

The Latest and Best and the only Double Root Cutter Manufactured.

ALL THE WORLD LOVES A WINNER; CONSEQUENTLY

TOLTON'S NO. 1 DOUBLE ROOT CUTTER

Patented September 6th, 1894.

Is the favorite among all Pulpers, having won all the first prizes last year; also captivated the hearts of all the stockmen who have used or seen it. It is a money winner to all concerned and a saver of time and labor to the operator, and one, which sets at sight after a careful inspection, as it will either pulp coarse or fine, or slice by simply turning over the centre grate and turning crank the reverse way; and is considered in either capacity superior to any single machines.

POINTS OF MERIT.

1st.—To change from pulping to slicing is but the work of a moment, which can be done at the one feeding, with no loss of time and no trouble.

2nd.—There are two separate wheels, one for pulping and the other for slicing. Each one is specially adapted for the work it has to do, with the best of knives placed in their respective wheels in a manner to obtain the very best results possible (three for slicing and six for pulping).

3rd.—The united force of both wheels is always used in doing the work in either capacity. This accounts for it being a steady, easy-running and rapid root cutter.

4th.—The Hopper being between the wheels, and having large lower pockets, prevents choking, and with the knife-wheels both internally shielded makes it perfectly safe and prevents the roots from acting as a break on the wheels, and also from jostling them about, so common in all other combined machines.

5th.—Hence the Latest and Best, and, what has been long looked for, a safe, rapid and easy Double Root Cutter.

Soliciting your orders for same, we are, yours truly,

Freeman's HIGH-GRADE BONE Fertilizers

FOR SPRING CROPS

High-grade Bone Fertilizers furnish the cheapest and best plant food known. Freeman's Fertilizers furnish just the plant foods needed; they are of the right kinds for each stage of growth, so that there is rapid and healthy growth from germination to maturity.

Lay aside your prejudices, and do that which experiment and experience have determined to be the best.

You can restore the fertility and productiveness of your soil easier, cheaper, quicker, and more lastingly by a liberal use of our high-grade bone fertilizers than by any other known means.

Sixty per cent. more clean and smooth potatoes.

"Used your Potato Manure on potatoes at the rate of about 500 pounds per acre, which were planted on ground that had been sown to oats without manure the year previous, getting at least sixty per cent. more potatoes than where none was used.

"Also used it alongside of stable manure, using about thirty dollars' worth per acre, and about ten dollars' worth of Freeman's Potato Manure per acre, the yield being about the same, but there was a wide difference in quality. Where Potato Manure was used the potatoes were clean and smooth; where stable manure was used they were very scabby.

"THOMAS CURTIS, Clappison, Ont."

Send your address for catalogue, giving the experience of hundreds of our leading farmers and fruit-growers who have used our fertilizers.
