President, Bell Telephone Co.,
Montreal.

Dear Mr. McFarlane:-

I am very much obliged for the most interesting and valuable material forwarded with your letter of the 27th inst.

The discussion of which you have been so good as to let me have the record will be of very great value, not only when we have under consideration the question of courses in Communication Engineering, but in the consideration of the whole curriculum of the Faculty of Applied Science, to which much of the argument is equally applicable.

Yours faithfully,

Wilfrid Bovey.
