March 12, 1932.

General Sir Arthur Currie,
President of McGill University,
Montreal, Canada.

Dear Sir Arthur:

There is an educational matter that I believe should be of great importance to Canada, my native country, about which I desire to talk to you. Are you anticipating coming to New York City in the near future? If so, may I have an hour's conference with you then? Otherwise, could I see you at Montreal?

Very sincerely yours,

J. A. L. Waddell
