o' sympathy I gat For showing't there.

And Thou hast seen, and Thou dost ken How me they've marred, aye now and then,
And now they're like to do't again,

Unless Thine aid
Ye grant. Wi' it we twa shall en'
Their power and trade.

It's four months now since I began To carry out my lang-made plan, And though I've brocht up a' my clan, I'm no near Calais ite them, O Lord, wi' Thy richt han',
Thae cocksure Allies.

O Lord, if you could see thy way Tae send a storm doon here some day To sink their fleets, the while mine lay
Safe up at Kiel,
I'd gie Thee a' I hae, and say
Thou hadst done weel.

Then after I did France subdue, Inen after I did France studie,
I'd nail the Cara na' a' his, crew,
An' do the same wi' Servia, too
Just as Thy servant.
On knee I pray for this, I do,
Wi' voice most fervent.

Lord, then, I'm sure I'd hae a chance O' crossin' ower the sea frae France, The British beat, I'd then advance, Thine own appointed. Conquer the world wi' shot and lance,

The Lord's anointed.

Thou kens I'm cursed baith far an' near, Because I haud Thy name sae dear,
E'en ministers been heard to swear

(They micht been wiser),
And that in words baith lood an' clear—

'God damn the Kaiser!!!' And some there are far yont the seas, Misca' me said, and would me seize, We'll pick a craw when I get ease, 'Bout German "Kultur."

y want me change my emblem, please, To Monster Vulture!

Grant me, O Lord, this prayer divine, And also bless aye me and mine. An' I will help baith Thee and Thine, Until the en'.
We twa will rule the world richt fine. Amen! Amen!

THOMAS KILLIN.

Miller's Worm Powders were devised to promptly relieve children who suffer from the ravages of worms. It is a simple preparation warranted to destroy stomachic and intestinal worms without shock or injury to the most sensitive system. They act thoroughly and painlessly, and though in some cases they may cause vomiting, that is an indication of their powerful action and not of any nauseating property.
