

The Wild West!

Books, Stationery, and School Requisites for January trade.

Being alive to the fact that attractive lines are needed for the School Trade, we have added to our already extensive assortment some new and taking lines of Exercise Books, chief among which is an entirely new "Five-Center" with the above title.

We shall not attempt to describe this, but shall send Sample Copy to the Trade on application.

Our line of import School Supplies was never more complete.
