

of lading should be attached to the invoice. All measurements must be in metric and the signatures on all documents must be handwritten.

(e) Insurance Certificate

If required, two copies must be prepared to confirm that the goods have been insured by an insurance company having a representative or resident agent in Saudi Arabia.

(f) Ship Certificate

Legalization by a Saudi Consulate of two copies of a ship certificate is required, showing the name, nationality, and ownership of the vessel and certifying that it is not registered in Israel, not owned by nationals or residents of Israel, and will not call at or pass through any Israeli port(s) en route to Saudi Arabia.

Markings and Labelling

Products such as pharmaceuticals, confectionery, foodstuffs and beverages are subject to special labelling regulations. Consumer foodstuffs must be labelled in Arabic. It is not sufficient to affix the Arabic labels over the standard labels. Labels must include the name and address of the manufacturer, the name of the distributor in Saudi Arabia, the container weight and size or number, batch number, the date of packing and expiry date of the goods, and information pertaining to additives. All containers must be marked with gross weight and initials or name of the consignee. If there are more than two containers per shipment, they should be consecutively numbered.
